"Den of Thieves"

Page 1 of 3

On Monday May 4, 2015 I was transferred over here to Florida State Prison (FSP) Two days later my property is shipped over from Union Correctional Institution (UCI)

Missing from my property is my ear buds for my mp3-player, my headphone extension cord a pair of sunglasses and \$100 in canteen which I had just ordered using money from my birthday. And it was the property room Sgt and his staff who stole these items. For P-Dorm video of 5-wing right side bottom floor will show the property room Sgt. and wing Sgt getting me from my cell at approx 3PM Monday May 4, 2015. As I walked off the wing C.O. Duggin from the property room and two property room inmates put my property on a cart, and roll it off the wing. so they (the property room) have immediate control of my property, the camera confirms that, so anything missing was stolen by the Sgt. C.O. and inmates working in the property room.

I know what your thinking, why would a man risk his job, lively hood, his career over stealing canteen items. Well its no risk, cause you are the law, your stealing from some scumbage convicted murderer, your word is taken as gold over that convicted felon, so where's the risk? There is no risk, you have a license to steal anything you want from that scumbage inmate. Sgt. Stokes and I had our first run in, in April 2012 when he falsified a state document a Disciplinary Report (DR) and fabricated evidence

smoking tobacco, saying that he found it between the cell light and roof. He did this for a Lt. Oliver, who was doing it for higher ups. I know for a fact that there was no smoking tobacco up there, how do I know this for sure? Well if he had searched that area above the light, he would have found my water-bag, which was contraband, and been able to write me a legitimate D.R. That's how I know that not only was there no cigarette tobacco up there, but that he didn't even search that area. Furthermore he was too short to reach that area. Had anyone searched that area it would have been the sgt who was over 6 foot tall.

I knew what that D.R. was all about, it was retaliatory over my blog. It was warden Barry v. Reddishes doing. C.O. A.D. Stokes, got a promotion, for lying and falsifying a state document. yes a dishonorable unethical violation of the rules of conduct got him promoted to sgt.

Can I prove it? Not unless he and I took a polygraph exam. I'm willing, but I bet he's not.

I know a current rule that he is violating, and I know how to prove it, for he's left an electronic trail, so if he questions my honor, saying that I'm lying on him, I may file a law suit, bring everything out in court and that electronic trail will be evidence that he's a rule violator, and does not follow 33-208.002 Rules of Conduct. Hey - most officers don't

abide by the Rules and Laws that govern them.

UCI is the worse of the worst when it comes to corrupt staff, they are thieves, among thieves criminals, among criminals. They are at the heart and soul, of what is wrong with the Florida Dept of Corrections. They are why we need body cameras on Correctional Officers, and why we need annual polygraph exams, to weed the criminal element out from the F.D.O.C.

yes - a den of thieves, dishonor, unethical, corruption, a real need for SB 7020 and some real change. Hopefully on June 1-20, 2015 during the special session for the Florida Legislature they will pass SB-7020 and put in the House's Amendment for a body camera pilot program at UCI. that will one day be implemented throughout the F.D.O.C. yes - we need change, pray for it, cause God knows we need it. God bless you,

In Peace + Love

Tomie
