

SHIRLEYWORLD UPDATES
"Let The Bullets Fly!"
Chapter XXX

by Timothy J. Muise

* * * * *

- CREDIBLE THREAT REPORTED AT SHIRLEYWORLD / ALL HANDS ON DECK

The office of Fearless IPS Commander Lt. Awe (we are in "Awe" of the fact that guards still speak to him after spending years at DOC Internal Affairs investigating other guards) received what they deemed a credible "threat" that two rival gang factions were going to go at it here at the facility. Lt. Awe passed this information onto our even more Fearless Leader, Kelly "Rubber Stamp" Wry-On who issued a loud decree from the Ivory Tower: "All hands on deck!" You could not believe the desk jockeys that climbed out of their holes to man the walkways and doorways to "pat search" and "magnetic wand" old men and the handicap. Roaming patrols of oxygen wasters traveled form cellblock to cell block frisking men who have not seen a weapon in three (3) or four (4) decades. Octogenarians were caught with "glucose" tabs for diabetes and "nitroglycerine pills" for heart attacks, and treated like they were heroin dealers. Men who carry wallets were subjected to additional scrutiny as the elite force manning the decks of the SS Hopelessness pretended like they did not know they sold them to us. You could hear velcro tabs ripping open all over the compound as highly trained professionals reviewed family photos and books of stamps which were contained in the wallets, and could possibly be use in gang warfare. It is a well established fact that Bloods like to choke Crips to death with books of stamps and I believe that Lt. Awe has even published a White Paper Report on the topic. We had nine (9) sergeants, six (6) lieutenants, and numerous \$100,000.00 "shirts" roaming the battlefield dodging wheelchairs and walkers in a unified effort to quell and possible gang insurrection. I am very happy to report that the effort proved to be extremely effective as no one even busted a grape while these Barney Fifes, bullet in pocket, were on patrol. Kudos to the crack law enforcement group here for their diligence and concern. Our Queen did not have to leave the safety and security of the Ivory Tower as her proud force of fools kept the poor convicts safe.

- MORE BUILDING CLOSURES RUMOURED AT SHIRLEYWORLD / GUARDS AT A PREMIUM

It is rumoured here at ShirleyWorld that there may be another round of Building Closures due to "understaffing", and this is truly proof of just how resourceful these oxygen wasters and suits are as Massachusetts has the highest prisoner to guard staffing ratio in the nation (there are 2.2 prisoners for each 1 employee in the DOC). With the most guards in the country they still cannot manage to keep the rehabilitation buildings open, even after graduating five (5) consecutive classes from the DOC "Academy" (think Police Academy movies only with less talent and more quirks). They never tell the new recruits that part of working for the DOC is signing over your soul. They never bring up that prison guards have the highest alcoholism, domestic abuse and

suicide rates of all law enforcement (or Law En"Farce"ment as we like to say!). One of the reasons they don't have the usual amount of nap takers and computer solitaire players is that over forty (40) guards have requested and been granted transfers to other institutions. They know, just like us convicts, that this place is the end of the line in prisons, the bowels of the system, and if you spend too many years here your soul rots like a fish fillet in the sun; you stink so bad not even the rats will eat you. We have so many lieutenants and sergeants that have it written into the employment contracts that they cannot work certain jobs, that posts remain vacant as they can only be filled by the line officer. The unions, with their fake illusion of power (they have no ability to strike), have placed such a stranglehold on the system that we have the highest amount of guards in the country but still cannot staff the normal operations of the prison. It is a true joke and one of the most glaring wastes of taxpayer dollars. As these oxygen wasters retire with 87% of their \$70,000.00 salary your streets continue to be infested with drugs, poverty, crime and despair. You may not think that the closing of the rehabilitation buildings at ShirleyWorld is a big deal, but if that is your thought you are sadly mistaken. Instead of building men up, allowing them to be educated and afforded life skills, the building closures subject them to idle time which is filled with drugs and criminal thinking. At ShirleyWorld they have replaced hope with suboxone; it is almost unbelievable. If you are struggling out there, if tough economic times are knocking at your door, maybe you might want to consider a career in corrections? Just be prepared to surrender your soul and possible trade it for a bullet snack or a guards noose!

- STILL NO LIBRARIAN AT SHIRLEYWORLD / EMPLOYMENT SEARCH WIDENS

It is approaching three (3) years since they have had a librarian here at ShirleyWorld. Our Fine Feathered Turkey of Correctional Thanksgiving, Deputy Denied-Oh, drove away the long-standing librarian when she requested that he polish her jackboots, and they she scared away a new hire when she explained to her that a "prison" librarian is the exact opposite, like Superman's "bizarro" world, of a street librarian; meanign that a street librarian is supposed to bend over backwards trying to provide services, while a prison librarian bends over backwards to deny them. Like rats of the Titanic these librarians have fled and they have not been able to fill the \$45,000.00 to \$64,000.00 position thus far. Massachusetts law, the Code of Massachusetts Regulations (CMR), details the prison library as the "Information Center" of the prison. Here at ShirleyWorld it is a different type of "Information Center" as it employs some of Deputy Denied-Oh's best informants. She can come over at any time and ask, "What is going on at the Veterans Group?" and one of her Huggy Bears will give her the dope. She can inquire, "Who has not been showing up for work?", and her Sammy The Bulls will drop a heavy dime. That is ShirleyWorld personified; the land of the widespread Stockholm Syndrome. Boot-Lickers, Ass-Kissers (and there's a lot to kiss), Ball-Strokers, and all kinds of Shit-Nosed residents of Stockholm

permeate the assylum; it is the nature of the psycho-hope stripping drama that is modern corrections. Never fear though our Queen has asked that the Librarian Position be posted on following websites in order to obtain the best employee: www.nazipride.com, www.sadist.com, and Deputy Denied-Oh's favorite site www.asscushion.com. For sure, in short order, we will have a librarian that fits the bill: submissive to the Beast From The East.

- SPECIAL OLYMPICS BESTOWS GREAT HONOR UPON LT. PECKERWOOD

The Advisory Committee of the Special Olympics has bestowed a great honor upon our own Lt. Shameless Peckerwood here at ShirleyWorld by affording him an Honorary Gold Medal for his passing the physical fitness test of the DOC. Dan D. Lyon, President of the Advisory Committee, was quoted as saying, "You can never know just how difficult it can be for the mentally challenged to pass these rudimentary physical tests. You have to understand that when you are a "borderline tard" you are a great disadvantage in this world." Betty Isgaye of their Awards Board went on to say, "Shameless had attempted to participate in the "Chin Balance" event at the 1990 Special Olympics but we had to turn him away as he wanted to compete in a pink wrestling singlet and that type of garb was just not accpeted back then like it is today. In order to make up for that we will bestow this Honorary Gold Medal upon Shameless for being able to run faster than his fellow Lord of the Rings staff member CO Smeagle." Many have wondered if Lt. Peckerwoods eggplant shaped head may cut the wind, allowing for greater speed, but no real scientific tests have been taken. Joe Convict was heard saying, "Lt. Peckerwood makes fun of peoples weight but at least they could lose pounds. What is he going to do about that head and personality of his?" Stick to balancing balls on your chin Shameless!

More To Come...
