September 4th, 2014

Hon. Barack H. Obama  
The President of the United States  
THE WHITE HOUSE  
1600 Pennsylvania Ave. N.W.  
Washington, D.C. 20500

Dear Mr. President;

I do not expect you to write me back, but I am writing this letter in connection to the Criminal Justice System in America. People within the law enforcement community are indeed very indifferent to the problem, because crime itself has become one of the greatest economic resources that secure jobs in America.

Enclosed please find a copy of the article "Lock Up, U.S.A." and my personal Poem/Poetry reflecting those feelings. - Sooner or later the root/cause of the problems has to surface for the better of the country.

Here in Massachusetts, minorities have become a majority accross the board within the prison population. The selecting prosecution and racial profiling is a touching subject. If a person commite a crime they have to be arrested, but on the other hand, minorities have been arrested and convicted by regional areas more than the rest of the counties on this State. (primarily 7 counties).

The Court System of Massachusetts has been found guilty of Racial Bias against minorities by the higher Court in the State and the process itself has been diverted with other high criminal trials that is taking the public attention. While this practice is taking place, the Civil Right Division of the U.S. Department of Justice is playing an indiferent role for many years.

- OVER -

Mr. President,

I am hoping that you read my web-site "Betweenthebar.org" for further information on this matter. In particular, now, when I saw you in a Press Conference saying that "We have to look into the ROOT-CAUSING of Crime in America."

Please keep in mind that we have a gun culture that filtered weapons into the community. It is easier for young people in the street to rent an illegal gun, that it is for an adult to buy one?.

Mr. President,

Crime in America should not be a business, this is a growing problem that we need to address to safeguard our children within the school system. Studying the prison subculture and creating a consciousness of responsibilities would improve conditions to deflecting the business mentality.

Please note that I am a convicted of murder who loves America and I regret being in prison, but I am placing my 43 years of incarceration and experience at your disposal.

Respectfully yours,

LUIS D. Perez W38937

## *The Walls, My Friend and Me*

My worse enemy  
turns out to be  
my trusted friend,  
talking to the walls.

High class prison fence  
human rights on display  
crime and business underway.

Spring days are falling  
from April to May,  
important passing days  
over the years they all  
become the same.

There is no Christmas  
or birthdays, 365 days  
without Sundays or holidays.

Decades of dying loved ones,  
releasing the emotions which  
bleed out on papers.  
The silent pain is raising  
memories of the youth.

The comparison of Justice,  
the Gulag and the business  
between oppression and job security.  
The physical death or  
Dying by age, they both  
are the same.

While I was talking to my  
friendly walls, social  
species is being experimented  
on by two different Gulags.

Job security, concrete souls,  
through the bars,  
I see America, sucked the  
breath out of me.

Torture and physiological  
punishment are human rights  
violation, unbearable cold  
cell doors, suffocating chains  
waiting for my death.

Socialists and Democrats have their  
own Gulags, one finished life  
fasted and terrorizes the public,  
while the other one published the  
terrible crimes. Increases the  
prison population to create  
jobs without conscience.

HYPOCRITES,  
corrupted governments  
mutating functions  
and arrogance are the  
ingredients of modern  
GULAGS

Gang culture reflects  
multiple nations,  
gangsters in power are  
running the country,  
while we are seeing freedom  
through the flying birds  
and talking to the walls

The Walls, My Friend and Me.
