Dear Chief I.G.

Because of what I've written regarding the recreation staff here at Union C.I. I've been facing verbal threats, verbal abuse and sexual harassment by Sgt. Blue the rec Sgt for P-Dorm north side. Today Monday April 27, 2015 at 1:03 PM, while being pulled for recreation, by another C.O. Sgt. Blue can be seen on camera P-dorm wing 5-Right side bottom floor making me strip naked, a 2nd time, holding my testicles up, turning around, spreading my butt and enjoying degrading and humiliating me. I didn't even go to rec after this, I stayed in and filed another grievance of reprisal. This is the 3rd grievance of reprisal against him. One is Formal #1504-213-076. approved April 15, 2015. I'll take a polygraph test to substantiate all of these allegations. In fact I'm demanding a polygraph test/voice stress analysis for myself and the recreation staff.

P-Dorm is filled with unethical staff members who profit off of inmates and their families.

This recreation crew for the past 5 years has sold death row inmates extra recreation yards for 3 to 4 in canteen items. And anyone who says I'm a liar, then bring the polygraph. I'll substantiate that.

This Sgt listed above has made threats against me, and worded it in a way, dealing with the KKK officers, to make it sound like he was threatening my mother, by

stating that I better Fear him and every one else better Fear him. Hes made threats that I better not eat my Food tray, that hes done something to it. Last wed, April 22. he seen me on the quarter deck where there is no cameras, and said I better be thankful the Doctor's out there. I need this stopped. staff should not be allowed to run around acting like a bunch of unethical criminal thugs.

I dont want to see an institutional inspector unless they have a polygraph exam, because I'm tired of "its your word against staffs" And that's all these investigations seem to be every single time.

We already know the FDOC has a low standard for hiring officers. Darren Rainey's murder, "boiled to death at the hands of correctional officers", Jordan Aparo and the other 100 inmate deaths last year, says it all for the honor and integrity of the staff members hired by the FDOC.

I'm asking you to please get this Sgt Blue and his officers under control. Thank you very much for your time and hopefully your help.

Sincerely  
Donald W. Clark
