

SHIRLEYWORLD UPDATES  
"Let The Bullets Fly!"  
Chapter XXXI

by Timothy J. Muise

\* \* \* \* \*

- \*\* BREAKING NEWS \*\* DEPUTY DENIED "O"DECLARES SELF "GOD" / ANGELS PUKE

After one of the so-called "companions" who work in the HSU/SNF took the initiative to give a shower to a sick and dying dementia patient Deputy Denied-Oh not only employed some fantasy "zero tolerance" policy (she has zero tolerance for compassion and fairness) and fired this man, but she also issued a declaration that she was now God! In her retort, "Men can go up to 40 days without a shower." she employed that same sacred biblical time-frame that the God of Abraham and Issac would use. This poor "companion" (who obviously did not realize just how evil our self-proclaimed "God" is when he took the job) is one of the juvenile offenders who was given an opportunity for release under the Miller v. Alabama decision which ruled mandatory life sentences for juvenile offenders unconstitutional. What this "Act Of God" Deputy Denied-Oh has committed means for this man, a man who was working for her, is that it could jeopardize his freedom. This fantasy "zero tolerance" policy of Deputy Denied-Oh subjected this man to a disciplinary report for the offense of "giving a man a shower". This is the true insanity of this Deputy Denied-Oh run world. The poor patient, let's call him Genius, was stinking bad for lack of a shower. Our "companion" went to the nurse numerous times and informed her that Genius needed a shower. Genius kept asking for the shower as well, and finally this Denied-Oh companion became so overwhelmed by human dignity that he had to give the man the shower; and this act of compassion not only resulted in him being issued a disciplinary report, being fired from his job, but also may have cost him his chance of returning to his family after being in prison for twenty years; he came in as a 17 year old. No good does goes unpunished does not even come close to describing the lunacy of this situation; even more crazy is that our Fine Cushioned Deputy uses it as a chance to declare herself God: "Men can go 40 days without a shower." This is insane. Her compassion and fairness crashed down like the twin towers and was caused by just as much evil. She did not flinch when she learned this man was going to have his parole jeopardized just for giving a man a shower: she has "zero tolerance" (her words) for such compassion. Karma will come hard to our "God". The Angels in Heaven has tossed their cookies at the thought of this self-proclaimed "God"! 40 Days... 40 Days... 40 Days...

- LT. BURY-ANUS DEPARTS (GOOD RIDDENCE) / "DARK" FORREST TO TAKE OVER

Our extremely inefficient and blatantly manipulative "Grievance Officer" here at ShirleyWorld, Lt. Timothy Bury-Anus, has left these putrid pastures for the greener fields of NCCI Gardner; like many of the "rats" on the SS ShirleyWorld "Titanic" he is fleeing Rubber Stamp Wry-On's sinking ship (most transfer requests in the system for 2014). We will not miss Lt. Bury-Anus as we could not possibly do worse than this "fake it till you make it" grievance denier. It is rumored that

long time "Head CPO" (a CPO is a fake social worker - basically just a guard in a different color shirt made to give the illusion that prisoners individual needs are being "evaluated" by a social worker, which the law requires) "Dark" Forrest may be taking over. One of the "gossip queeens" of ShirleyWorld we are certain her denial rate will match that of Grievance Officer Bury-Anus, but who knows as she certainly has the potential to surpass it. These long-time ShirleyWorld employees has a certain aire of arrogance, like they can do whatever they please, and I saw this first hand with CPO Dark Forrest when I attended a "Court Ordered" Classification Hearing with her. Right from the rip Dark Forrest had an attitude due to the fact that I had a Superior Court judge "order" this farse of a hearing. When I immediately attempted to introduce a "verbal motion" to remove one of the three Board members (I almost could not keep a straight face when I did it) you should have seen the look of disgust on Dark Forrest's puss. Quite memorable for me. All in all, the bottom line is that it does not matter who takes over the joke position of "Grievance Officer" as the whole system is just a farse put in place to seem to satisfy the law. Lt. Bury-Anus is now Gardner's problem, (I wonder if he brought his girlfriend CO Kathy "Plastique" Counts with him?) and we just get a different set of O2 wasters here to run the ship on the rocks. I pity the men who may choose to venture into the Dark Forrest seeking resolution of serious problems; don't they know it is all a scam? A very expensive scam.

**- BLIZZARD OF 2015 / WHO WILL SHOVEL OUT THE IVORY TOWER?**

Well we survived the Blizzard of 2015 here at ShirleyWorld. Wheel-chair bound octogenarians had some real difficulties getting around, but for the most part we came out unscathed. Prisoners getting paid \$1.00 per day braved the elements for hours at a time and shoveled out the walkways for us as if we want to eat, or get medication, we have to venture out into blizzards, rainstorms, and lightning strikes. The prison gives the aging old men here, who have no families left after three or four decades in prison, a pair of cotton state "bo-bo's" to walk in and this year they are not even passing out hats! Last year her Highness Rubber Stamp Wry-On passed out "red" hats, but she took so much flack from the guards that she bitched-up on that topic this year. Men will just have to drag their elderly asses out without any hat of they want to eat or get meds. Maybe Rubber Stamp could pay them \$1.00 a day to shovel out the Gold Paved Path that leads to her Ivory Tower; then they could buy some boots. One year, when I was at MCI Norfolk, the King there, Gary Roden(t), actually came in to work on Christmas Day during a snow storm! No such luck here with our Queen. Rumor has it that she was bathing topless in the South of France while men struggled to push wheelchairs through the 3 feet of snow we got here. Now I am not against her going topless, in fact I support it, but maybe she could choose a time that was not so inopportune? I'm just saying. Never fear though as

"The King of Walks & Grounds", CO Scumlafia, had the Winter Clean-Up well at hand. He directed snow plows and an elite work force of "dollar a day", optic orange clad convicts and as he cracked his sadistic whip they shoveled as fast as their suboxone ravaged bodies would allow. It should also be noted that the "Milk Task Force" here has now taken on the persona of the U.S. Post Office as they do not let "Snow, Rain, Dark of Night, or Computer Solitaire" deter them from their duties. You would be happy to know that in the teeth of the blizzard vertically challenged oxygen wasters were "seizing" 8 ounce cartons of milk from lactose felons as they exited the chowhall. Your streets are safer with these real heros on the job! If a Hood Truck crashes they would be first responders! It is rumoured that Lt. Shameless Peckerwood will be heading up the 2015 Milk Task Force due to his history with smokin' the ganja. Deputy McCan't feels that if Shameless "puffs a few doobies" he will have an insatiable appetite for milk and cookies, which may even rival his insatiable appetite for man-lovin! Good move McCan't!

**- PONY EXPRESS THROWS A SHOE / DEPUTY DENIED-OH DOES NOT GET MEMO**

We have received information that the ShirleyWorld Region Pony must have thrown a shoe on the way to Deputy Denied-Oh's office as she did not receive the memo about ending solitary confinement in the prison system. The Pony Express is usually pretty efficient, but this week the could not possibly have made it to Deputy Denied-Oh's office as each and every cell in the hole was again full. Possibly we can begin to use one of the 100,000 pigeons here at ShirleyWorld (no not the IPS Stool Pigeons, but the ones with the actual feathers) to deliver messages from The State House to Deputy Denied-Oh's Office in Hades. New Governor Baker has agreed to allow Lt. Shameless Peckerwood to be used as the posterboy for the new DOC "Don't ask, don't tell." program. "After an exhaustive search we determined that Lt. Peckerwood best reflected that alternative lifestyle that we need to be more accepting of.", said Governor Baker. "I was concerned that his eggplant head may not fit on typical poster board but the professionals in the State Printing Office assure me that they can squeeze his melon onto the poster, kind of like his last date in P-Town!

More To Come...

So great to hear from my dear friends at MCI Norfolk. They are all supporting our efforts with CURE-ARM and The Mass Prison Voice. One of my dearest friends, Brian G., sent along the following drawing with his visual take on "Life In Prison". Half dead / half alive: I agree Brian. Keep up the great work! Here is a poem to go with the much appreciated drawing;

Layed bare to bone,  
hard light on the wall.  
Caged in tight,  
still standing tall.  
Time not our friend,  
deep wounds won't mend.  
Wolves in sheeps clothes,  
put us in the fire.  
To escape this dire madness,  
that is our desire.  
Good friends like you are gold,  
together all the stories will be told.
