

# Sexually Deprived

I was in the process of being transferred to another institution. After a 13 hour long, miserable bus ride, with shackles and cuffs on. I underwent another 6 hour processing before setting foot into my designated housing unit located in the Oklahoma Transit Center.

I was assigned a cell on the upper tier all alone. I was very fortunate to not have a cellie at about 9:45 pm the unit officer begins to lock us down for the night. About an hour after count I hear someone tapping on the ceiling above my cell when the ~~guy~~ guy in the cell beside me directs me on how to take the water out of the toilet and talk to the girls. At first thought I assumed he was joking, but figured what the hell.

So I begin to clean, disinfect the toilet and to empty out the water when all of a sudden I hear the voice of a young female. She turned out to be a 22 year old Mexican/American from Texas that was 5' tall, 98 pounds, long black hair down to her ass, with the sexiest accent I ever heard.

We had talked and sent daily letters to one another through the outside rec cage. She would tie the contents on to the end of a sheet and drop it down one story to me. As we continued to get to know each other I

wondered if she'd know that I had  
been secretly jerking off to the sound  
of her voice at night. I knew after  
receiving her letter that morning  
that she wanted to fuck herself for  
me. So I decided to tell her what  
I'd been doing all along. She was so  
turned on and wanted me to jerk  
myself off right then while she played  
with her pussy. I told her that I  
would as long as she would leave  
her panties on and send them to  
me the next day. We got each other  
off 3 times that night! It was great.  
The next day I got her letter and  
her panties they are a small pair of  
baby blue cotton ones. My dick was  
throbbing. I ran to the cell and  
called for her. I opened them and  
could see her dried stains. I  
smelled her in them. She smelled  
so good. We started to talk dirty  
and I could hear her meaning  
as I unwrapped her panties around  
my cock and began beating my dick  
to the sound of her. When all of a  
sudden she stops and tells me that  
if I wanted to cum or hear her  
cum that I was to stuff her dirty  
panties into my mouth first.  
I turn her panties inside out and  
put the whole patch of them  
into my mouth. God I can taste  
her on them. She asks if she tasted

good and all I could do was mumble  
yes while I sucked at her juice  
stains. She started rubbing herself  
wildly, moaning and saying the  
diciest shit to me. I lasted only  
a minute longer and shot the biggest  
load of cum I've ever. I'm able to be
