To Americans and Our Nations

For this year and years to come. I would like to see more love, forgiveness, peace and unity amongst our Americans and Nations. Let's try to reason with each other. When we get into a conflict or someone do something you don't like why resort to violence. Why can't we talk things out more. Instead of shooting someone.

Our communities can be safe if our young people would stop wanting to be cool. Do what everybody else is doing. I would rather be a geek instead of ending up in a place called prison or GAARV. Ask yourself young people is really worth it to rob, kill or rape. Get help for your problems before it's too late AND Put your pride aside.

What is the problem with our religion? Why is everybody is fighting over what somebody else believe. Everybody has that right to believe in whatever they want. But sometime people take their belief to the extreme. That is why we have court cases concerning religion now. People oversea fighting over nonsense when it come to religion. At the end of the day each person has to give in account for what they believe. So why are we disputing and fighting over religion? Where does the fight end? Enough is enough of the foolishness. Instead

of fighting. Why can't all religions come together. Say hey, you believe in this. That is your right. Join together as people. Say hey I love you and make peace with all men. Communicate with each other. I found out being a Christian. That people will hate other religion when they have not even educated themselves on what the person believe in. Even if you know what ~~another~~ ^{they} religion believe in. ~~Jesus~~ Jesus loves them so why can't we love unconditionally.

Our human race has turned out to be so bitter and unforgiven. So many people in America and other nations; are bitter at what someone has done to them till they cannot love and forgive others for their wrongs. But those same individual want others to forgive them. Why is that? Think about it; does it make sense to be that way. Due to you never know what circumstance you may find yourself in. You might need the person to help you that you just can't forgive. Stop putting condition on who you love. Love Everyone Unconditionally and forgive. You will be bless more this way.

What can bring peace, harmony and unity in Americans and other Nations. when everybody put their ideas together. Nobody ideal is greater than the next. More communication as leaders and community. you having problems with you in your community. Why not have a community meeting with youth in the community. Ask question like what can we do for you all. Having people that are homeless. Bring the community together. what can we do to put these people in a home, ^{and} get them jobs. A lot of our Nations, Americans and communities problems can be resolved.

We Love More . Communicate More . Nobody should not be jobless, hungry nor homeless. If they are, I fault the leaders in that community. Because if there was unity and love in those communities. They would pull together help whomever.

~~As citizen~~

As a citizen of United State of America. I would like to see more love, forgiveness, peace and unity amongst our Americans and Nations. A lot of our answer to our problems are right there if we would just only take a few minutes to think and analyze each situation.

Be Blessed we
can do this.
