

SHIRLEYWORLD UPDATES
"Let The Bullets Fly!"
Chapter XXXIV

by Timothy J. Muise

* * * * *

- MORE LITIGATION AGAINST DOC / GUMBY & POKEY FILE CIVIL ACTION

I am sad to report that another financial burden has been weighed onto the shoulders of the DOC and they may have to cut back on the number of computer solitaire players here at ShirleyWorld as a result. The favorite childhood character of many of these log-splitters out here in the woods of the Greater Shirley Region, Gumby, has filed a compelling lawsuit against our own Lt. Shameless Peckerwood. In this civil action Gumby claims that when Shameless was a child, and forced to hide in the house due to the numerous bullies who took his lunch money, gave him atomic wedgies and indian burns, and played trash-can lid badminton with his scrotum, he watched The Gumby & Pokey Show nonstop developing a fondness for the shape of Gumby's head. This fondness led to Shameless placing his head in a pipe vise down in his cellar for a few hours a day. Due to the fact that Gumby's head is trademark protected the claim goes on to say that Lt. Peckerwood has committed trademark infringement through displaying his Eggplant/Squash/Rotten Melon shaped attempt at Gumby mimickery here at ShirleyWorld; a public domain. Rumor has it that Lt. Peckerwoods defense will be one of diminished capacity and we are certain that any jury who hears him spew his foolishness first hand will find him fully non-compus mentus; or as they say in Gloucester: softer than a sneaker full of shit! Further damaging to the DOC's defense fund is the fact that Gumby's partner Pokey has also filed litigation against a ShirleyWorld employee. Pokey claims that Lt. K. Urine has "played horsie too many times to count wearing an orange rubber S&M suit with mouth-ball reins." This orange suit "resembles my trademark look", as Pokey puts it, "and Lt. Urine therefore violates and infringes upon my trademark rights." I think Pokey may have missed another solid legal claim against Lt. Urine as she is also known by the name "Pokey" in the Irish Times bar in Worcester, MA., as well as at Moynahans for reasons that should be obvious to all. A little drinky and then a little pokey, let's just say!

- IRS INVESTIGATING CLOTHING DEDUCTIONS OF SHIRLEYWORLD EMPLOYEES

More bad luck for DOC Legal and their own Clarence Darrow/Perry Mason wanna-be, Fancy Nazi-White, as the IRS is investigating some very questionable "clothing deductions" that ShirleyWorld oxygen wasters have been claiming as "work clothes". This list of questioned deductions includes;

- Orange Rubber "one piece" style suit with Lieutenant's Bars:
Lt. K. Urine
- Pink "Union Suit" with large "boosting pockets" toilet paper size:
Sgt. Bitch
- Lace Teddy Nightgown with "trap door" access and Lieutenant Bars:
Lt. Shameless Pckerwood
- Camo Design Thong with "I Love P-Town" embroidery & "Semper Fi":
Captain Shebert
- Brilliant Red Devil's Suite (horns & tail included) with Red Cross:
Deputy Denied-Oh

- Red Wrestling "Singlet" with "IPS" embroidered on chest and "Rec Staff" on Buttocks:
Coach Woodhead
- "I Hate rehabilitation" T-Shirt, Tie-Die in Color/V-Neck:
Deputy McCan't
- "I Love Suboxone" (I "Heart" Suboxone) Orange T-Shirt; bedazled:
Kelly "Rubber Stamp" Wry-On

DOC Chief Legal Counsel Nazi-White released an initial statement on the investigation; "I find these clothing items wholly appropriate for this 'anything goes' crew of ShirleyWorld miscreants and do not understand why the IRS has their panties in a wad!" IRS Special Agent Pat Meenutbag commented, "Are you shittin' me?"

- THE GHOST OF THURGOOD MARSHALL RISES! DEPUTY DENIED-OH PLAYS INTO HAND!!

The author of the most significant and important prisoners rights legal decision of our time, Thurgood Marshall has risen from his grave! Like that Phoenix of historical scripture Justice Marshall saw the enemy and summoned the Powers of God to return to the battle! In his landmark ruling in the case of Procunier v. Martinez (U.S. Supreme Court) Justice Marshall placed special protections on the outgoing mail of prisoners; free speech protections that are still the law of the land today. Now the author of this blog, a free speech warrior, has consistantly engaged in Procunier protected activities during the course of his entire incarceration, and it has been no different here at ShirleyWorld. Here, just like at Norfolk and SBCC, the gulag staff, dolts like Deputy Denied-Oh, truly feel they can violate the constitutional foundations that protect this Free Spech Warrior. MCI Norfolk badge wearing devils were taught a nice lesson to the tune of \$10,000.00, which the Warrior received in 2014. Now our Wide Glide of a deputy has taken the bait here at ShirleyWorld; she has made that crucial mistake like when the Japanese bombed Pearl Harbor. It looked good for the Rising Sun on December 7, but when we dropped the A-Bomb at two locations it gave them definate pause to reflect on the folly of their ways. Well our fine cushioned deputy felt it was time to drop her sneak attack, to attempt a Pearl Harbor strike, but what she did not count on is that the forces of the Free Speech Warrior have been working on their own personal Manhattan Project for years now: she took the bait and the H-Bomb is being loaded into the Enola Gay as we write! It will be "Bombs Away" in our time, not hers, and we will ultimately prevail. I think the DOC should buy a new pen as they are certainly going to need to write another check to be deposited into the Free Speech Warrior's Prison Dismantling Account! It won't be this week, or next, but it will be before the Warrior wrpas this bid up and hits the streets. The War in the Pacific is on and I have nothing but time, three years to strike, counter-strike, but the sad part is that Deputy Denied-Oh is more concerned with The Free Speech Warrior contacting government officials than she is that

there are over 100 men in her "facility" (gulag) with active drug habits! That's right; men here are strung out, using so much drugs that they are sick and acting like addicted predators when they can't get a fix. This is ShirleyWorld - This is Deputy Denied-Oh, quintessential Denied-Oh. It is also the very reason that she "steams from her ears" when the Warrior invites the government in, as she knows he is going to tell them about her many, untollable failures; like the parade of drug addicts up and down her walkway. Rubber Stamp Wry-On lounges in the Ivory Tower, most of her charges not even knowing who she is or what she looks like (do you think Burl Cain is "unknown" in Louisiana?), while letting Deputy Denied-Oh, bile on her breath, run the gulag. Remember the judge from Chao v. Ballista? Well plan to meet her again, but with Thurgood Marshall's Ghost as her chief legal advisor!!! Stay tuned for our Victory Cry! Long Live The Free Speech Warrior!

- ALPHA PROGRAM EXCEEDS ITS ENROLLMENT / RUBBER STAMP PISSED!

In what anyone would call a resounding success, the Alpha II Program has exceeded its initial enrollment attendance, but in a true display of the oxymoronic, paradoxically twisted logic of our Ivory Tower residing gulag commander, Kelli Rubber Stamp Wry-On (still wearing that "wry" smile as she Rubber Stamp's Devil Denied-Oh's evil), is extremely pissed off (I guess better pissed off than pissed on, huh? - Stay away from Lt. Urine!). You see prison operation 101 is to take something good, created by convicts, and spin it into something bad. You then take something bad, created by evil gulag henchmen, and spin it into to something good. You then don your face-mask, head on down to the bank, and cash your paycheck which you truly stole from the state. Then, like a badge wearing ostrich, stick your head in the sand as men released from your "facility" (gulag), driven by their prison spawned suboxone addiction, head into the neighborhoods to purchase a pistol so they can visit "the philosophy of Wry-On" on society! The state is considering purchasing Kevlar Vests and closing halfway houses! Keep up the great and meaningful work. Oh, by the way, the Shirworld population called and they want to know what you look like!

Certainly,

More To Come...

SUCCESSFUL PRISONER INITIATED PROGRAMS AT SHIRLEYWORLD

* * * * *

The men of ShirleyWorld, the prisoners - not the administration, have had a very successful year or two in their efforts to bring truly meaningful programming into the prison. We do this as a way to offer something different to the prison population who mistrusts, with good reason, prison staff and refuse to attend their failed programming offerings.

This year alone our efforts have been featured in The Catholic Free Press, The Merton Seasonal, and America Magazine! This is what prisoners can do when prison officials get out of their way. Don't believe the ugly prisoner stereotypes prison staff try to spin to the public. We are doing great things in here, when we are able to slip one past the goalie as they prison official is always attempting to stop us. Their philosophy is that when we look good, they look bad. When we succeed, they fail. It is sad, but true.

We have formed the first and only chapter of the International Thomas Merton Society. We have formed the first and only chapter of Pax Christi: first and only in a prison! Men here study Merton spirituality. Men here practice Pax Christi tools for non-violence! You don't read about it in DOC literature, as they had nothing to do with it, but you will read about it here and in many freeworld publications. What follows are two (2) descriptions of the programs.

The motivated prisoners of ShirleyWorld want the public to know we are working hard toward real and meaningful change. It is truly shameful that the prison officials here take so many efforts to stop us. We will press on undeterred.

God Bless You!
