

"BE Cool"

YOU can be cool too

The dude everyone inspires to be
knowing the Creator is the in thing
from past to present

He's called the great "I Am"

Go ahead open your bible

It's the first poem ever written

In Genesis - It will take you through valleys

Plush little havens that God hid for you

So many treasured words

Just waiting for another

Curious soul to be added

Into his book of life

So be cool & turn to the first book
