

SHIRLEYWORLD UPDATES  
"Let The Bullets Fly!"  
Chapter LXXI

by Timothy J. Muise

\* \* \* \* \*

**- TRUTH IS STRANGER THAN FICTION AT SHIRLEYWORD - LT. URINE CUTS UP**

They say that the truth is sometimes stranger than fiction and I have echoed that theory here on the Free Speech Central blog, but this past week it was for damn sure confirmed here at the ShirleyWorld gulag. Now we all know that one of our favorite abusers here at the gulag, Lt. Kim Urine, was banned from inside duty and forced to work out front where she could not cause the level of chaos she was causing inside the wire. The "powers-that-be" got other abusive staffers to write "reports" on good ole Keep em' comin' Kim after she abused some volunteers who had come to the prison to serve their community. You see even the other gulag staffers had had it with Kim's "I'll do what I want or sue you for sex harassment" attitude and stacked all the decks against her; and no one has been more deserving. Now the boys at the Irish Times in wormtown may have an affinity for the Heidi Fleiss of Corrections but most folks in here wretch when they observe her "nothing is too good for this" self-hatred attitude. Well this past week the Free Speech Warrior was heading up to the Insecure Perimeter Service office to get some "legal mail" (more great news from the legislature by the way!) when he saw Lt. Urine heading down the walkway carrying a set of three foot long bolt cutters. Of course we had to conduct an investigation and what we have uncovered is startling! It appears that our new Director of Insecurity, Steven King Cujo, has ordered that Lt. Urine wear a 1589 Chastity Belt while she is on duty. I guess good ole Cujo felt prophylactic measures were required after he heard the tales of bedding married men and runnin she-game on her subordinates. It just became too much for Lt. Urine, she was about to burst after she was assigned a new fresh faced recruit to work "closely" with her in Outer Control. Our correctional Mae West was so frustrated that she could not tell this kid with a badge, "Come up and see me sometime.", that she had to get the Stanley bolt cutters and snip the Master Lock that conceals her not so secret garden. Well I guess with one big "snip" the beast was released and the Outer Control office became one big bacchanal the likes Caligula would have been proud of! The radios were blaring "Mop up on aisle 9." up to a work crew from ShirleyWorld Light so that they could get the clean up under way. We've seen Peep Shows in the Old Combat Zone with cleaner "booths" than this! Epic! Now I poke fun at folks for many reasons, but I should never speak about anyone's weight as I am closer to a ton than I am to a feather myself, but I do have to say Lt. Kim is getting a little "wide in the glide" so if she wins Mugsy's Harley in that Child Support Case she may have to install some new shocks with Junk In The Trunk stability; I'm just sayin? Keep scowling Lt. Urine and you can bet we will keep howling at your antics!

**- CAPTAIN SHEBERT SEND TO PASTURE / STALKING RATES PLUMMET IN GULAG**

After the embarrassment of being removed from his post as Shift Commander of the Unit Team here at ShirleyWorld our old Captain Shebert has "put in his papers" and is headed for Drool Village Retirement Home in Boca Raton, Florida. This fake ass Marine could not bear to come back to work as the "Reassignment Bitch", taking the title from our own toilet paper thief Sgt. Bitch, so he chose to just put in

his papers and hit the pasture for stud activities. I am certain that he will miss his teenager's bedroom office he kept here at ShirleyWorld where he could "grab ass" and "stalk" the female employees over in the programs building. He will also miss his walks over to CO Hasbeen's Unit where he "romanced the stone" with such fervor. He even offered to conduct a duel, pistols at thrity paces, with Sgt. Bruce Fornicator after Sgt. Fornicator displayed a "wall hanging" of transgender bloomers with the moniker "Hasbeen" emblazoned on them. Captain Shebert had put in good "stalking hours" on CO Hasbeen (to no real avail) and was not gonna let Sgt. Fornicator move in on his deadlifting debutante no matter how big a crush CO Hasbeen had on Fornicator. Now Captain Shebert will have to run his fake ass Marine stories on wheelchair bound maidens at Drool Village while wearing "Real Special Forces" "Pink Beret" to GLAD functions on the street. Possibly he could seek a position as Deputy Denied-Oh's "barge carrier" over at GardnerWorld as we are hearing she is already acting as the correctional Queen of the Nile there and is looking for staff to fan her and carry her from program to program. I have already sent a "Free Speech Kite" over to GardnerWorld letting the men know they HAVE THE RIGHT to organize meetings with the Legislature there WITHOUT the administrations approval; as we did here on October 21, 2015! It may be a good time for Captain Shebert to pin his "Latrene Cleaning Valor" medal to his chest, break out his Glock 19, and eat a lead lunch as he can no longer abuse those in his charge, which was his whole world. I can assure you that we will not miss him here. He can rest assured that his replacement, Captain Carry-Her, is making his own legacy here at the gulag and at least has not turned the office to "Marsha Brady's Boudoir" again! Don't let that gulag door hit you in that candy Marine ass on your way out Captain Shebert! Good riddance to old rubbish we say!

**- COACH WOODHEAD WORKING TO BE "TOP COP" IN ATHLETIC SUPPORTER LEAGUE**

The disgraced former Insecure Perimeter Officer, CO Woodhead, who was canned from the not-so-elite investigative force for making clean prisoner urines dirty, has now been working hard to be named "Top Cop" in his position as Athletic Supporter Staff, or ASS. You see there have been a number of events down in the gym, where Coach Woodhead is an Athletic Supporter, and our disgraced former IPS guard has been fighting crime with a renewed zeal. When elderly prisoners went down for flu shots at a clinic held in the gym Coach Woodhead sprang into action if the octogenarians got into the wrong line or dared to ask a quetsion of the nursing staff. While all the other uniformed guards stood there calm and silent Coach Woodhead took it upon himself to "patrol the parquay fllor" like Robert Parish guarding Bill Lambear. Our own Weight Room Barney Fife tried to exercise his non-existant power as a former IPS star when his job is to referee games and clean sweat off of balls (which he really enjoys). The also held a Rentry Fair in the gym and Coach Woodhead was head of the ID Task Force. He inquired of cons "What are you doing?" and

the cons replied, "Time!" Nuff said Bozo. He looked like he wanted to take the one bullet they let him have out of his pocket and fire at the "perp." When will this fool get it through his head that he is an "Athletic Supporter"? When will he realize that he now wears the Red Shirt indicative of those in charge of "balls". Put on your Pink Wrestling Singlet with the Rec Staff patch on the ass and IPS insignia on the chest and grapple your way out of the headlock your self-hatred has you in. It ain't our fault you could not buy lunch in high school. We were not the ones who stole your Cabbage Patch bike at the playground. Men are just trying to do their time, no need to manipulate urines or try to cost guys their parole. Try to put behind you the times when your coveted My Little Pony collection was muscled away from you by the neighborhood tuffs and move into the future of being a fragrant, opps I mean a flagrant, Athletic Supporter! Cup those balls tight and blow that pink whistle loud!

**- RUBBER STAMP WRY-ON TO HOLD THANKSGIVING "TURKEY" CONTEST**

Our Fine Feathered Leader, Kelly "Rubber Stamp" Wry-On has announced that she will hold the first ever "Biggest Thanksgiving Turkey" at ShirleyWorld contest. The criteria is fairly broad. You will vote for the gulag staffer you feel displays through their full ineptitude that they are the quintessential "Turkey" of the facility. What follows is a copy of the official ballot which will be passed out;

( Please select one contestant: )  
( )  
( Sgt. Bitch ( ) Lt. Urine ( ) CO Scumlafia ( ) )  
( )  
( Lt. McHardly ( ) Lt. Peckerhead ( ) CO Hasbeen ( ) )  
( )  
( Captain Stupid ( ) Coach Woodhead ( ) \_\_\_\_\_ ( ) )  
( Write In )

Now the odds on favorite is Lt. Peckerhead as he is used to getting roasted and tries to spread his wings but just can't seem to fly. He is also used being given the "bird" and has experience laying on the table and being stuffed. He gets my vote and I will campaign for others to give him the nod. The results of the contest will be reported on Free Speech Central in the near future.

More To Come...

## THE SHELL GAME

Secretary of Public Safety trying to protect his employee count.

A CURE-ARM, INC. REPORT

November 2015

I was stunned to read a letter from Daniel Bennett, Secretary of Public Safety where he “respectfully [took] issue with data underlying the research” concerning overcrowding of the Massachusetts prison system. He took exception because the state’s Special Commission to Study the Criminal Justice System recommended eliminating minimum mandatory sentencing for drug offenses and establishing presumptive parole to relieve overcrowding and the consequences of stagnant programming. He said the information they were using was too dated. What I also found interesting is that Secretary Bennett was the Chairman of the very commission whose report he faults, adding they did not have current information from one of the agencies that directly report to him – the Department of Corrections.

The kicker is that the data underlining the research he took exception to was the actually reported prison overcrowding of 136%. That very D.O.C. agency where Bennett said the situation had changed drastically- “no D.O.C. facilities currently meet the criteria for being overcrowded,”- he had changed the criteria. Rather than comparing design capacity to occupancy(which does reveal 136% overcrowding), he was now comparing occupancy capacity to occupancy. So, even though occupancy capacity violates both fire codes and building codes, it says that’s OK? How long will Secretary Bennett and the D.O.C. hide behind the cloak of “its public safety issue” to justify breaking the law.

This is just another example that creates prisoner bitterness toward authority before being pushed back in society.

Bottom line: (1) Prisons are still overcrowded. (2) The Commission’s conclusions to remove mandatory minimums and create a REAL presumptive parole system is valid. (3) The shell game of Secretary Bennett and the D.O.C. who reports to him to try to protect their employment ranks is nothing more than a manipulated statistic.
