

Sainttome

Friday
Sept 19, 2014

I went to the Hole on May 7, 2012 because they said they found cigarette tobacco in my cell. The officer who wrote it, last year or this year stood and talked to my mom and I and even said in so many words that it was a set up D.R.

See I had a problem with then warden Barry V. Reddish. Well officer's were talking in 2010-11 that Reddish had been pulled over by local law enforcement for driving drunk. I wrote about it, and rubbed his nose in it, which was very stupid. Cause after that, I got set up with like 8 or 9 Disciplinary Reports, property got destroyed, I got jumped on twice.

I remember writing that morning Monday 5/7/12. That was over 2 years ago. Two years from now, people will be reading this, unable to leave comments for me, for I will be dead.

Like I said, take care and enjoy life, for tomorrow we die.

God bless you.

In Peace & Love
