Dear JT:

Thank you for all the research you have done. My advocacy work involves interviewing some prisoners whose convictions may be unjust; I do my best to "fact check" what they tell me, but most of the information comes from legal documents and personal interviews.

Richard Shuman is a good man who fell victim to what all evidence shows was a lethal drug combination. I'm no scientist but I do know this; Dicky Shuman was a pillar of his community, wonderful parent, and effective businessman and partner. All of a sudden, after combining two very powerful psyche medications, he shoots to of his long-standing business partners and then goes to his mother's house in a state of confusion. These are the facts and in my latman's opinion the only cause of this violent act is the drug combination.

Richard Shuman should not die in prison! That is the bottom line for me and I was very happy to be able to profile his story on the blog. He deserves his freedom. Please help us help him to secure that.

Again, thank you for your valauble research and the information you have provided. Please let me know if you can play a larger role in the quest for commonsense prison reform. I am,

Sincerely Yours,

Timothy J. Muise
