Dear Senator Toynier

yes - me again. We need you to push the Senate and the House for a special session and bring SB 7020 back in, but please push for the body cameras. Please push for that pilot program that the House placed into SB-7020. That will turn this place around.

We need them body cameras. I don't care about privacy issues. I don't have any privacy any ways. Right now, I'm being sexually harassed and threatened by a Sgt. Blue, whose also verbally threatening me, because I'm trying to change the rules on the recreation yard. Body cameras would stop this and make him abide by Rules of Conduct 33-208.002 and its governing laws. we need these body cameras. Please Please Please push for them. and SB-7020 in a special session.

Hebrews 13:3 Remember those in prison as if you yourselves were imprisoned with them and those who are mistreated as if you yourselves were mistreated. Please Senator Toynier push for a special session on SB 7020 and the implementation of body cameras. Thank you for your time and hopefully your help. God bless you.

In Peace & Brotherly Love

Donald W. Clark Jr
