

SHIRLEYWORLD UPDATES
"Let The Bullets Fly!"
Chapter XXIII

by Timothy J. Muise

* * * * *

- SGT. MESSY-HER UNDER INVESTIGATION / M.S.P.C.A. OUTRAGED

The Free Speech warrior had been hoping that one of our previous "Stars" of ShirleyWorld would remain "off the radar" as far as this Pulitzer Potential Bolg is concerned, but alas we must report that our own Sgt. Messy-Her is back in the headlines as he has committed an avian foul (pun intended) of epic proportions and is being investigated by the Massachusetts Chapter of the Society for the Prevention of Cruelty to Animals. You see there was a lame pigeon here (no not one of the IPS stool pigeons or the administrative lame ducks), but an actual pigeon who was injured and could not fly away (a true metaphor for us men forced to live in this crap-hole). Sgt. Messy-Her had so much pent-up rage at the fact that young CPOs were dancing the horizontal mambo with his ex-wife that he ripped the head off this pigeon in true Ozzy Osbourne fashion. Even some hardened convicts here were shocked. One of the CPO's who kept the ex's greasy side up in here picked up the phone and reported the incident to the MSPCA. Director Pat Mehogg called the super-sleuths in the IPS squad here and made an inquiry. Lt. Awe informed Mr. Mehogg that a substantial puddle of blood was found on the walkway but that his crack team of investigators had narrowed it down to two potential sources; the bloody nose when Lt. Peckerwood got bitch slapped or the "accident" when our Beach Shoe clad Deputy was visited by her monthly friend. The birds here do present a problem and possibly we have found a real purpose for Sgt. Messy-Her. Let's give him a bag os cracked corn and a BB gun and allow him to take care of all the pigeons doing time here at the ranch. At least he will then be paid for doing something as he has been stealing his check for years; he should wear a ski mask when he picks it up.

- THANKSGIVING TURKEY WEARS RED SHIRT AT SHIRLEYWORLD

Upon entering the chowhall to devour his Thanksgiving Day meal here at the gulag the Free Speech Warrior was stopped by the biggest Turkey in the joint: Coach Woodhead, who said, "Hey you already came through here once?" Now this "turkey meal seconds patrolman" apparantly had the wrong "suspect" as I asked him "You talkin to me?", in DiNero like style. This fool was probably drunk on cheap burgandy and pissed off that he has to work Turkey Day, but it is fitting him being the biggest turkey roaming the free range confines of the Shirley gulag. If he didn't want to work on Thanksgiving he should not have tampered with those urines at Gardner when he was on the IPS "team" there. Shame on you for getting caught Woodhead. Stupid is a stupid does Mr. Gump said. This recreational idiot just did not want the Warrior to enjoy his turkey day, but little did he know that I had already had a stimulating morning typing up stories about the latest ShirleyWorld news and constructing a temporary restraining

order motion seeking to restrain Deputy Denied-Oh from messing with free speech legal copies. Puttin' the new typewriter to good use which was purchased from settlement money from the last lawsuit against the DOC machine: even a blind squirrel finds a nut once in a while! This "Red Shirt" wearing turkey hates himself so much he actually makes up stories in his mind about men trying to "double dip" on a turkey dinner. Guys are serving natural life sentences and are happier than this repressed Nazi. More than likely he wishes he could be tampering with urine tests again, but maybe next Thanksgiving he could test men for triptofine after they enjoy their meal. What an Ass Puppet!

- RUBBER STAMP WRY-ON ORDERS "FREE THE FREE NEWSLETTERS" / MPV SPEAKS

The last issue of the Mass Prison Voice newsletter really played smash-mouth football with Deputy Denied-Oh and her evil HSU/SNF/Companion Program. The truth was told by many free speech cowboys and it so angered the suits here that after the first wave made it to the camp, and were widely circulated, the Czar of Suppression, Deputy McCan't (he McCan't find enough ways to violate our rights) ordered them "held" in a box in the mailroom until "legal advice" could be sought from the Clarence Darrow wanna be's at DOC Legal. The Free Speech Angel, Susan M., made an inquiry and the Queen Of The Ivory Tower issued a decree to her royal subjects: "Free the free newsletters at once!" (Me thinks she also muttered "Let them eat cake!", but one cannot be sure) This box of hostage newsletters was cut open like a tuna can before a picnic and the MPV's made their way into the hands of their subscribers. This issue of MPV speaks loud and clear to Deputy Denied-Oh: You cannot act in secrecy. We are going to expose you. You will answer in Court. It is all happening! The con game of "caring" and "compassion" you run on visitors can only last so long before the pure evil rises to the top of your bile. You can only spin the truth for so long, not as long as your tooth. You laugh as you deny us visits with our dying friends. You howl at the moon when a companion rats on another companion. You rub your hands in celebration when the Stockholm Syndromed "inmates" grovel before you for a programming crumb. Too bad its: "No Superintendentship for You! 31 years!"

- SHIRLEYWORLD DECLARED NEW "MENTAL HEALTH DUMPING GROUND"

Our fine new commissioner of correction, Carol Wiggins-Oh-Cryin, has made an official declaration that MCI ShirleyWorld is the new dumping ground for prisoners with mental health issues. "Do you know how much it costs to give these men proper treatment? I can't afford to take away from salaries to shrink the heads of these menatly challenged offenders.", Ms. Wiggins-Oh-Cryin went on to say. "If you elevator don't go all the way to the top then all we can do is send you to Deputy Denied-Oh to be dealt with.", the new commish followed with. Rumor has it that Deputy Denied is installing "shock therapy kiosks" up in the HSU/SNF so she can "blast these men into compliance". "We will steadily increase the voltage and length of

'treatment' as they amass disciplinary reports.", Ms. Denied-Oh explained. She has been consulting Dr. Mengela's Nazi diary as to how to best "light up" patients. This course of action was required as Bridgewater is filling up so many mental health patients that MCI ShirleyWorld is now required as an Annex to that abusive and cruel facility. Imagine taking all these poor souls, who are in need to proper medication and treatment, and sending them here where Sgt. Bitch, Lt. Peckerwood, CO Scumlafia, and the rest of the ShirleyWorld Coward Patrol can abuse them thoroughly. Unreal but this is modern day corrections. Now we not only have all the nut case guards but also have many of the nut case inmates. One Flew Over the Cuckoo's Nest has nothing on this joint! Our Nurse Ratchett is Deputy Denied-Oh and all the men can hope for is to have someone clamp a pillow down over their face. Modern "correctons" at its finest!

- LEGAL COPY CZAR APPOINTMENT / POLICY STATEMENT ISSUED "ALL COPIES DENIED"

After Deputy Denied-Oh drove out the last two librarians here at MCI ShirleyWorld she has placed the 10 gallon hat of Copy Czar upon her own large head. She has recently released a policy statement concerning the making of constitutionally required legal copies here at ShirleyWorld; "All copies will be summarily denied. If you choose to keep asking for them you will be summarily executed." Confinement complaints be damned and to hell with the Constitution; Deputy Denied-Oh rules the roost and Rubber Stamp Wry-On "concurs" with her illegal and abusive policies. Big Poppa Prisoner will soon be "bringing it on home" as Robert Plant says, in the form of a nice Civil Action. I can see the judge putting on the "duel challenge gloves" now; preparing to slap the lard ass of correctional copying in her corn fed fat cheek (the one on her face this time). We will fight to the death, hold on to our rights until they are pried from our cold dead fingers. You may win a skirmish or two, but the war rages on. Right has might and all know that we, the educated prisoners of this shithole "ShirleyWorld", are right on this one. See our might. Watch us flex. Prepare for the change. It is coming like a freight train! Copy this!

More To Come...
