

March 29, 2015

Greetings again & comraderie' salutations to all fellow compatriots:

Here is another Political Blog. Like the previous blogs I am requesting communication from like minded politico's who share my interests, along with other type of support such as legal assistance, contributions, donations and so forth. And, as my previous messages have indicated, I am innocent of the crimes they have me down on, I am a political prisoner, & certainly a member of the oppressed class.

Unique to this communique' though I am including additional information relation to the political nature of my case, (and statis as a political prisoner) by informing the public that views my blog, my incarceration happens to be connected to the incident that occured in Waco, TX in 1993. I am also asking those who support the basic rights of all those victims who parished at the compound, ( or who survived but were ongoing victims of that governmental oppression ), ought to support me & my cause too. It is one and the same struggle! [Because it is related to me & my case. (Related inadvertently but related all the same)] ( A seclection of people realize that fact.) I can explain such relation to Waco to those who inquire. )

Please notice & refer to the additional attached pages of documents indicating communication with government agencies relating to Waco Investigations:

These included documents/communications are offered to show my legitimate claim that me & my case are inadvertently related to the Waco incident. Those that doubt my claim concerning this relationship to Waco, or doubt my statis as a "Political Prisoner" perhaps ought not to bother making contact here at this Blog address or contact me personally. I am not discouraging anyone who simply wishes to make contact for lesser reasons, I don't mind, but others who take my Blog seriously & are for real about communicating are more welcome!

Comrades who were there & those who know of such affiliation are especially encouraged to make contact "Cruche"

Solidarity!

Corkey Ogle B-35475
