

SHIRLEYWORLD UPDATES
"Let The Bullets Fly!"
Chapter XXIX

by Timothy J. Muise

* * * * *

- PRISON IS CANCELLED DUE TO "LACK OF INTEREST" / GUARDS REJOICE!

Many here at ShirleyWorld, who thought for a while that the ship had been righted, were shocked to learn that prison has been cancelled due to lack of interest. For quite sometime movements were fairly regular and on time, buildings were open, and programs were being held. We are sad to report that it is all going south real quick. After laying in the weeds for quite sometime the layabout guards, sergeants and lieutenants have lulled our Queen, Her Majesty Rubber Stamp Wry-On, into a false sense of security, and now daily movements are late, more and more building closures are happening, and the plague that is the ShirleyWorld suboxone epidemic is reaching crisis magnitude. Movement may be at 9:10 a.m. or 9:17 a.m. in the morning when it is scheduled for 9:00. We are not let out of our cages at 8:50 a.m. anymore but are back to whenever hate filled guards decide they want to push a button; you cannot pry them away from computer solitaire and new You Tube access. Movement at 1:PM? Heck no. Let's wait till 1:30 and if we feel gracious maybe 1:20 before we let men go to school or programs; after all if we let them "cure" themselves we won't have return customers. Readers may not think this is by design but you would be quite mistaken. This past week forty or so "recruits" from the DOC Oxygen Waster Academy were roaming around this joint just waiting for Carol "87% Retirement Boost" Wiggins-O'Cryin to give them their Big Boy Uniforms; all this while new Governor Baker announces a "hiring freeze" statewide. Plenty of job opportunities for the "scum of the earth and dregs of humanity" as Mark Twain likes to call prison guards. You may not think these delays and cancellations mean much, but you are wrong. These failures force young prisoners to fill those voids with anti-social behavior which breeds future crime; and this shithole is the prime breeding ground. You cannot see Mattapan or Dorchester from Rubber Stamp's Ivory Tower but the damage her failures are doing is very vivid to the residents who can see those neighborhoods. Yes, prison has been cancelled due to lack of interest, but more importantly public safety has been cancelled by Rubber Stamp, Deputy Denied-Oh, Deputy McCan't, Captain Shebert, and the rest of the "run her on the rocks" crew of the SS ShirleyWorld. Secure your floatation devices!

- THE "HOLE" IS FULL / SOLITARY CONFINEMENT AS AN ARTFORM

This past week the "Secure Management Unit" (SMU) otherwise known as "The Hole" was completely full; each and every cell occupied. They even had to place what they call "seg status" prisoners in some of the observation cells in Deputy Denied-oh's "SNF" (you will not be surprised to learn that she also runs "The Hole"). Governor Patrick states he will "cease using solitary confinement", but apparently Deputy Denied-Oh was at the Hatred Convention that day and Rubber Stamp was having the flat screen TV's in the Ivory Tower cleaned. Even sadder is the fact that once they toss men in The Hole many

refuse to come out as they do not want to be returned to the Land Of Foolishness that is ShirleyWorld. Men would rather be returned to maximum security, where there exists a much higher level of violence and personal danger, than be subjected to any further Ivory Tower leadership and Denied-Oh disrespect. The Hole is full of angry men who will eventually, some very soon, be returned to the streets of your cities and towns. Men are up in the hole for minor infractions for the most part. There are some up there for fights and drugs, but others are up there for "insolence toward staff" which means some whiskey breathed guard gave them a hard time and when they responded the souse had them "lugged to the hole". Others are up there for being "out of place", which means a man went to the library at a time when he was not supposed to. Deputy Denied-Oh wants you at the Poker Table or on a Suboxone Hunt on those off times (or getting a tattoo or body piercing). Get caught in the "Library" and off to solitary with you! That is the essence of ShirleyWorld logic. Cops are showing their boobs to their "Latin Lovers", some lug in suboxone, tattoo ink, K2, weed, pills, etc., and they administration has cell searches conducted for empty bottles and excess toilet paper. Welcome to ShirleyWorld! Cops beat up handcuffed cons while drunk on the 3-11 shift (the cops are drunk - not the cops) The Hole is full and the wallets of the guards even fuller. The Jobs Program that is the DOC is alive and well, but the safety of your streets; well, not so much.

- TEENAGERS WILL BE ALLOWED TO TOUR PROGRAMS BUILDING FOR BEDROOM 101

Groups of teenagers will be allowed to take tours through the Shirley-World Programs Building in a class that will be called "Adolescent Bedroom Design 101". These pimple faced puberty experiments will get to view the office of Captain Shebert as it is the world's best example of what the typical teenagers bedroom looks like. This model of juvenile design is right up there with "Pimp My Ride" and "MTV Cribs" as a real teaching tool for still wet behind the ears kids; the only problem is is that Captain Shebert is damn near sixty years old! His office looks like a 14 year old Gomer Pyle wanna-be lives in there. Pipe dreams scream from the walls declaring, "Pretend you were a hero and maybe someone will believe it." GI Joe and Matel Toys did not offer as many childhood playthings as Captain Shebert displays in his Command Center. The Golden Badged F Troop cannon operator shoots down his own tower of integrity each time he ventures out into the "Battlefield" that is ShirleyWorld. As he chases our own Wrangler Jane's he cares not about late movements, fellow guards smuggling in suboxone or showing a booby. With each bargain bag of Army men he purchases from Toys Are Us another unprepared prisoner is released with just enough money to purchase drugs and a street gun. With his Air Soft M-16 in hand he assaults the honor of every real leader in the free world. You would have to see his fool's managerie to really believe as my writing skills are not sharp enough to paint the full picture of immaturity that roars from his abode. This is what we are forced to deal with here at

ShirleyWorld: Idiots are placed in positions of high power and there is no one available to say "Are you shitting me?" This is a nut house and some of the biggest nuts here wear badges; and quite a few of them the Gold badge. I remember when I was fourteen I would smoke a fat doobie of Columbian Gold and then cut out pictures of Led Zeppelin in concert and paste them to my bedroom walls. It pleased me at that age. It is just not something I would find attractive at 51, but who knows, if they pinned a gold badge to my chest, gave me \$2,000.00 a week, and allowed me to decorate my own office, hell maybe I hang a poster or two? Sure I would, are you kidding me? I'd rather cut my throat with a dull Cub Scout knife than to wear the dishonorable DOC blue. Let the tours come in at least you would get some use out of this oxygen waster and his fat state teet-sucked wallet.

- DOC PURCHASES NEW "SILHOUETTE" PRACTICE TARGETS FOR TRAINING

The DOC has taken a bold step to move their new recruits, as well as sharpen the skills of the guards at their yearly qualifying tests, into a more realistic and modern time as far as training for sharp shooting is concerned. Studies had shown that the old "silhouette" targets just did not inspire any emotion for the kill. They have now paid for the design and production of new "Emotionally Stimulating Practice" Silhouettes which clearly depict the rear view of Lt. Shameless Peckerwood. The survey studies showed that so many of his own "troops" wanted to shoot Lt. Peckerwood in the back that these modern imagery silhouettes could really prove to be an effective training tool. Sgt. Messy-Her commented, "So many of us would like to put a double-tap between his shoulder blades for dragging us into negative situations with his foolishness and idiocy that I knew these new targets would be a big hit." Sgt. Big Chew Charlestown phoned in from a date at the Bull Run Pub stating, "I guess the only problem with the design was getting the proper reflections of Shameless's mishapened melon correct on the target. When you see his squash from the rear view it looks like eggplant gone wrong." The good news is that design masters from Disney Studios got it right for the DOC and they will start using the new "Put two in the hat os Peckerwood" silhouettes later this month. They hope these ESP Silhouettes will catch on nationwide.

More To Come...
