

OPRAH

Hey OPRAH, I just want to tell someone my story, so even if you never see this, well, I just turned 46 and I'm in PRISON in Texas. I'm doing two concurrent sentences for sexual assault of a child. I am gay and have been openly gay since I was 16. I was molested by my step father from the age of 4 to 11. I joined the ARMY when I was 20, suffered a massive heat stroke and I have been suffering from a major mental illness ever since. I have tried to kill myself many times and have self-mutilated many times. I have been jumped by prison gangs and severely beaten several times, the part is the guards just watched. I have been raped and extorted and the state of Texas didn't help because of my charge and the fact I'm gay. The worse thing is I have never sexually hurt anyone. I plead guilty because I was hurt because two young men I thought were friends said I had hurt them. I want to tell the story but I don't know how. Please help me get all of this off my chest. Peace ♡ Donny
