

SHIRLEYWORLD UPDATES
"Let The Bullets Fly!"
Chapter XII

by Timothy J. Muise

* * * * *

- FOOLS FOCUS ON PRISONERS / MISS BUS TO SOUTH BOSTON PARADE

The back wall line of fools in the chowhall here at ShirleyWorld is so focused on the lives of the prisoners here that they missed the "Short Bus" that was scheduled to take their "Pink Beret" squad to South Boston to march backwards in the St. Patricks Day Parade. CO Smelly-Pig (formerly Smelly-Cop) was overheard telling CO Dumbass that one con "got parole" and should have been doing a natural life sentence. Deputy McCan't must have appointed this potential brain surgeon ShirleyWorld "Judge & Jury" as he has yet to give him the coveted sergeant stripes that the rumor mill says he bought (as we know this fool could not pass the test). In 2013 CO Smelly-Pig wrote the most disciplinary reports in ShirleyWorld clearly placing himself in harm's way just as if he was seving in Iraq. "I got four or five serious bouts of carpo-tunnel syndrome from writing those tickets.", Smelly-Pig said. The DOC is going to decorate him with their "Pink Heart" medal and his photo will appear in their fine publication "On The Block" next to the autopsy photograph of Joshua Messier who was beat to death at the DOC's Bridgewater facility. More heros wanted.

- SHIRLEYWORLD SET FOR INSPECTION / LIPSTICK APPLIED TO THE PIG

The yearly state inspection is headed for ShirleyWorld and you should see the abuse opportunity this has created for these correctional cretons. They are painting over black mold, pouring spackling into into structural deficiencies, waxing over blood stained floors, and ridding the region of water bottles and those dangerous clotheslines. They are doing their best to apply "lipstick" to this pig (no not Lt. Urine this time, although that pig could use a stick the size of a baseball bat). Deputy Denied-Oh has taken her two-week hiatus to Hades so they are forced to cover-up the abuse and filth in the "sniff" without her. Never fear Lt. Peckerwood was seen roaming around up there so I am certain he will not pass up a chance to abuse the workers up there. The Stockholm Syndrome crew here are playing into the hands of their abusers all for an extra t-shirt and coke bottle full of wax for their cage. The three amigos, the unit sergeants, are running around with so many bottles of stripper and wax that they look like CO Scumlafia in Kappy's. I hope a stray howitzer shell from Fort Deven's lands on this Shithole and blows their wax straight to hell! Bobby Sullivan, Peter Ladetto, Mel Hicks, Billy Barnoski, Marc Finstein, Scott Rose, and many more die under the watch of these evil layabouts and they want us to worry about an "audit". WON'T BE F-ING HAPPENING!

- MOVEMENTS DELAYED EACH DAY / RUBBER STAMP WORN OUT

The pigs here at the sty are back to calling movement anytime they see fit. They have worn out our fine super, Rubber Stamp Wry-On, and I guess we should have seen that coming. She did her best to make them follow her orders for quite sometime, but as with it in this war of

laziness attrition the guards finally seem to have broken this lady. We had gained a modicum of respect for her as she went at them hard trying to run this shithole like it actually was a working prison, but now it is clear that the ole gal's rubber has worn out and she is just "phoning it in", so to speak, which lends credence to the rumor that she may be turning in her ink pad and retiring this year. Why would she give up the free money and bankers hours? I will keep hope alive that she may still kick these order ignoring fools in the nuts about their dereliction, but it looks like she ran out of gas. Deputy McCan't smiles as she becomes indifferent like him. The Pillow Patrolman of the Greater Shirley Region will be appointed "Acting Superintendent" if Queen Rubber Stamp retires. he can work on getting that Academy Award as he sure is the correctional Marlon Brando!

- RATS LEAP FROM SHIP AND NEW PIRATES SEEK PERMISSION TO COME ABOARD

Avast, there are some new Pirates manning the pumps of this sinking Scow of correctional abusiveness. So many of the long-term ShirleyWorld "rats" have jumped ship going to Gardner or SBCC that the DOC has had to hire some really goofy looking "new hires" to play solitaire on the computers of ShirleyWorld. To see the ShirleyWorld hangers-on try to enlighten these kids with their, "I beat up this one.." and "I told them I would..." lies (they don't do shit without the bitch button close by) they do their best to shape the new "recruits" into a hate-filled self hater who does not know how lucky they are to have a job with the DOC. These fools would have been prime suspects for a "one way" fishing trip Out-o-Gloucester. "I swear Cap, he was standing right there on deck one minute. The next minute he was gone. Too bad were 75 miles off shore!" These pirate pukes have you as their shoulder parrot and are stealing your "Booty" in the form of tax dollars (Lt. Urine is givin up a different type of "Booty" but it is anything but free!). To again add insult to injury these bastards have started another class of recruits! You can't pay for your gas or winter heating fuel and the Pirates of the DOC are getting ready to man another Ship Of Fools financed by your tax dollars. It's time to fire a cannon into the hull of this Black and Blue Pearl of sea of waste. Avast there Matey!

- LT. SHAMELESS PECKERWOOD ATTEMPTS MUTINY / FORCED TO WALK PLANK

Our good ole coward friend Lt. Shameless Peckerwood attempted a bit of a Mutiny here last Sunday in his attempt to go against the post orders to staff the library building. Peckerwood thought those bars on his shoulders gave him the authority to "man the helm" of this scow, but soon found out that Captain McHook had the real power. Shameless closed the building for the 9:00 am movement but a couple of concerned cons, who want what they are entitled to: REHABILITATION, went to Captain McHook and asked why the building was closed with all

the blue suited oxygen wasters running around. You see Peckerwood felt he could pull his usual Sunday "lay your mishapened head down" lazy bullshit, but he was forced to "walk the plank" and had to open the building at 10:00 am. This is just the type of self-hatred this fool has; he would do anything to mess with cons. It is pleasing to know that it won't end there as some folks are going to let Rubber Stamp Wry-On know that this "incident waiting to happen" Peckerwood is up to his usual bullshit. Skull and Crossbones flying high the Black and Blue Pearl that is ShirleyWorld sails off into the horizon of the eternal podium nap!

- TIME MARCHES ON AND THE PRISON CONTINUES TO ABUSE / DENIED-OH MISSES OUT

No one would have believed it but the world keeps spinning, time keeps marching on, and the abuse machine keeps on turning here at ShirleyWorld even while Deputy Denied-Oh takes her paid respite in Hades. Many here, the deputy included, feel that the "correctional world revolves around Deputy Denied-Oh", but the breaking news is that this Ship Of Fools keeps sailing for the rocks even without the evil deputy here to shovel coal into the boiler of hate. CO Scumlafia still talks shit to cons, whiskey on his breath. CO Hands-Of-Sin still abuses blind patients and dementia patients in the HSU. CO Head-Wig still stirs up climate issues all with Lt. Peckerwood and Sgt. Bitch looking on. Lt. McHardly crowds the chowhall (except when the IPS are there watching him) and Sgt. Young-Un takes guys water bottles. The machine of hate that is ShirleyWorld charges ahead creating angry young men to be released upon the streets of the cities and towns of Massachusetts. Gold doubloon after gold doubloon gets stuffed into the pockets of these layabout fools and the tax payer just ignores their evidenced failure; 47% recidivism rate and beating death of Joshua Messier. Deputy Denied-Oh has certainly earned her coveted eye patch and shoulder parrot, but she is not required at the helm for the ship to sail into deeper misery!

- SGT. "BIG CHEW" CHARLESTOWN RETIRES FOR "ALL MALE REVIEW" LADIES SWOON

ShirleyWorld has suffered a big loss this past week with the news that Sgt. "Big Chew" Charlestown will be retiring from work in the human slave industry and will be joining a traveling "All Male Review" called, "The Pipe Layers". These burly men dress as construction workers while singing the "oldies" on the stages of Nursing Homes and Sewing Circles across the country. The "Big Chew" has been known to lay some pipe in his day and was widely sought after for this prestigious review. Many here felt it was in his best interests to leave the facility as we all saw how Lt. Peckerwood, known to be very "light in the loafers", has been looking at him lately. Good luck on the tour Chew. Lay that pipe.

More To Come...
