- GOOGLE EARTH MAKES FORMAL REQUEST FOR NAME CHANGE

The Massachusetts Department of Corruption (DOC) recently hired Google Earth to do a "Satelite Security Investigation" of the prisons here in the Commonwealth. Google Earth was to take close-up photographs of the facilities from their space satelites to see if any glaring security concerns could be revealed. When Google Earth was conducting an extensive review of the facility here at ShirleyWorld they noticed what they could only decribe as a "huge walking penis" roaming the compound. With their advanced technology they were able to zoom in on the giant dick and observe that is was in fact Lt. Shameless Peckerwood that appeared as a gigantic prick. His penis shaped head fooled Google Earth and this greatly concerned them as they pride themselves on having the latest in technology. Google Earth's Security Analyst, Ima Snoop, stated, "This guard certainly has all the characteristics of a gigantic penis. His head looks like a failed circumcision with a slight genital wart deformity. This is what fooled our advanced computer analysis." Ms. Snoop went on to say, "After we did an internal "Google" search of Lt. Peckerwood we found that he appears on a prison activism blog each week. We have suggested, to the proprieter of the blog, that they change Lt. Shameless Peckerwood's name from "Peckerwood" to "Peckerhead" as he displays such a strking ressemblence to a phallice." Here at Free Speech Warrior Headquarters we must take such a suggestion, from such a powerful entity seriously. What we will do is bring the matter "to the people" and if they want "Peckerwood" to become "Peckerhead" we will report about it here at the blog. No matter our decision Lt. Shameless Peckerwood cannot escape the fact that he resembles a gigantic cock, that he acts like a dick, and has absolutely no balls with his passive agressive behavior .displays here at ShirleyWorld. This "tough guy" without a win only talks shit because he has his bitch button at his side. Problem is that the rest of the guards hate him so much, he is the brunt of so many of their personal jokes, that they may just let him catch that ass wiping he has coming. His "Peckerhead" may have Nike Swooshes deeply stomped into it; and no one - con or cop - will lose any sleep. Please vote herein for A() "Peckerwood" or B() "Peckerhead". (Check the Box)

- LT. PEPE LaDOUCHE REPLACES SUPERINTENDENT AND COMMISSIONER

In another bold display of the power of the corrupt guard's union one of ShirleyWorld's finest, Lt. Pepe LaDouche, has made an autonomous decision to usurp the power of both the superintendent and commissioner and issue his own "memorandums" on prison policy. Lt. LaDouche posted a "memo", authorized by "himself" up in the foyer of the HSU stating that prisoners must wear long pants, dress shirts, and weather appropriate clothing in order to receive their life-sustaining medications. Lt. Pepe LaDouche has, with one stroke of his pen, made it a correctional felony to wear shorts or a white t-shirt to the medication line. Past practice and regulations be damned; if Pepe says its so then it is so. We tried to reach the Ivory Tower for comment but could not get through the line of IPS passing out legal mail to access the moat and draw bridge. Her Higness did though release a "Press Statement" which stated, "I employ

nothing but the finest professionals here at ShirleyWorld; and it is a good thing as they 'run the joint' while I sit out here drinking my Earl Grey and nibbling on pettifores." You see at ShirleyWorld, where there is never any accountability, Ms. Wry-On's staff can do what they want. Lt. LaDouche can write bogus, unsanctioned policy and have CO Desire (she "desires" a deaf/dumb white man) enforce. CO Desire is "the angriest woman in corrections" (next to Lt. Urine) yet Rubber Stamp feels she is appropriate to deal with the sick and dying men in the HSU; abuse by design. Don't get me wrong, I understand that Kelly has more "misfits" than she has post positions, but that is her own doing as she disciplines no one. The 3-11 lieutenants are so close to another Joshua Messier type event, with more indictments certain, but Kelly The Queen does nothing to Peckerwood(head), McHardly and their ilk. The good news is that when it all goes wrong, which it undoubtedly will, there will be a record of it all right here on this humble blog written by this high school drop-out. The can run but they cannot hide. As Rubber Stamp prepares to go to Framingham "behind the wire" to boost her retirement percentage (which will be reported to the governor) we here at ShirleyWorld prepare for another year of late movements, cop malfeasance, owl purchases, and Peckerwood(head) idiocy. Just make sure you don't wear your gym shorts to the med line or Pepe LaDouche will have CO Desire give you twenty lashes!

- CAN ANYONE SOLVE THE 3-11 SHIFT MYSTERY? / DEPUTY DENIED-OH PERPLEXED?

With our Queen of Correctional Head-In-The-Sand "Ostrich Operations" getting ready to show us her tail feathers, we are all wondering here, "Can anyone solve the 3-11 shift mystery?" That mystery has several layers which can be described by several questions; What time is movement? How many hours should the volunteers be delayed? How many Catholic Priests should be disrespected this year? How many naps can Lt. McHardly take in the School Building (or should we say how many Sprinkler System discharges can he be responsible for)? How many suboxone parties will be held? How many gallons of homebrew will be distributed? How many games of Texas Hold-Em will be held in the blocks? How many men will have their dreams of real rehabilitation, of real educations, of seeking self-realisation dashed by the criminals who work the 3-11 shift? Deputy Denied-Oh, who is also approaching the end of her well-cushioned reign of terror, questions why any of us would even want rehabilitation? Why don't we just shut up, chow down a nice suboxone strip or two, place a bet on 3 Aces with a King kicker, and know our roles in this correctional quandry? She is indignant that a man would want to speak out. She is outraged that a man would challenge her "ah-thor-i-tay". She is perplexed that we would want to seek self-realisation. She forgets that we know who the people were who took these prison jobs thirty years ago; they were the bottom of the employment seekers ladder. Now, all these years later, they are corrections professionals; are you shittin' me? I ain't buying it. They are the ones, the Deputy Denied-Oh's and Deputy McCan't's of the world, who should just shut the F*&\$ up and take their fat paychecks

to the well of evil. We are the ones who suffer, but the sad truth is that this system is OURS, not theirs. We are the ones who this system is designed to serve so that it ultimately will serve society by reducing crime. We are sent to prison as punishment, not for punishment, and the Denied-Oh's and Wry-On's of the world know it, but just do not want to accept it. No matter what they call you, warden or superintend, guard of "officer", you will always be what you are; the bottom feeders of the employment world and the shame of law enforcement. The ShirleyWorld 3-11 shift leadership reflects your true heart; one of hatred and self loathing. If that was not true you would fix it. If that was not true maybe you would show up unannounced on a shift or two, but of course that would get in the way of Sushi dinners washed down with a good German Risling. Can anyone solve the 3-11 shift mystery? Fuck no: it is abuse by design - Indictments Imminent. God Rest The Soul of Joshua Messier.

- DEPOSED OWL DECOYS "RETIRED" TO FREE RANGE FARM / MSPCA SATIATED

The M.S.P.C.A. has had their concerns satiated by the decision of our own "Woodsy Owl", Deputy McCan't, to take down our life-like owl decoys and send them to a "free range" farm where they will be retired from hunting pigeons for the Department of Corruption. After consulting the King Of Walks and Grounds about what to do next they were instructed that it would be "the right thing to do", but that all prisoners still need to be executed for minor crimes. "If I can't drink then all cons should die, but the owls need to roam free.", said Scumlafia. Lt. Urine inquired if she could retire her "old beaver" but this idea raised some concerns from the boys at the Emerald Isle. Lt. Peckerwood(head) was seen roaming around Lunenburg and Leominster with a feather boa and Manolo Blanik high heels while shouting, "Give a hoot, don't polute.", and Rubber Stamp Wry-On reminded everyone that she will be showing us her tail feathers very soon as she flies the coop. Deputy Denied-Oh, our correrectional turkey (too bottom heavy to fly far) said that she and Woodsy McCan't will visit the owls from time to time. "These owls did as much work as anyone else employed here at ShirleyWorld so I stand in solidarity with them.", Deputy Denied-Oh stated. As we write plans are being made by many to have Lt. Urine's beaver stuffed.
