HALLOWEEN

A SCARLET WORD

Dial down and eclipse by the Horror for which is mirrored by the animalistic monsters portraying themselves as decent, civilized human beings of this planet. Is it really called earth or something for which these animals of the ruling class declare it must be called... well, they also say I should, no! must be called, treated, branded as a scarlet word...

Infamous is their atrocities fueled by an anatomy of crooked felonious dogma proclaiming to be freedom, liberty and justice... and... yes! we know for sure that it will never be justice for all; unless you're white or a disgraceful black stain...

Their peasantry appetite to invade antagonize, exterminate, uproot us ethnic struggling souls from our natural inhabitate to leave us a shadow of ourselves as they rejoice at the promise of our eradication. There is no alleviation for those that's like me only survival of their policy of ethnic eradication. So zealously, they announce to the world their; white supremacy protocol. They signify their triumphant by; an symbolic gesture, two fingers spreaded to form a "V", Victory! They taunt and annoy us with their euphemism... animosity! shit... IT'S WAY PASS THAT!!!

It's apathy, dispassion that lives so deep inside my leftist core that fuels my drive to live another day. shit!!! Freedom... is a far distant cry from my pathetic sight. I zealously think about self-preservation. I can't focus on racial or ethnic preservation... The absolute absurd defacto is staring me right in the face. Their badge signify the shield that keep safe their atrocities, by mimicking the action, the behavior of the so many ethnic lives they exploited, destroyed, and murder...

OH! NO... don't get it twisted.

You'll never find the evidence of their most truly heinous horror. It's sweep away, covered up! Like the actual evidence in my present case.

This is not a henchman trial. It's just the true American justice system*. If I had access to the mills hidden from me surely I wouldn't see a day in prison, correction, reformatory, the American Negro concentration camp. The same reformatory, concentration camp the native Americans or better yet the indigenous peoples of this world have experience at the white, European, American and oh, yes! The black sway hands.

I don't expect you to believe for one little word
not second that their will be anything but a
guilt verdict. I don't! So why should anyone else...
The trial is being had on perjured evidence.

The jury will never see the true evidence in
court to form their own opinion.

The government will taint their already confused
minds. Jerry! My court appointed attorney
will make sure of that... He has already placed
my life in harms way, he's gave way to the
elements for which the state must prove to
establish probable cause. And after the 10
2.14 incident I have no doubt, that - that
bias ass judge will do all that he can to
abet in that guilty verdict.

There is no putting the actual evidence before a
jury in this country for the citizen to decide guilt
or innocences here.

The judge has already threaten me to keep my
mouth close. so there is no testifying in my behalf.
I shouldn't kid myself. There is no saltarium for me
or this ethnic race to absolve themselves spiritually, mentally,
emotional, physically, socially. Any that's built are destroyed by
those who look just like me, us. so they can raise one
of their own and call it a nation or fruit of Islam temple.
They're actually Christians and not Islamic at all. To be
truthful with you. They down right hate those who
practice the Islamic religion. I learn that lesson all
so well from Sayde. The crooks in the clothing they
call police, correctional officials, judge, doctor, etc, etc,
uniforms only give a disguise to who and what they are.

Animals! Monsters!

The horror itself camouflage so beautifully in what's
called society... And oh yes! They work to silence my
decry... what kills me even more is that I go from one
delusion to another. Beautiful long oil slick black hair,
sweet honey sun kiss complexion...

There is no chance for anything but the play of the horror
that's right before mine and yours eyes, with the promise
of a bitter sweet cry. never fool oneself into believing
anything otherwise.

I'm force to kneel as a scarlet word!
IN A God forsaken world!
