

"ELDERLY PAROLE"

Today I want to write about this new law or I should say Bill that has been being voted on since February. The bill was voted 3 times in Feb once in March 2 times in April. I haven't heard if any in May refer. Before I talk about this bill I didn't realize that when the state politicians want to make something a law they start off the votes as a Bill and if it passes then it's a law now. I didn't have a clue that it takes so many votes to yes before it's law. The only reason I even care about the process is because it's possibly going to give me a chance at my freedom. I do like the fact that I learned something about how a Bill becomes a law it's kind of cool. This Elderly Parole bill is a bill that reads like no one in inmate who is the age of 50 who has 15 years in prison done will be ~~also~~ eligible to go in front of the BPT - Board of Prison Terms for consideration of a Parole date. There isn't a lot of different things to

make you qualify. You just need the time served and be
the young age of 50. Well 50 isn't young its considered
Elderly when you turn 50. Oh if the prisoner has life
without Parole or is doing time on Death Row he
or she cant qualify Period. The reason this bill is
even up for a vote is because our prisons are overcrowded
The jails in CA are overcrowded so the Governor and
who ever else who calls the shots are doing what
it takes to ease the overcrowding. Im 45 years old
in February of 2020 I will be 50 and I will have
what 26 years in I think that's enough time for me. I
would think that being elderly with 26 years in a board
be able to go in front of the BPT for the 1st time and
get a Parole date. The problem is no prisoner no
lifer prisoner gets a Parole date on the 1st board hearing.
I would pray that on the 1st or give me a 1 year denial
and when I come back in a year the BPT gives me
a Parole date. This Elderly Parole Bill is such a good
thing for prisoners. Some people on the streets are not
aware that CA is keeping the lifer inmates in prison for
30 to 50 years on a sentence of 7 to life. 15 years to life

Its all bad ya know they just dont want you to Parole
