- DIRECTOR OF MISTREATMENT CONFIRMS "TRU COLORS" WITH BUMP IN ROAD COMMENT

The Free Speech Warrior conducted "pro se" depositions of our fine feathered superintendent Rubber Stamp Wry-On, our well cushioned deputy K. Denied-Oh, and our director of mistreatment C. Lurking, here at the prison this week. What this means is the I got to ask questions of all three of the afore-mentioned as part of civil litigation I have filed. Of course the litigation has "free speech" ramifications, as that is always at the heart of the work here, and I garnered many interesting answers from the deponants, but the most interesting "comments" came unexpectedly from the director of mistreatment C. Lurking. Many here have put forth the proposition that Ms. Lurking plays the role of "good cop" to Deputy Denied-Oh's "bad cop", and that was certainly confirmed at this weeks depositions. When asked how she would characterize my "institutional adjustment" Director Lurking stated I was, "doing pretty good until a recent 'bump in the road'". Now this "bump in the road" was the fact that I was assaulted, unprovoked, by a mental health patient here at the prison. I suffered a pretty serious injury, one which knocked my memory of out play for close to an hour, and for which I played no culpable role in. Director Lurking, in typical "jailer" mentality, made me, the victim, part of the problem. Now she is supposedly in charge of programs which teach offenders "not to blame the victim", but she herself engages in this anti-social behavior. I guess her new-age philosophy (which is just regurgitated old school gulag abuse) is "do as I say, not as I do." I got assaulted, by no fault of my own, and the director of mistreatment, under oath, blames the victim. This is ShirleyWorld in a nut shell (and the operative word is in fact "nut"). Director Lurking "read some report" and immediately came to the prejudicial conclusion that I, the victim, must have some of the burden placed upon me for blame. I received no d-report, was returned to status, and under all investigative viewpoints was assaulted by a mentally ill prisoner - an open mental health case. This "good cop", this wolf in sheep's clothing, could not keep the act up in this circumstance. Her True Colors came out: blame the victim as he is an outspoken con who won't drink the kool aid. Maybe she could ask Rubber Stamp to book Cyndi Lauper to sing her hit "True Colors" from the Alabaster Deck at the next Ivory Tower Concert series event? I am certain a scarecrow-esque likeness will be erected in Davis Square to honor the humanatarian work of the Director of Mistreatment. Such a "good cop."

- BACKWOODS INBRED REQUESTS AIR TIME FOR HIS "WORK IN THE HOLE"

As I was recently being booked into the "hole" here at ShirleyWorld for a brief overnight stay, one of the true born-in-thewoods, Caitlyn Jenner wanna-bes, CO Lady-Smith, asked if he would make the Free Speech Warrior's ShirleyWorld Updates column. Well sine he is abviously a fan I could not help but to oblige. Let me tell you a little about this correctional troll. In his hometown of Inbreeding USA he was abused for playing with his siter's dolls until the age of 10. After that he went on to deep woods games of "you show me yours and I'll show you mine" with the other boys from the neighborhood. This is what led to his desire

to work "in the hole" (no I am not talking about his Saturday night trips to P-Town). He steps up for each duty to "strip search" the men in cell No. 14. He considers himself an "equal opportunity abuser" as he likes to view the manhood of African Americans just as much as he does the caucasians. He has a real knack for "handling your boxers" and asks with such authority for you to "spread em'". When he was a boy, depressed because Dad took away his sisters Ragedy Ann doll, he could only dream of an occupation where he could "pecker check" day in and day out. CO Lady_Smith is up for the "Mass DOC Caitlyn Jenner Courage Award" for his work in beating up cons with 8 or 10 other cops by his side. After being bullied in his hometown, he would get an ice bucket challenge type bucket of cow urine dumped over his head quite often, the ability to act like a tough guy up in the hole is truly satisfying for him. Him and Sgt. Lousey (the great book denier of the segregation world) can write a memoir about how they advanced public safety through their ass-grabbing, fantasy tale spinning, and homo-erotic dreams in the Special Management Unit. Hey Sgt. Lousey, you and Chicken Little now have more in common! Your "peer" is Chicken Little, think about that. Your "peer" in Sgt. Bitch, think about that. Birds of a feather... One of the benefits of being "inbred" is that it saves on Christmas Cards. His mother is also his aunt and his sister and his brother is his father and uncle. Keep it in the family CO Lady-Smith! You'll put Hallmark out of business!!

- FREE SPEECH WARRIOR ASSAULTED / OXYGEN WASTERS CHEER (BUT NOT FOR LONG!)

This past week a mental health patient assaulted the free specch warrior causing him to sustain some failry serious head injuries. Not too big of a deal in the grand scheme of things, just a "bump in the road" as Director Lurking would call it, but it did give many of the oxygen wasters here a chnace to cheer, but not for long. You see the cannot silence the truth here. They, the dregs of humanity, can no longer hide out here in the woods. They, the scum of the earth, can no longer perpetrate their abuse upon prisoners without it being reported in the public forum. If they were smart they would have wished that my finger were broken, not my head smashed. I have a pretty large and solid melon and can take a good blow, but as you can read here my fingers are still working well and my mouth is still shouting from the rooftops. I am no worse for wear! The pigs can howl from thier sty, they can celebrate my injury, but they cannot hide the stink of their work and the filth of their lives as I will report it in so many ways. This month alone their abuse is on the pages of newsletters (Herbie Earl's death tragedy is in Graterfriends) and will be spoken about at a Harm Reduction Caucus forum. The Senate and House are getting weekly reports on what these "public servants" (I just threw up a little in my mouth) are doing. The cuts are coming, much needed lay-offs and unpaid guard/staff "furloughs" and we will cheer their loss of income here at Free

Speech Central. The Peckerheads, The Bitches, The McHardlys, and the Denied-Ohs can all rest assured that no blow to the head, no attack by the mentally challenged, can silence the cries of justice. The bell tower will continue to sound the alarm, the speaker will continue to blare the warnings, the fires will burn atop the mountains signaling the coming end of their, the jailer's, abuse. You acannot hide in the woods any longer. The Oxygen Wasters had their cheer, but it was short lived. We are back in action and the freedom of speech is stronger than ever! We will see some of you in court, others in the court of public opinion, but all of you will be SEEN!

- PIGS FLY! / HELL FREEZES OVER!! / RUBBER STAMP DOES THE RIGHT THING!!!

Thank you Superintendent Ryan.

- LATEST BOOKINGS OUT FOR IVORY TOWER CONCERT SERIES

With the new funding in for the fiscal year our Fine Feathered Fearless Leader has been able to book some new acts for the Ivory Tower Concert Series. The following bands will play live from the Alabaster Deck;

- Led Zeppelin will sing "Heartbreaker" in honor of the guard's heartbreak at my getting out of the hole so quickly.
- Pink Floyd will sing their hit "Money" in memory of the cash the guard's will lose with "their" Governor's no overtime no new hire mandates.
- The Ghost of Elvis Presley will sing "Love Me Tender" as a message from Principal B. Ho-Hum to Lt. Urine.
- Rod Stewart will sing "You Wear It Well" in celebration of Deputy Denied-Oh's Sherwin Williams Mooseknuckle capri pants.

These ongoing concerts are quite important as we all know that music soothes the savage beast. Rock on Rubber Stamp!
