### Psychic Trauma Test Analysis

#### Score of 0

You appear to have eliminated problems related to fear of whites and low self esteem due to the African American slave experience. You have learned to be proud of your racial identity and have a healthy sense of self-worth.

#### Score of 1-20

You have taken some steps toward developing a positive self image. However, your attitudes are still affected by racial prejudice in society.

#### Score of 21-40

Many of your perceptions are influenced by preoccupation with what whites may think and do. This could be having a negative effect on your self esteem.

#### Score of 41-60

You are struggling with feelings of inferiority, and your self esteem has been greatly damaged. This could affect your ability to reach personal and professional goals.

#### Score of 61-80

You have suffered extreme trauma. You have accepted your presumed inferiority as a matter of fact, and may unconsciously act out the role by purposely performing below standard or seeking out demeaning relationships. You will have to work hard to change deeply ingrained self hatred.

Review your test answers and note the questions on which you scored the highest. Questions 1-5 examine automatic acceptance of whites as authority figures, leading to fear of white disapproval. Questions 6-10 examine feelings of personal inferiority to whites and unwillingness to step out of one's "proper place" to strive for higher goals. Questions 11-15 examine rejection of African features and preference of European features when determining physical beauty standards. Questions 16-20 examine rejection of the African identity, while desiring to identify more with Europe and European culture. Question 21 examines the tendency for denial. It is often difficult to admit problems. However, honesty will help you overcome the effects of psychic trauma.

AS SALAAM ALAIKUM, RAMADAN MUBARIK.

The 1st day of Ramadan 2014. The beloved brothers raised 2 questions and set the course of knowledge seeking. #1: Who are we and what should we call ourselves? #2: What should we be doing? During our fast. We have been given many signs, keys, clues, hints, and facts from the many different sources in answering said question. Those sources being ourselves, the videos, and more importantly, The Holy Qurān. This is my attempt to take my clear understanding and make clear to others. This is in no way THE answer or THE solution. It is merely A answer and A solution. Universal is the path to freedom. Collective is the body. Knowledge Wisdom Understanding the foundation of peace!

### GETTING BACK TO BEING GOD

This is merely a surface scratcher. Do your due diligence and study. Research, find yourself, know thyself. Then play your position according to the degree of your step and stage.

We were informed/reminded by the beloved brother Dr. Khalil Al Mansur, in his speech in New York @ the Slave Theater. That threw his studies and his travel and his relationships. He has been informed and learned that the entire 3rd world believes it is the Blackman in America that is to set free and lead the entire 3rd world. (What does 3rd world war mean to you now?) It seems that only the Blackman in America is unaware of this phenomena. Why? How can the Blackman in America be the leader of the entire 3rd world nation and not know it? How can the entire world know that the Blackman in America is the way to their justice, equality and freedom, and yet the Blackman in America not have any of that himself? This is my answer, Get back to being God.

Before we begin. Let us first figure out where we are now, how we got here and how we can get out. Then and only then can we know where we are supposed to go, and who we are to be. Now, what happens when a group of people are kidnapped from their homes, smuggled away in chains and held captive in a foreign land, where they are tortured, raped and forced to perform hard labor by the lash of the whip and under the constant threat of death? Well according to Sultan Abdul Latif and Naimah Latif and their studies. The result of said actions is PSYCHIC TRAUMA.

#### WHAT IS PSYCHIC TRAUMA?

PSYCHIC:Pertaining to the mind or soul; mental as distinguished from physical or physiological.

TRAUMA:A severe emotional shock, having a deep often lasting effect on the personality.  
(Webster's New Collegiate Dictionary).

These two words have been used by psychologists to describe what happens to the victims of extreme psychological abuse. We believe it perfectly defines the distressed mental condition that African Americans find themselves in today.

What happens when a close-knit, harmonious community is shattered by strange looking foreign invaders, who kidnap a number of it's citizens? What happens to those citizens who are smuggled away, locked in chains, and shipped off to a foreign land, where they are murdered, tortured, raped, beaten, and forced to labor in the fields under the lash of a whip and the constant threat of death? What happens to them

when they are forced to have sex with each other for the purpose of producing babies, who are then snatched away and sold, like puppies, to strangers?

What happens to their children, who learn to live in mortal fear of their captors, and who grow up being taught that they come from a people who are ugly, stupid, and commanded by God to live as servants? What happens to these children, when they are raped by their captors, and forced to give birth to their captors' babies, then told that their offspring from these rapes are superiour because they look more like the captors?

And what happens to the children concieved through rape, who are taught that the only way they will be treated with any kind of respect is if they can look, speak, and act like their captors? What is the mental condition that develops as a result of such an experience? We believe it is Psychic Trauma.

The Blackman in America has been changed into a completely different being than who we were. We have to heal ourselves. No one else has come to fix our state or change our condition. ALLAH said in the Holy Qurān Surah 8 ayat 53: "Because Allah will never change the grace with which he hath bestowed on a people until they change what is in their (own) souls: And verily Allah is He who heareth and knoweth (all things)."

We must change our internal condition if we are to have assistance in changing our external condition. No one is going to help us find ourselves. No one else can. They all lack the knowledge, or power, or will, or want to replace the Blackman to his rightful place on the planet. We have to do this ourselves. It starts with understanding how we got into this condition in the first place. Let us learn how we became the lost people we are today, so we can learn how to get back to who we truly are...GOD.

Every immigrant who comes to America from another country brings along a language, a style of dress, family traditions, and many memories of home. An intact culture and identity, given the immigrants family a foundation on which to build upon.

America's "Founding Fathers" never intended for the Africans they imported by force to develop their own communities based on African culture traditions. America and other European colonies sought to create a permanent labor class. African Americans are that labor force. Today, the African American spends 316 Billion dollars in America annually. If they are able to spend that much, think how much they make for the owners of the land? It is good business keeping the African American in his slave mentality. Commercial investors, wealthy landowners, colonial governments, and other unionized Nations combined forces to suppress any means whereby Africans could ever become a dominant force in the land or in the world and one day reclaim dominance of the earth and perhaps seek revenge for the brutality of slavery.

To gain complete control, all resistance to the system had to be crushed. What was in need was a mindless drone. A laborer absent of thought or imagination of being better, or more than a laborer. Not a MOOR, not MANDINKA, ABYSSINIAN, GHANIAN; not sons of University professors; not daughters of Kings; not Muslims; not Gods. Just simple hard working, non-thinking, non-caring niggaz.

Understanding the steps it takes to make a nigga are key to understanding what it takes to undo this making. Enclosed is a copy of The Letter of 1712. More commonly known by the Authers name Willie Lynch. For it gives historical proof of these steps. I have enclosed it for your edification. However, I will be using the formatted steps as depicted by the Latif's.

## STEPS IN THE MAKING OF A SLAVE

### REMOVE IDENTITY

Once an African was captured. He/she was stripped of all clothing. Even having the head shaved. Having to kill any and all indication of National affiliation, individual status and personal swagg. Most importantly stripping one of their NAME. In European history books all pictures of slavery are of naked Africans. Dehumanizing the Africans, and giving the impression of savagery and need of civility. Stripping the slave of his/her understanding of God and given a new understanding is imparitive.

A glimps in the life of Mahommah Gardo Baquaqua. A captured African muslim made into a christian slave. Who eventually regained his freedom and wrote a biography. Mahommah Baquaqua was raised in a muslim community in what is now known as Northern Benin. Captured as a boy. He was sold to a plantation in Brazil. He became despondent, and, turned to drinking alcohol. He escaped from the plantation, but was recaptured. He became suicidal. He developed mental illness. He escaped to New York where he was imprisoned. He escaped to Boston. A confused, depressed alcoholic, he traveled to Haiti and met Rev. William L. Judd of Baptist Free Mission Society, who convinced him that his problems were because of his "Heathen" religion. Mahommah was finally baptized as a christian. After his baptism, he continued to drink heavily and experienced severe emotional problems. As in most cases. Religious conversions rarely addressed the devastation of being taken from home, enslaved, and beaten. The root cause of a slave psychological trauma.

### CHANGE LANGUAGE

To keep uprisings from happening. The seperation of large groups who spoke the same language. The African "NEW ARRIVAL'S" found other slaves already speaking english, spanish, french, dutch or portuguese. Drums were banned. Writting out of the question. Learning a new language fast was the only answer. Often the educated African was superior to the european slaveowner's education. However, forced to learn another language without the benefit of formal schooling in that country, often a university educated scholar had to struggle to communicate with thoes on the plantation. White enslavers pointed to the language difficulties and called the African dumb. However, the ability of Africans to develop a common language between them in spite of their different backgrounds, actually shows extreme intelligence. The language spoken by the slave, which forms the basis of the dialect used by many African Americans today (so-called Ebonics or Slang), actually has it's roots in many West African languages. (For more on this subject read: "Black English" by J.L. Dillard.) Having no language to tie the African to his home. He had to try to rely on the language that ties him to his prison. Then by outlawing teaching a slave to read and write. Slaveholders were able to convince many American born slaves that "Niggaz" really are less intelligent.

### INSTILL FEAR OF THE WHITES

An overwhelming fear of the whites is important to place in the slaves so that there is no thought of rebellions. This was done by the most extreme violence. This fear of whites was deeply impressed in the minds of black slaves. Disobedience might mean torture or death. It was the duty of the parents to protect their children by instilling fear and obedience to the white man. Unknowingly, to this day some African American parents teach their children fear of whites. Have you ever heard, "This is a white man's world. You have to play the game by his rules?" Recall #5 on the Psychic Trauma Test. If you strongly agree, agree, or are unsure, then you very likely have an unconscious

fear of whites, especially those who appear to have some type of status or authority. A common disciplinary practice of African American parents can be traced back to slavery. The philosophy of instilling fear into the child. The whole community at times join in this philosophy and work together to instill, reinforce this fear into the children. Children's spirit's are broken at an early age as a means of protection against later, possibly fatal punishment from Massah'.

#### SEPERATING THE FAMILY

The crushing blow to the transmission of education, skills, African languages, cultures or religious practices; was the breaking up of the family. Being sold away or watching family members get sold away is an indiscribably devastating experience. Many slaves became so overcome with grief they went insane. Others became suicidal. Seperating children from parents was perhaps the greatest factor in the loss of African culture, language and religion. Once children were taken away, their upbringing was no longer supervised by parents who could pass down knowledge of self or traditions.

Check this out. When importation of Africans became outlawed in North America, this hurt the slave more. It had a tremendous effect on the development of the Black American Culture. Without the flow of new arrivals to reinforce African customs and values, American born slaves grew more and more alienated. White slave owners were able to create a most repulsive image of Africa, which black slaves had no choice but to accept. The process of seperating children from parents and teaching the children to despise their heritage is something African Americans should study closely. This practice is still strongly in place today using drugs, prison, military, welfare, foster care, and police killings. Man, it's a dirty and devilish thing!

#### SEX: A TOOL OF POWER & CONTROL

The enslaved African always lived with the reality that marriages among slaves could never be held sacred. One could be sold away, killed, or the slaveowner could take a liking to one's wife. Then came the breeding of slaves. Strong men and women were matched up for the purpose of producing healthy offspring to exact good market value. Monogamous family life was an obstacle in such system, that merely became extinct. It was considered good buisness to encourage promiscuity among the slaves (for more info on this subject read: "Sex and Race" by J.A. Rogers).

The powerlessness, black men felt when witnessing how white men, merely by the power of their whiteness, could sexually abuse any black woman they desired; created a hostile relationship between black & white men. This may be the root of racial conflict today. Historically, sex has been used as a weapon of war, and symbol of conquest and authority. It's not important to get too deep into this topic now. I'm sure we understand (for more on the subject read: "Against Our Will: Men, Women and Rape" by Susan Brownmiller).

It is important, however, to remember while African men were emotionally affected by these rapes. It was the woman upon whom the crime was committed. It was the woman's sense of dignity and sexual integrity which had to be crushed in order for slavery to be successful. The rape of African women served as an important means of mind control. Forced sexual relations with white masters had the effect of destroying the black woman's self esteem and feelings of personal worth- a common response for victims of rape.

Soon the black woman learned to use her attractive powers to better her condition for herself and her children. After recieving better food, clothing, and living conditions as the master's concubine, some women concluded that an enslaved black man, though he may be loving and gentle and kind; could not offer the protection and material comfort that a white man could. The blackman's view of a sexual

relationship between the white slave master and black slave woman only confirmed his own weakness and inferior status. A vast number of African American men still react with anger and hostility when they see interracial relationships today. In many Blackmen minds, a Black-woman intimately involved with a white man is a reminder of his inability to compete with white male wealth and power. Recall #15 of the Psychic Trauma Test. If you strongly agree, agree, or are unsure. Your personal sense of self esteem may be so affected by the master/slave relationship, you interpret interracial couples involving white men and black women as a reflection on your own manhood. (Note: The Blackwoman may have same test answer but for different reasons. I am focused today on the Blackman. To learn more and take the Psychic Trauma Test your self, read: "SLAVERY: The African American PSYCHIC TRAUMA" by Sultan Abdul Latif and Naimah Latif).

#### COLOR CAST SYSTEM

Just as rape has been a symbol of war time conquest. So has the impregnation of women of the conquered nation by the victors in war. The children who are born from these pregnancies often look more different from everyone else. Their very presence is a permanent reminder of the conquest of the nation. This cast system also created a new slave who catered to the masters over the slaves. A slave hierarchy was created to prevent uprisings. Mixed race house servants and overseers, who were many times children of the master, helped maintain white control over the plantation. Some identified so much with the master that they reported all acts of disobedience or rebellion to master. Earning greater position of trust and authority. On the other hand. This new slave also became a help for the field slave. Sometimes the trusted light skinned house slave, rather than serve the master, escaped to the north by "passing" for white, or acted as the plantation grapevine, sending messages to the slave quarters. Some house slaves have helped other slaves escape or help plot insurrections.

#### FORCED RELIGIOUS CONVERSIONS

Conversion to christianity was an important act. In 1988, historian Muzafar Ahmad Zafar noted that a vast majority of the Africans brought to America as slaves were from the West African Empires of Ghana, Mali, and Songhay. These areas were predominately Islamic by the 16th & 17th centuries. Africans were forced to change their original names to european christian names. This helped destroy culture, economic and religious affiliations with specific nations in Africa. Zafar estimated that 80% of those taken from Africa were muslims.

Whites noticed that once the African slaves were converted to european christianity, they became more manageable. Religion became a political tool to control the slaves, protect business interests, and support slave trade. Islamic guidelines of regular prayer, fasting, prohibition of alcohol and pork, and respect for the institution of marriage was systematically crushed. Such was the case of African muslims under the brutal system of european slavery. They were forced to forget their native tongues. Arabic was for the most part, outlawed. It was forbidden to openly pray, fast, or practice Islam. Pork was forced on the slaves as a main staple meat. Families were broken up and family life was not encouraged. Adulterous relationships, with all their painful and destructive consequences, became the norm.

Masters were very careful in their selection of biblical scriptures which could be read to the slaves. Any scripture references to Moses and Pharaoh and escaping to freedom were strictly banned. Slave owners would sit in on church sessions held by black preachers to make sure no rules were violated. White preachers and christian masters would expound endlessly on bible verses like "obey your master", and "forebear punishment". Even if it were undeserved. Worse of all they

constantly emphasized, "Forgive thy enemies for they know not what they do". These things earned your rewards in heaven.

#### IMAGE: THE AFRICAN SAVAGE

The last step in creating a successful slave trading industry. To convince the next generation of Africans, those born as slaves in America, that it was better to forget a shameful past in Africa. Forbidden to learn any other language than that spoken by Europeans, the children of those first imported Africans were kept ignorant of all their people had ever been. Children sold and separated from their parents, had only the Europeans created image of Africa-the "naked jungle savage". Newly imported Africans emerged naked from slave ships.

Whites painted the Africans as grotesque. Africa was a place of black cannibals who ate human flesh; ape-like people with rings through noses and swinging from trees. Gorilla faced men and women who wore only tiny loincloths to cover their bodies as they scurried around in crude grass huts and spoke unintelligible gibberish. The word "AFRICAN" became synonymous with "SAVAGE", as did the word "CIVILIZED" become synonymous with "WHITE" or "EUROPEAN". Civilized meant living in a house like white people, wearing cloths like white people, being able to speak like white people. To be African was to be dirty, ugly, subhuman. American born slaves turned from such an identity in disgust, and looked for something else, ANYTHING, other than African to call themselves.

In the Willie Lynch letter, the making of a slave. He stated that the process, if done correctly could keep the slave in this state for hundreds of years, maybe even thousands. To achieve this long term goal two important things had to be done correctly. Assure the fear of whites is reinforced and create an educational system that will continually keep the slave blind of their true identity.

#### EDUCATION/INDOCTRINATION

Suppression of knowledge has been developed into a fine art in today's educational system. American schools are designed to produce more non-thinking, self-hating slaves. Example: In the Gambia, West Africa, a sixteen year old black boy is being drilled in his lessons. He is not reading from any book, and without paper or pencil, can recite centuries of history. Naming details of people, places and events in chronological order, using only the powerful tool of a well trained mind. In the United States, on the North American Continent, a sixteen year old black boy struggles to recall basic facts about the country he lives in. He is unable to remember the stories he read in his history book. The people, places and events are all a blur in his mind, and cannot pass his exam. The boy from the Gambia is the son of a Griot, an oral historian. The boy from the United States is the son of an ex-slave.

During slavery it was against the law to teach a slave to read or write, after slavery, basic laborers were still needed to maintain the southern rural economy. Some type of training was required. Northern industries welcomed cheap black labor from the south, it was still very critical for whites to maintain the social order. Blacks may learn to read and write, and may even learn a trade; but they must recognize the inherent superiority of the white race. Education for blacks was designed to, at best, make the black student admire and seek to emulate white society. Therefore, every single subject taught in the American school system reflected the philosophy of white supremacy. Carter G. Woodson wrote in "The Miseducation of the Negro":

"In Geography, the races were described in conformity with the

program of the usual propaganda to engender in whites a race hate of the negro, and in the negroes, contempt for themselves. A poet of distinction was selected to illustrate the physical features of the white race, a bedecked Chief of a tribe those of the red, a proud warrior the brown, a prince the yellow, and a savage with a ring in his nose the black. The negro, of course, stood at the foot of the social ladder.

"In history, textbooks, illustrate caucasian looking Egyptians, said to be the creators of the first civilization. In philosophy, the Greeks Plato, and Aristotle are highlighted; in arts Picasso and Van Gogh are the creative geniuses; in science, well of course, Thomas Edison. Hell, Ben Franklin himself, damn near invented electricity. In literature, who can top the great William Shakespeare? Africa and Africans dont exist, except in anthropology as an illustration of primitive people. Education in America, historically means indoctrination into European American culture. An educated person is one who is well versed in European history, literature and philosophy."

Intelligence is widely regarded to be a product of heredity, environment and education. Europeans were often able to convince Africans born in America that their forefathers were dumb and therefore they too were dumb. Some African Americans became so convinced of this, they didn't dare approach fields of study that whites warned were difficult such as Chemistry, Biology, Physics, Trigonometry, etc. Fortunately, a mere three hundred years of deprivation cannot erase 77 trillion years of inherited Divine intelligence. In spite of poor and in some cases no education, the hidden genius in African Americans continue to Come Forth By Day (Surely there is science in this for those who understand). African Americans have inherited from the Divine Father a great mental capacity that transcends formal training (see the Holy Qurān Surah 2 Ayat 31-33). This mental capacity is called Genetic Memory.

GENETIC: Pertaining to these characteristics of an organism due to inheritance or actions of the genes, the chemically complex unit which is assumed to be the carrier of specific physical characteristics from parent to offspring, being transmitted through the chromosomes.

MEMORY: the power of retaining and recording past experiences; the accumulated experiences of the mind, considered as influencing present and future behavior.

Proof of Divine Intelligence in the Blackman. Proof of the Blackman's past intelligence on earth lye in the Pyramids in Egypt, Mexico; The temples of Cambodia, etc. This Divine intelligence has surfaced and continue to dwell in the blackman. Again many awesome structures created during ancient Egypt's dominance on the world scene still stand today as testimony to the brilliance of the African in the field of engineering. Such is the case of mathematical brilliance that manifested in the brother Benjamin Banneker, the engineer and architect who helped design the United States Capitol, Washington D.C. Born a blackman pre-civil war, Banneker's genius was not dimmed by time nor circumstances. A Self-Taught Mathematician, Banneker was born near Baltimore, Maryland in 1731. The only child of a free mulatto mother and African father, who purchased his own freedom from slavery. Brother Banneker showed an early gift for mathematics and an interest in astronomy. His aptitude in mathematics and knowledge of astronomy enabled him to predict the solar eclipse that took place on April 14, 1789.

Banneker was appointed by President George Washington to serve on the six man team which helped design the blueprints for Washinton D.C. When the chairman of the civil engineering team, Major L'Efant abruptly resigned and took the plans home to France with him, Banneker's photographic memory enabled him to reproduce the entire set of plans. (Banneker is responsible for the completion of the project, yet, the plaza in D.C. is called L'Efant Plaza). Acting as a surveyor for the engineering team, Banneker helped select the sites for the U.S. Capitol building, U.S. Treasury building, White House and other Federal buildings.

It is interesting to note that Bannekers designs were amazingly similar to the layout of Egyptian cities, where the major government buildings stand at the middle point of the city and all roads lead away from the center. The Egyptians designed their cities this way as a protection from military attack. A Blackman is the reason D.C. had minimal damage during 9/11. The thanks we get!?

It is important that one more thing be understood in the steps to our global inferiority. Having a clear picture as to how we got into this predicament is key to understanding how to undo or reverse it.

The Black woman is so vital to the rebirth of Black greatness. She is the first teacher and vessle to the grooming and molding of the Blackchild. (Get ready 'cause the math is going to expand your mind without blowing it:). It is important for the Blackman to understand the science of building a child to achieve his desired goal, just as the White man mastered the science of breaking a child to accomplish his goal. (The difference between God And Devil).

A child's life actually begins to take shape before it's actual birth. The attitude of the family into which the child is being born determines whether the child will receive a happy or hostile welcome when he/she arrives. The medical understanding in today's science reveals more about stages of development. The period of the most rapid brain growth is between the 4th month of conception and the 6th month of birth. During this time, the baby is affected by internal and external events, which may shape it's personality even before birth. A child inside the womb has ears and can recognize the mother's voice and touch. A mother who is irritable and resentful of the child has already communicated this resentment to the child-even before it's birth!

Babies who are cared for before the birth, with good pre-natal care from mothers with a healthy lifestyle have a better chance of growing up feeling loved and happy. When hostility is introduced to the baby before it's birth, through alcohol, drug abuse, poor diet and other unhealthy lifestyle choices, the child has a higher chance of both physical and/or emotional problems. The hostility may continue after the birth of the child.

When a mother and father talk lovingly and soothingly to the unborn child, even read to the child, play soft music, they are shaping within the child a calm, peaceful disposition. Scientist have observed that such children, after they are born, learn faster and are more alert than those whose mothers exposed themselves to constant noise (loud music, arguing, environment) during pregnancy. How you treat your woman while pregnant is important. How you treat her period is vital.

Diet is important during pregnancy, not only for the mothers health, but for the well being of the baby. Fortunately, by the Mercy of ALLAH. One of the sciences that stayed with the African Americans during slavery is Agriculture. The knowledge of green vegetables and herbs which promotes good health. In spite of the harsh work condi-

tions they endured during pregnancy. Many slave women gave birth to extremely healthy babies. A mother who will not completely eliminate alcohol and tobacco use during pregnancy is setting her child up for a life of mental and/or physical retardation. Those who want their offspring to grow into well adjusted human beings must begin this process before the birth of the baby.

The science of destroying a whole people has been perfected. The science of building a whole people is far superior and Divine. The blueprint is still there IN you. You must overcome your Psychic Trauma and strive to be the light of ALLAH.

African Americans must change. The way to defeat white supremacy is with Blackness. If you think that Blackness is the same as white supremacy (reverse racism) you suffer from Psychic Trauma. The Latif's have ideas how to solve the Psychic Trauma: "Many psychological studies have been done by black psychologists who point out the social pathology which results from racism. Our purpose however, was to correct historical misinformation by producing a well documented, scholarly work which verifies the level of social, economic, and educational development of Africans prior to being brought to America as slaves. We set out to investigate all pathographic, written and statistical material which seems to have not been available to the general public, in order to determine how the institution of slavery transformed African people. Our final objective was to discover how the slave experience STILL influences the thinking and behavior of present day African Americans and to develop a method to reverse the emotional and psychological damage from slavery."

#### SHOW & PROVE

The African American has no excuse why he cannot change his condition. Proof has been given to you. The lowliest of Blackmen has light to follow. By the grace of Allah the wretched Blackman has an example to follow. Going from the ex-slave, self serving lost nigga, to rebuilding self into the Black God. From the scurb of the streets to reverence of people globely.

The Metamorphosis of Malcolm X. The transformation of Malcolm Little, Detroit Red, street hustler and PRISON CONVICT; to Malcolm X, El Hajj Malik El Shabazz, international leader and human rights advocate. Represents the potential of All African Americans to reach heights of greatness regardless of their present circumstances. Despite the murder of his father, the break up of his family, and the discouragement of his ambitions in school, once Malcolm discovered His TRUE HERITAGE, he was able to develop the natural brilliance within himself. His outstanding organizing and speaking abilities are an example of the genetically inherited potential of African American people which can overcome the damaging effects of slavery.

#### NIGGAZ TO GODS

It is not enough to get back to the Africans we once were. It is not enough to become the Africans of today. Let us first recognize that the ture original people who built the pyramids are not the Africans we know today. The Africans that built the pyramids were of the highest intelligence man has been on the planet. Even in that greatness. Somehow, somway, we managed to lose the knowledge we had. We managed to become a captive people. We still manged to become the most behavior modified people in the history of the planet. So, getting bacck to being a people that can once again be changed is not our goal. Our goal is to become new. We must attain a hight that cannot ever be overturned. We do this by remembering what we told ourselves. To know thyself is to know God, to know God is to know thyself. We

must know and embrace our essence, for it is divine. You may ask, How do we do that? First understand that the statement is not ment for ALL. The statement is ment for the one ALLAH created, not those that come from his creation. For they are awaiting the awakening of the created one. For us to know ourselves, take our awaited place on the earth and be the vicegerent of the earth. We have to change from the niggaz we used to be and become the Gods we are created to be.

There are many paths to get to the right path. Yet there is only Islam. The Honorable Elijah Muhammad once said that, "The Islam that is taught by the Nation Of Islam, by the Grace of Allah is designed specifically for the American Negro to come out of the condition he is in today." Only Islam can free the people. Holy Qurān 10:104 "Say: "O people, if you are in doubt as to my religion, (Islam) then know that I do not serve those whom you serve besides Allah, Who will cause you to die." So let Islam be the way for us. The way to your Blackness is to know self. This foundation will guide you. Know the answers to these 10 questions for this will lead you to your divine essence.

#### BEING GOD

Contrary to what some may say. Allah is not a spook in the sky. Allah is not some invisible spirit with no form. If you close your eyes and pray, what do you envision? When you speak to Allah, who do you see yourself speaking to and what does he sound like when he reponds? When you talk on the phone to another person. You visualize an image of this person. If you know the person and have seen them before. You envision them as last you remember. If you never seen them before. You create an image based on the information you have and your idea of said information; gender, tone of voice, demeanor, personality. This creates a realness for you. If you pray and the image of Allah is an old white man with a long beard and sandles. You in trouble brother. If your image is of a white Jesus, you are in trouble. If you pray and have no image at all. Who are you talking to? What Allah looks like I cannot give you that image. That is for Allah to give you. I can tell you that, you should be able to see Allah everyday with your open eyes. For understanding, we must take a trip into our ESSENCE.

The Asiatic Blackman or the Original Man, is the Most intelligent manifestation of our most gracious creator, Allah.

ORIGINAL: First in order of existence. The one or ones not copied, imitated or duplicated from another.

Allah literally made us, the Original Man, in his likeness. We are an absolute reflection of Allah's greatness. Allah's spiritual essence lives physically within his first physical creation, The Blackman. Which means the Blackman is the physical essence that lives spiritually

in Allah. This is the definition of the Oneness of God and Man.

ESSENSE: Fundamental nature; inherent characteristics.

John 4:24 Jesus said, "God is a spirit." In Job 32:8 The Bible says, "But there is a spirit in man; and the inspiration of the almighty giveth them understanding." The word spirit is defined as being a person's "essense" or "intelligence". Every Blackman has the potential to become "ONE" with the spirit in God or his Divine supreme Intelligence. Tapping into one's divinity is merely an act of the mind. The Blackman has been blessed with the ability and discipline to submit wholeheartedly to the will of Allah. Now is the time to return back to your true nature, which is the nature of Allah, and allow his divine supreme intelligence to guide you through life. Allah will not only reveal himself to you, but he will lovingly and realistically reveal himself through you.

Patience and sincerity is the key to divinity. This oneness with Allah is important. If one is not able or willing to recognize the oneness between himself and his creator. He leaves room for another to come and substitute himself in this oneness. We have for so long attempted to be equal with the white man because of HIS desire to be one nation under God. When in fact the Blackman should be attempting to be one with Allah and be what Allah wants you to be, One Nation WITH GOD.

On the topic of Oneness. I would like to share a writing from my favorite Author. He writes: "All things in this creation exist within you, and all things in you exist in creation; there is no border between you and the closest things, and there is no distance between you and the farthest things, and all things, from the lowest to the loftiest, from the smallest to the greatest, are within you as equal things. In one atom are found all the elements of the earth; in one motion of the mind are found the motions of all the laws of existence; in one drop of water are found the secrets of all the endless oceans; in one aspect of YOU are found all the aspects of EXISTENCE." by Khalil Gibran.

We are innately divine gods, we too can create with our minds, not only ideas but new physical realities as well, through the practice and exercise of our mind and will. It is only because we have been convinced by the world that we are puny animals in need of salvation and assistance from outside ourselves that we exist in a degraded depressed state. This is the mystery of mysteries that must be known. Having no real understanding of this is not good. Because it is important the Blackman knows his REAL role. He is to be the provider of knowledge to his family. If your connection of intelligence is not from Allah, then your guidance is not Islam, and Islam is key to producing the new world freedom. If you are not the God of your home, surely your fruit is dead. You must be the bringer of knowledge, the sustainer, provider, guider, teacher of mercy and justice. If you are not the God of your home, then the door is open for the devil to come and make himself at home.

The family is the key to our divine freedom and without clear understanding and respect for the power and structure of family. No other nation will follow us anywhere. The first and most important thing the Blackman must do for his family is to instill his divine culture to his wife (wisdom), and allow her to give it to your children (understanding). For only with knowledge (Man), wisdom (Woman), and understanding (Child) can the Black man lead all the other people of the planet.

Who is the Original Man? If man came from apes. Where is the ape-man today? Why have apes suddenly stopped evolving into man? Allah ordained all fowl, fish, cattle, insects, plants and people to be fruitful and multiply after their own kind. Apes beget Apes, fish beget fish, fowl to fowl etc.. Apes cannot birth a man.

Any person with limited knowledge in history will admit that all life comes from the continent known today as Africa. Not even the most racist, dumbass klan member will dispute that fact. Scientists from the University of Reading & Pennsylvania State University have, in a joint effort combined their skills and found the earliest known man in Africa. They found in this Blackman's genetic code the ability to mutate, thus being able to create several types of that species, shapes, sizes, hues, features, etc. This particular DNA code does not exist in other races. Therefore, the distinction of those races remain as they are. The true definition of black blood is one who possess a high level of combined properties. Pure blood. The less combined properties one has the less pure the blood. The less pure the blood, the farther away one is on the spectrum. Black being the purest, and white being the less pure.

Being a descendant of the Original man (Blackman) who is created in the Image of God, also known as the Children of God, am allowed to use the title given to my father: GOD. If you don't believe the white people from the universities, if you don't believe me, if you don't trust the scriptures. That is good. You should expand your study and research. My only advise. Look within yourself. Compare the three universes. Nature, Your body/mind, and the Qurān. You will find that the Blackman is God by nature.

### MATHEMATICS/ISLAM

Before I continue. Let me give a little mathematics. (There is supreme wisdom for those who reflect). The Blackman is God Cipher Divine. God is his supreme intelligence, Cipher is his complete physical and mental composition, and Divine is his nature. The Black man is represented by the number 7 (The God number. G is the 7th letter made). 7 represents the 7 internal evolutionary stages man obtains, thereby reaching physical and mental spiritual enlightenment. Mental, Physical, Emotional, Will, Power, Control, and Infinity. 7 represents the 7 chakras or energy levels of man, from his lower regions to his supreme crown. (As taught to us by the Prophet Buddah). 7 represents the 7 continents on the planet earth, in which the Blackman is the Maker, and the Owner. 7 is the number of Heavens and Hells man can attain according to his level of understanding. 7 is the number of systems working together as one unit to keep the physical body of the Blackman alive (Circulatory, Digestive, Endocrine, Limbic, Nervous, Reproductive, and Respiratory). 7 is also the number of physical manifestations left in the sand when man makes Salah. When he rises from physical salah, he leaves 7 impressions to remind himself that his prayer is getting in touch with himself and it will not be answered until he begins to put forth the work need to make manifest. Hence the phrase, "Prayer is dead without works".

Why are all the 3rd world nations waiting on the Black man? Because everything returns to it's essence. Black is the essence of all the elements of energy combined in one. Triple stage darkness is Pure Black. The first born from triple stage darkness is the most intelligent. All other beings come from Black. Black is not a race. A race has a beginning and ending. The Blackman has always been and always will be. HUEmans are the brown, red, and yellow man. Hue means color, hence the color man. White is the absence of ALL color, hence the colorED man, or mankind (a kind of man). Only the Black man has the Ruh of Allah, which is why he is the Vicegerent in the earth. Making him responsible for all that which is on the planet earth. This is why the whole 3rd world nation is waiting for you.

If you are currently unhappy with the state of the world (external) because of crime, war, pollution, hatred, etc., then you must search yourself to be sure you are trying to eliminate the negativities within your self. Hence psychic trauma. You need to evaluate the purity of your thoughts (spiritual food). As you purify your mind, your body will become pure, as you purify your body, your spirit will become pure. From a pure spiritual and mental aspect in your Islam. You will affect all that you come into contact with. Becoming the new light of the universe.

With understanding of this knowledge lesson. We can see the original man is indeed the Asiatic Blackman, The Owner and creator of all this that we now see. The manifestation of this fact can be seen through the Bible and the Qurān. For those who understand the hidden meaning of symbols; for , in order to preserve an ancient wisdom, for the son of man to raise the dead in the last days, the Bible and Qurān had to be written in symbol form. St. Luke 10:21 "I thank the father, Lord of heaven and earth, that thou hast hidden these things from the wise and understanding, and revealed them to the babies; Father, for such was thy gracious will." The Holy Qurān 15:28 "And thy creator said to the angels: 'I am going to create man of sounding clay, of Black mud Fashioned into shape". Take notice of these 2 verse. You will see that the original man is the Asiatic Blackman.

As we are aware, "like produces like". So what can be produced from black mud, other than black skin? Nothing. The Blackman, by right of his original birth, is the son of the Most High, and is it not written "like father like son"? John 5:26-27 "For as the father hath life in himself, so hath he given life to the son to have life in himself, and hath given him authority to execute judgement also because He is the son of man."

The first important step in regaining your true identity is knowledge of self and the way to get that is through study. As you began to read, study, search, listen, and comprehend. You must come to your own understanding of what you find. How you interpret the truth is intimately between you and Allah. The worse part of religion is when so-called learned ones, attempt to dictate what Allah's words mean to someone else. One can only express what it means to themselves. Until one is able to think for themselves, he will never be free.

#### WARNING.

Regaining your true identity will cure you of your Psychic Trauma. However, it will replace it with tremendous responsibility. You no longer have the luxury of blaming others. Your vision will become clearer, wider and further. Rising in you a want to cure the ills you see. You will need to know the attribute that lives in you so you can be that which is in your power to be. It is up to you to figure out how to fulfill your divine job. One thing is for sure. You will no longer fear the white man. Fear of Allah will be greater and the fear of failing your brothers or those who depend on you will be greater than anything the white man can do to you. Never forget you are that which created you. Take notice in the angels. When they speak of Allah they use the plural "WE" or "US". They never see themselves as separate from that which created them. The brother spoke about the Majesty of speech, as in We the people. This is the sovereign representing himself and his subjects as one entity. A representative speaks in place for the sovereign as a part of the power given to him by the sovereign. As a Blackman we must remember this also. Never separate yourself from the essence, ALLAH. As Muslims never separate yourself from the world Ummah. Only as God can we regain our place on the planet and solve the problems of ourselves and others

## REVERSING THE STEPS

It's hard changing from niggaz to Gods. However, no one is going to help the Blackman. Only the Blackman has the power to save himself. Besides everyone is waiting for the Black man to save them. Only the white man is fighting this change wholeheartedly. We have to reverse the steps of Willie Lynch. Starting with..

Step One: Unite the language. This language is the language of one's culture. a language that cannot be perverted. This language is Islam/Mathematics. The language of mathematics is the language of ALLAH. For all of creation is in obeisance to the law of mathematics/islam. The Blackman must learn his math. Most importantly, in order for the Blackman to be successful he must unite all the elements of self and move all in one positive direction.

step Two: Fuck the white man! It is important that we raise our children to not fear the white man or give so much importance to him and his ways. This fear must not turn to hate. Merely understanding of who we are will be good enough to put all in their place. The white man is simply our lower nafs in the physical. Observing it's nature in the physical teaches us how to control it in the spiritual and mental. The whitman is devilish by nature, but not without the ability to be civilized. Islam is the salvation for the whiteman. When the Blackman lives life on his terms and not the terms of the whiteman, only then the new will come to pass.

Step Three: The most important aspect of the Blackman is his family. Only through his seeds can the future be saved. It is imperative for the Blackman to teach this new way of thinking to his children. However, no matter how hard he tries. It will not happen without the Blackwoman. The Blackman must reverse the fear and reverence of the whiteman in the mind and hearts of his Black Queen. He must prove to her that his black divinity is greater than white supremacy. Only then will she follow. She is looking for this in her man anyway. Do you know why the Blackwoman loves the Black Thug? Because he displays a lack of fear of the white man and this oppressive system. She sees in him the attitude she knows one has to have in order to change things and protect her at the same time. Do you know why she later loses respect for the black thug? Because she eventually sees his intelligence is not at the level of his defiance. He has no fear, yet he has no plan. The woman believed he would be able to free her from the world's traps that lead back to slavery. Until she sees him fall into these very traps himself; Prison, death, drugs, poverty, homosexuality, and the whitewoman.

This leaves no chance for the black child to grow up without the fear and reverence. If it lives in the mother it will surely live in the child. The Blackman must also learn to love and respect his woman again. He must recognize her importance to his survival and the future of his people. The Blackwoman is the builder of nations. If the Blackman is god. The Blackwoman are angels. With proper instructions and guidance she can build strong nations and raise gods unafraid of the devil. The Blackman must take care of this most precious jewel. For the Blackman loses 3 times his worth if he loses his woman. Knowledge can never get to understanding without first being wisdom. Again, once the Blackman can hold together his immediate family. Then he can expand his knowledge. Building extended family, then community, society, country, world, universe, etc. Building a god nation on earth is possible and the only way to bring about change and PEACE. Yet, it will never happen if the Blackman cannot fulfill the next step.

Step Four: Respect and reverence for the Black woman is essential. Blackman must stop using her as a sex tool. Don't make a fine woman finer, make her REfined. Cover her up and let her beauty shine only for her man. Demand from her the respect she demands from you by humbly serving her as the queen she is. The Man is a GIVER. The woman is a RECEIVER. Give all of you to your woman. I guarantee what she receives from you will manifest itself in your success in everything YOU DO.

Only then can your daughters grow to seek the same kind of man. Keep her safe from the devil, because this is his string to controlling the Blackman. The one that wins the battle for the love and respect of the Blackwoman, wins the battle for control and power of the earth.

Step Five: Unite. Black has many shades and hues. Color, crede, sex, or religion should not be used as a tool. Color has it's knowledge and understanding. One should not have priviledge or punishment baised on hiS/her color, crede, sex, religion. Priviledge and punishment should be measured by first, direction of motion (Positive or Negative), then by degree of knowledge. Only the Blackman can unite all the elements of self. This is why all the world is waiting for the Black man to do just that.

Step Six: I Say Love Allah Most. This is the perfect way of life. This is the only way to be god. All the Prophets had two things in common. From Adam, to Ibrahim, to Musa, to Buddah, to Isa, and Prophet Muhammad. They all were BLACK and all practiced ISLAM. Blackman, turn your people from the religion of the devil and guide them with the religion of PEACE. Knowledge of self and love of self and kind is all you need for your people to rise and be the essense of their true nature...GOD.

African American. That is TWICE european. change and become upright. Understand we are not savages. We are not niggaz. We are not Africans. We are not Americans. We are muslims or gods. Believers or knowers. Period!

My brothahs. To raise a nation from niggz to gods. On must have right knowledge. It is important to rightly guide. I started the night with a question. I asked what the order of the 9 planets were in their relation to the sun? If your answer was Mercury, Venus, Earth, Mars, Saturn, Jupitor, Uranus, Neptune, and Pluto. Then you suffer some form of Psychic Trauma. The devil will never teach you the true way to get to heaven. He will lead you away from your Lord. In the Whiteman's education he has taught that the earth is the 3rd planet FROM the sun. This is how the devil lives. Fleaing from god. The true order of the planets alignment is Pluto, Neptune, Uranus, Jupitor, Saturn, Mars, Earth, Venus, and Mercury. Making the Earth the 7th planet TO the sun. The Blackman's nature is to be closer to God, so we are to go to the light. Not run from it. Remember what the God number is? 7. In the devil's planetary order, what is the 7th planet? Ur anus. Yeah, knowledge that. If this was the order you had at first. then you have rid yourself of the wicked trickknowledge of the devil and therefore have dealt with your Psychic Trauma.

Undo the european education/indoctrination and give right knowledge. Don't hesitate to teach your wiz, so to mold and shape your lil' shorties. groom your children early in life. They are awaiting ALL you got for them. give them what they need to be god and goddesses. It is coded in their genes. Enclosed is a copy of an example what your young seeds can be even before they grow up. You have the power to seed and water a plant or a tree, and build a garden or a forest.

#### PLUS DEGREE

Yo! Check the science real quick. The whole world is already following the Blackman in America. The whole world is vibing to the vibration of our music, language (slang), our dress, body movements, color, shape, our dance, our entire swagg. They even degrade in the same manner as we do. I humbly come to remind my beloved brothers. Be the best you can be. The best you can be is GOD, so be that. Watch the world follow you . All different methab/fique, Rather it be Sunni, Shiite, Nation, 5%, Christians, Buddah's, Jews, whatever. When the Blackman is being his best. All have no choice except to follow the source of their exsistence. Don't attempt to correct that which you may think is wrong. For that will just ailienate them. Find the best in them and encourage that to shine. This is the Blackman being God. Head

of the original family.

Only the Blackman can unite the Entire 3rd world. Everyone is attracted to the Blackman, because it is the source from which they came. Black is the essence of all others come together. From the source I came to the source shall I return. The white man can only divide the world. Everyone is repelled by him. Which is why he rapes the 3rd world of all they have. It is because of the 3rd world that the 1st and 2nd world thrive. They all are rich in NATURAL resources. The land, minerals, man power, worth of women and minds of the children. All are waiting to be seeded and cultivated by the Blackman. Ghana, Niger, Somalia, Chad, Malaysia, Philippines, Cambodia, Thailand, El Salvadore, Chili, Costa Rica, Mexico, Czech Republic, Romania, Jamaica, Puerto Rico, Haiti, Cuba, Bahamas, New York, Los Angeles, Chicago, Detroit, New Orleans, Mississippi, etc.. They are ALL waiting for you to rise from slave, from nigger, from african american, from african, to BLACKMAN/GOD.

The Bible PSALMS 82:6-7 "I said, 'You are gods, and all of you are children of the Most High. But you shall die like men, and fall like one of the Princes. Arise, O' God, Judge the Earth: For you shall inherit all Nations.'" There is wisdom and understanding for those who know and understand. Accept it or leave it alone.

#### CONCLUSION

I want to first thank Sultan Abdul Latif and Naimah Latif for their book: SLAVERY: The African American PSYCHIC TRAUMA, from which I plagiarized the majority of this writing. I want to encourage all my Brothers and Sisters to read this book and honestly look at self and use this book in what ever area needed. There is far more information that I have time to share. For those of you that are lifers. If you are seeking more insight into your behavior. I suggest that you read this book. Especially if you have fear of the white man, more violence against your own kind than of others. This book can be of great help.

I in no way am saying one is partners with ALLAH or equally superior to ALLAH. I am saying that the Blackman is created in the image and likeness of Allah. The Blackman is created from the essence of ALLAH and should always keep that root connection. For it is what makes him godly on earth and in the universe. Those with understanding Al humduallah. Those who do not yet understand, Al Huquallah. Be careful not to condemn, for you may be hurting more than yourself. I also do not condone racism. I know it is easy to view it as such. I am merely speaking the truth. The whiteman is in fact genetically inferior to the Blackman, The white man has a history of slavery and destruction. The world is in need of a real ruler and all other nation's history tell of the coming of the Blackman. No mere Africans built the pyramids. Only the Asiatic Blackman has the supreme knowledge of Mathematics/Islam to create such wonders. If you can see the devil in the whiteman, surely you can see God in the Blackman. If not. guess what you may suffer from:) In the words of our beloved Imam. I'm not racist. We just talking.
