Dear BostonRocks,

Thank you so much for considering helping us out here at CURE-ARM.  
Please go to our facebook page and check out our description;

The short version of who we are and what we do is that we are a "prisoner" guided advocacy group that works to educate the general public about the failure of the department of correction to adhere to the "Rehabilitation Mandate" here in Massachusetts and how that failure diminishes public safety dramatically. What we need at this time is for someone to take over our email account. All this would require is for the email manager to send out 5 to 10 short emails a week for us and then make "hard copies" of any responses and direct them to me here at the prison. This would be an incredible help. If this is something you can do i will send you our email address and password so you can get started. It would not be a lot of work and you would be playing a role in the drive for common-sense prison reform/public safety reform. I do hope you can help out. Let me know?

Thankyou again and I hope to hear from you very soon. You can contact me directly at;

"Frayed, torn, and worn out,  
but clawing for the surface.  
Down, low, and knocked flat,  
attack the ankles if we must.

Strong, bold, and in their face,  
reminding them we still breath.  
Dignified, noble, and without fear,  
any day now we shall be released."
