

"Gone but not  
forgotten"

I Learned that on July 27th 2014 my Brother Reggie Collins was found dead in an alley in Sacramento California. He had lived on the Streets since the early 90's. He had a severe drinking problem and died from a Cancerous Liver. He is survived by three Sisters Diane Maggiora - Cindy Pockrandt and Linda Scott.

I don't know much about him in the way I would have liked such as if he had any children - I lost contact with my Brother when I started my incarceration in 1991. He was a good man and I wish he would not have died all alone in an alley where even dogs are not allowed to die for them there is always someone to lend a hand.
