**- SHIRLEYWORLD "IVORY TOWER CONCERT SERIES" MOVED TO CLINTON DAM**

The Town of Clinton, home to some of the real corruptional heros here at ShirleyWorld, has bestowed a great honor upon this gulag by allowing Rubber Stamp Wry-On's "Ivory Tower Concert Series" to be moved to the top of the Clinton Dam in Honor of Corruptional Staff Depreciation Day. This one-time event will feature top name acts who will blare their tunes from Deputy Denied-Oh's top-of-the-line (welfare line) music program equipment out into the Village of Clinton wilds. The Main Act booked for the event is The Australian Pink Floyd which Ms. Wry-On felt was quite appropriate as Australia used to be a Prison Colony. They will play the Pink Floyd hits, "Pigs" and "Pigs On The Wing". In honor of Sgt. Bitch they will also do a "sobering" rendition of "Comfortably Numb". We also have the Friends Of Distinction booked who will sing their mega-hit "Grazing in the Green Grass" in dual honor of the Scum King of Walks & Grounds and all the convicts smoking the "Hippy Weed" down the DEF Side of the prison. Also scheduled to appear is the Etta James impersonator "GID Chucky" who will belt out Ms. James' number one chart toper "Prisoner Of Love" in honor of Lt. Urine's insatiable heart. Comic song genius Ray Stevans is also booked to sing his hits "Ahab The Arab" for the death penalty chances of the Boston Marathan Bomber and "Bridget The Midget" in honor of Sgt. Young-Un. The cost of these acts will be covered by the blood money donations made to the "Jack Daniels Wellness Fund" which was negotiated into the Union Dues at the last contract talks. MCOFU Spokeperson Neverpassedupadrink Slate-Fairy was quoted, "These concerts motivate us to beat handcuffed prisoners, break the elderly's headphones, and abuse bed-ridden dementia patients; in other words they are great for morale. We would like to thank Superintendent Wry-On for being so considerate." The Twon of Clinton will also be presenting Lt. Shameless Peckerhead with the "Key To The Public Baths", as they have heard he does much of his date shopping therein. "I don't get too much action off of [www.I'm-a-bottom.com](http://www.I'm-a-bottom.com) and have much better luck in the bathhouses and rest areas around the state.", Peckerhead was quoted as saying. The Town did though reject a proposal by CO Hasbeen to have all the male guards who viewed her photoshopped packed-orifice photo that was passed around the camp lay at the bottom of the Dam while the floods gates were opened to wash away their sins. The Town backed up its rejection by stating that there was not enough water in the water supply to wash away the sins of these fine corruptional employees. As a consolation the town will fund a Hot Dog Eating Contest - no chew/eat long way rules - with the first prize being a all expenses paid trip to Lt. Urine's Dungeon.

**- DUE PROCESS BE DAMNED - RECYCLING AT MCI SHIRLEY - WOODSY OWL**

When Rubber Stamp Wry-On received the Federal Declaration that all gulags should engage in "recycling" efforts in an attempt to leave a smaller carbon footprint she obviously was confused. This declaration, in the spirit of Woodsy Owl's "Give A Hoot - Don't Polute" campaign, was about the recycling of paper products and metals, but Ms. Wry-On took it to mean it was another opportunity to abuse prisoners and create more hopelessness at the prison. Now we know her affinity for owls as she was

the one who had to ultimately approve the fine feathered owl decoys we had here at the prison, who were eventually released to a free-range owl farm, but this time she misunderstood that "Owl Wisdom" that she had relied upon in the past. She immediately issued a "memo" which attempts to ratify the stripping of due process. She wants to give her unit team staff the authority to circumvent the disciplinary process, and its due process protections, while also circumventing state and federal law in allowing her three (3) Unit Team Sergeants (that's right "three". Can anyone remember when there were only three sergeants working in the entire prison on a shift? You would have to have an abacus to count them now!) to just visit punishment upon a prisoner for "alleged" disciplinary infractions without the benefit of due process. Now, under Ms. Wry-On's scheme (and a "scheme" it is) they can forego the disciplinary process and just act as "judge, jury, and executioner" on the spot. This is why her prison is such a failure. This is why dozens of men are "high to the tits" here each day. This is why "gallons of homebrew" are consumed each day on her watch. This is why men resort to her "sanctioned casinos" each day rather than work toward self-realisation. The gulag is the epitome of failure and Ms. Wry-On, with her 31 years of correctional Wise Owl Wisdom, affords her guards more ways to abuse prisoners. She is out of touch with any reasonable definition of modern corrections, has been nacked off by her subordinates refusal to heed her orders, and has now just decided to take the path of least resistance throwing any hope for real rehabilitation out the window. The truth always seems to reveal its ugly head with time and the truth is that our Fine Feathered, Well Healed superintendent is just like the rest of her ilk; push the wheelbarrel up to the bank and collect your blood money; public safety be damned. How can one sleep at night knowing your cut from the same cloth as Sgt. Bitch, Lt. Peckerhead, Lt. Urine and CO Scumlafia? Wouldn't you want to distinguish yourself from those social pariahs? Maybe Seconal or Ambien can bring good sleep; maybe not. Kick of your Prada pumps, swallow a red capsule, and dream of owls hovering above the Ivory Tower. Blood stains the dorms of your HSU and excrement flows through all of your gulag blocks!

**- DEPUTY DENIED-OH WINS CORRECTIONS MONTHLY MAGAZINE "FEMINIST OF THE YEAR"**

The blood soaked pages of Corrections Monthly Magazine bestowed a deep honor upon our three decade purveyor of decadence Deputy K. Denied-Oh by naming her "Feminist Of The Year". The award states; "Warden Denied-Oh has proven through her abuse, disdain, arrogance, and above-the-law operating procedures than women can be just as abusive and power-mad as men and this, to our readers, is the clearest definition of "feminism" that we could detail for a blood thirsty readership. All Hail the Queen of Mean!" It was also reported that Gloria Steinem puked all over the latest copy of Ms. Magazine she was editing when she heard the news! Our sources say that Deputy Denied-Oh has proposed a "Colosseum Type Crowd" be assembled for her SNF/ADL/HSU which could give her "thumbs up" or "thumbs down" cheers for the dying men under her care. Where is our Brutus?

"I've got to get back to my hotel room,  
where I have a date with Boticelli's niece.  
She promised to be there with me,  
when I paint my masterpiece!"
