

"HELLO FROM MATTHEW JANKOWICZ" 12 OCT, 15

Not much happening with me. The Ontho dept. here offered to build me a \$3,500 leg brace with boot - it would extend from my left hip to my ankle & would keep my knee from collapsing, but I told them I can't afford it - so I couldn't get it. 😞 Also they X-RAYED my left hip. They said I have "SEVERE END STAGE OSTEOARTHRITIS" - I have no hip joint - its bone on bone (leg bone is meshed with my hip bone) - it looks terrible on the X-RAY. The doctor here said I need a "TITANIUM" hip. I'm still waiting to see the "ORTHO" doctor. Wish me luck. 😊
