

SHIRLEYWORLD UPDATES
"Let The Bullets Fly!"
Chapter XXXVI

by Timothy J. Muise

* * * * *

- ROOKIE GUARDS RESISTING ADVICE OF FOOLS / SHARE THEIR THOUGHTS

In another glaring example of what is wrong with your prison system new guards have been hired (5th class in the same time period where the State Police have had "zero" new recruit classes) here at ShirleyWorld. The "bad example" is that they are spoken to and led by fools like Lt. Shameless Peckerwood or now "senior" CO Smeagle (Hey Smeagle, Mordor called and it wants its ring back!). The "good" example is that some of these young guards see these fools for who they are. Let me give you an example. Lt. Peckerwood stood at the 113 Shack the other night (a prison "check-point") and made some negative comments about me to two new guards. After my trip to the HSU to pick up supplies I came back by the 113 Shack and one of these rookies grabbed me and said, "Hey Timmy. It sure seems like Lt. Peckerwood does not like you. What the Fç\$& did you do to him?" I told him, "I don't draw first blood, but his problems stem from the abuse he took as a cowardly little child. It does not take Freud to figure that out." The young guards laughed and then told me exactly what Shameless said about me. Now I have been establishing a record of all his foolishness with my lawyer. As when the day comes that he really screws up, which undoubtedly he will, he will never be able to tell the "authorities" that it did not happen, and Rubber Stamp Wry-On won't be able to hide behind her "defense of ignorance" like she used in the Chao Vs. Ballista case. She was found liable there to the tune of \$64,000.00 and the next judgment against her is not too far off as she is letting Deputy Denied-Oh drag her into another constitutional debacle with D-Report No. 330309. The time is coming, and the right powerful people are now making plans, when the ShirleyWorld "mega-failures" are going to be exposed. As I write this column members of our elected government are deciding just exactly how to handle the crimes that are going on at ShirleyWorld. Anyone who knows me knows that I do not bluff. If I say it then I mean it; trust me the "reckoning" is coming. I am energized though that these new generation guards are able to see through these fools like Peckerwood. As soon as he walks away he is a laughing stalk. He is that Vietnam "Legacy" Lieutenant with three .223 rounds in his back laying on the trail to Qua Trang Valley. His men issued him an "order": die! They had to receive 60 written complaints against CO Booby Show Swiller before they placed her under "criminal" investigation. They have dozens of very real complaints against CO HeadPig but he is still working. CO McHardly beats up handcuffed cons but picks up his fat paycheck with a Ski Mask on. Short/Squat CO "RiseFromTheDead" Lazarus abuses cons verbally each day. This is ShirleyWorld and this is the "ship" that Her Royal Highness Rubber Stamp Wry-On captains. All is deemed "unfounded" until it gets before Justice Nancy Gertner. Just remember: they day of reckoning is coming!

- SALES OF MACE INCREASE / STATE PLANS TO INVEST IN STOCK

The price of the stock for the SadistsAreUs Mace Company has risen sharply in the past several months. Economic experts credit the rise to

the expanded use of their products by the layabouts at ShirleyWorld. As you are well aware these "wannabe" cops, these "dregs" of law enforcement and society at large, are quite trigger happy. Since no one under the Stockholm Syndrome spell of Deputy Denied-Oh would ever think about attempting an escape from ShirleyWorld (why would they? She will pay them \$21.50 a week for their soul!) the guards do not get to shoot cons with their AR-15's, quite disappointing to most, but they do get to pack the "economy size" can of "mace". The problem is that as of late they have been using it on each other. The other day there was a fight in the chowhall. Not much of a fight, thank God, but a fight nonetheless. The guards had the situation well under control once the combatants ran out of gas so to speak, but that did not stop newly crowned lieutenant, bars still shiny fresh, "Cheap Cut of Steak" from blasting his own man, CO BudInHim, directly in the face with Mace. F-Ing hilarious! All the cons in the chowhall got a great laugh, CO BudInHim got a nice facefull of sting-juice, and Lt. Cheap Cut of Steak was as redfaced, almost as redfaced as Lt. Peckerwood, as I have ever seen him. This former "angry seargent" could not wait to flex his newseized authority in being allowed to carry mace and use it. The problem is, just like with almost all "use of force" incidents here, it was used at the wrong time and one of his own was placed in danger. How would you like to be a blinded cop inside a potential prison riot? Instead of "protecting" his subordinates this angry man placed them in "harm's way" as some of the narcissists like to say. Typical ShirleyWorld operating procedure. Now I do hate to admit it but not all the guards are like this. Some have been able to retain their humanity but it is as rare as a Texas Democrat. For the most part the prison runs under a two-part philosophy; The "spiteful/revenge based ideals of Deputy Denied-Oh and the Ostrich Head In The Sand/Ivory Tower Phone-It-In ruling of Kelly Rubber Stamp Wry-On". This breeds recidivism. It breeds guard upon prisoner abuse. It endangers the streets of our cities and towns. The good news is that the state is considering investing in the upcoming business SadistAreUs Mace Company. With Denied-Oh and Rubber Stamp at the controls it is a sure investment goldmine!

- 400 UNEMPLOYED CONVICTS COULD NOT GET YARD SHOVELED / DENIED-OH "CHILLS"

In a shocking turn of events (another remove tongue from cheek moment) the prison yard at MCI Shirley has been closed since the Blizzard of 2015. Although there are 400 convicts without prison jobs here at MCI Shirley Deputy Denied-Oh felt it was better to violate the prisoners here rights to outside exercise than it would be to hire a force of \$1.00 per day laborers to shovel out the prison yard. The experts know that the real reason behind this is that Deputy Denied-Oh and Superintendent Wry-On are closing toward retirement and need to have some financial security. As such they have invested in the drug company that makes Suboxone. In order to ensure that "Suboxone Inc.'s" stock soars they must shut down all healthy activities here at ShirleyWorld so that the men will continue to choose addiction over recovery. I must say they are doing a grand job of it thus

far. The joint is teeming with suboxone. For a few books of stamps you too can "chew on your shoelace" as you are so high. Whole tables in the chowhall have "nodding" prisoners at them while Sgt. Young-Un and Sgt. Genitalia seize clotheslines and window covers. On any given day you can buy an "eighth" or a "sixteenth" while the IPS take urine tests from convicts they know do not use. When the commissioner's office or public safety inquires Rubber Stamp can say, "We have had less dirty urines this year than last. We are making a difference." That is modern corrections and that is why I will never stand on the sidelines. I will expose them. The reckoning is coming, I assure you, and they will be held accountable in this world first and then at the hands of their maker. If you want to "chill" with Deputy Denied-Oh, if you want to get high as a kite with Rubber Stamp Wry-On, come to ShirleyWorld, bring a few books of stamps, snort some watered down suboxone, smoke some K2 soaked paper, crack a bottle of homebrew, and belly up to the poker table! This is ShirleyWorld. This is Denied-Oh/Rubber Stamp rehabilitation!! This is what your tax dollars are paying for!!!

- THE HEAVENS OPEN UP / MANNA RAINS DOWN / RUBBER STAMPS MAKES A DECISION

In what can only be described as a true miracle Kelly "Rubber Stamp" Wry-On actually made a decision all on her own that did not coincide with Deputy Denied-Oh's "to hell with rehabilitation" ruling on Family Events. You see "Deputy of Programs and Classification" Denied-Oh placed a "moritorium" on weekend Family Reunification Events as she knows full well that if a man can heal his bonds with his family that she may lose her tight "suboxone induced" grip on his assured recidivism; the prison guard's (even glorified guards like Denied-Oh) bread & butter. Remember when Bush No. 2 placed "oil men" in charge of the Alaskan "environment"? and "Lumber Men" in charge of the forests? Well that is what it is like placing Deputy Denied-Oh in charge of "programming". But like I said the Heavens opened up, manna rained down on rainbow chutes, and Rubber Stamp Wry-On "overrode" the fine cushioned Devil of programming! I say "Bravo!", and scream "Author, Author!", at this play of the macbre! Well done Rubber Stamp, you put your Manolo Blanik down! (or is it a Cole Hahn?) It sure beats the Beach Flip-Flops of Ms. Denied-Oh. This calls for a "cage match" between you two, possibly in oil or jello!

More To Come...
