

MY FRIEND

Genuine strength and happiness
Between the lines of each letter,
composing words of affection bringing
us closer together.

It truly feels like forever since I
felt so like this,
Happiness and love the true meaning of
bliss.

All the things that I miss about
having a real friend,
you bring back to my life through these
miles we transcend.

After all this hate the pseudo
love and pretend.

Your my piece of good fortune a
true godsend.

And I'm sincerely grateful for a
friend like you,
because even when I feel like giving
up you help pull me through.

Love
Kijuan
