- FREE SPEECH WARRIOR MEETS WITH "AMERICAN CORRECTIONAL ASSOCIATION"

This past week was the "American Correctional Association" accreditation audit. Now the only way I participate in this yearly torture the prisoners endeavor is by making confinement condition complaints directly to the ACA pointing out areas of concern and abuse I ask them to look at here at ShirleyWorld. Most years my legitimate complaints are ignored but low-and-behold this year the ACA auditor actually met with me for one (1) hour and heard out my concerns! You should have seen the looks on the faces of these gulag layabouts when the word spread through the camp like wildfire that "Muise" was meeting with the auditors. When Sgt. Big Chew Charlestown was walking me over for the meeting he said, "I don't know what kind of juice you got Timmy, but the auditors want to meet with you." I told Big Chew that I am not the one. I just fire back after months of pre-audit abuse. I need to tell the story: it is not the convicts that are dirty but the gulag staffers. When I got to the door of the Operations Building I was greeted by our Fine Feathered Leader herself, Rubber Stamp Wry-On. I had not tied my sneakers when I left the block as I did not yet know where I was going (I was just told to report to the 113 shack - typical prison disrespect) and I said to our Ivory Tower ruler, "If I knew I was coming to see you I would have tied my shoes!" She laughed. She then informed me that the ACA wanted to speak to me and then she herself led me to an office to wait. She was calm, cool, and collected, but the looks on the faces of the other ShirleyWorld layabouts up there said it all: they were pissed! CPO Misty Futures had a look on her face like I shot her dog. "How dare he write the ACA!", she must have been thinking. Well not only did I write them Ms. Futures but I also sent them years of DPH reports and internal memos and letters. Full disclosure on my part - full "FREE SPEECH" disclosure! The ACA auditor was pleasant and treated me with respect; he never once treated me like a con. The bottom line was that he told me that the audit process was a slam dunk, they ShirleyWorld gulag would pass no matter what, but that my complaints would cause them to get to lower score than if I had not complained. He also informed me that the record indicated it was my DPH complaints that forced the facility to build a new chowhall and that he would be making note of that in his report. He also told me some other things that will remain confidential. The last ten (10) minutes of this one hour meeting was taken up by this man, a 40 year guard/warden etc., telling me I had a special talent and that he felt I could succeed upon my release. It was kind of strange for me as you never get long-term jackboots to say all that. I had a good laugh with this man about some of the madness of corrections, madness he could now own as he is retired from the business of caging men, and we found a bit of common ground. The funny thing was I saw him the next day in the chowhall where he sat down and ate a meal with us. The guards were going wild; they were pissed. You should have heard the sergeant complaining "this is a security issue". It was a laugh riot. They never complain of "security issues" when they overcrowd this condemned chowhall. Typical ShirleyWorld bullshit. I'm not long for this prison life, I'm getting out, but I can tell you this I will make it. I will tell the story. I will expose the ugly underbelly and do my best to make a difference. They won't see me coming! FREE SPEECH 4-EVA!

- IT'S DEJA VU ALL OVER AGAIN / GROUNDHOG DAY AT SHIRLEYWORLD

No matter how many oxygen wasters they seem to hire they are always "understaffed" here at ShirleyWorld and cannot operate the prison at full capacity; the only thing that is at "full capacity" is the bodies in the beds - 144% of full capacity. Each night the close buildings, turn away outside volunteers, and find new ways not to allow us access to the programs that are only successful if the prisoner plays an active role. The prison does everything in its power to shut down activities while guards sit around playing Computer Solitaire and watching You Tube, sergeants are "sleeping it off" in the closed buildings, and nurses, counselors, PO's, and other "essential staff" are dancing the horizontal mambo in some dark backroom. We here at Free Speech Central have been making complaints about this for years but to no avail. Each year, like Yogi Berra said, is "deja vu all over again." We have our own little version of the Bill Murray movie "Groundhog Day" here; each day the same "madness" is repeated and that is the quintessential definition of insanity: doing the same thing over and over again and expecting different results. The sad news is that the "results" in this case are the 50% + recidivism rate and continued crime and violence in your cities and towns. Gulag paycheck felons drawn the state coffers of hard bled tax dollars and squander them on the diminishment of public safety. There is absolutely no accountability in the prison system. The guards and suits can do what they wish, wreckless abandon, and no one stops the Crazy Train until someone days, and then it is only a brief stop to cover tracks and get stories straight. Young Joshua Messier was murdered by long-time abusive guards at Bridgewater and then Commissioner of Correction "Luis-I-Am-Scared-SpinSir" is "disciplined" by being awarded an 87% of base pay (\$150,000.00 per year) golden parachute retirement package as long as he "does not tell where the bodies are." Fucking true crooks and murderers! Bastards!! What follows are a few pages that show the types of complaints being made about these rehabilitation "closings" and the foolish non-responsiveness of gulag staffers. Prison rehabilitation is thwarted by prison "officials" and anti-social criminal behavior is condoned; each cellblock has a sanctioned poker table and the warden can walk right by while men just keep on playing. No one cares if Church is cancelled. No one cares if volunteers are turned away at the gate after traveling miles to get here. And most tragically no one here, no one wearing a badge, cares if one young man kills another in the Mattapan corridor and beyond. We at Free Speech Central must expose these bastards in an attempt to get the animus of the people up to such a level of frustration that they will demand real change; that they will demand the heads of these paycheck thieves. Lt. Peckerhead and Lt. McHardly are just as responsible for the murder of a young man in Roxbury as is the other young man who actually pulled the trigger. We need a clean sweep; they ALL must Go! The groundhog must see his shadow!

More To Come...

Re: RESOLUTION OF PURPORTED "UNDERSTAFFING" ISSUES at MCI SHIRLEY

Dear Commissioner Spencer:

My hopes are that your office can instruct your subordinates here to begin operating the prison at full operating capacity. For close to a year this facility has operated at a limited capacity, with the law library, school, programs, and religious services, shut down on varying nights. Your experience as a former superintendent lends you the knowledge that such closures, and the inability of men to access positive activities, results in men engaging in counter-productive activities (i.e. drug use, alcohol use, tattoo art, gambling, etc.) which diminish public safety rather than enhance it.

Captain Stubbart (the evening shift commander) instructed us that Deputy Karen DiNardo had issued an "order", via email, that he not open the school building on certain nights, not open the voc ed building on other nights, and to force men to hold religious groups and programs in classrooms rather than the prison chapel. When recently questioned about the "new hires" here at the prison, creating higher staffing levels, Captain Stubbart said that Deputy DiNardo's "order" is still in place. I have to say this perplexes me. This Friday night the recreation coach "Fred" was asleep in the break-room of the school building while the gym and voc ed building were closed. There was an officer with him in the school building (who did in fact stay awake and do his job) but the rec coach was dreaming of greener pastures. Most nights when the school building is closed (especially when Sgt. McGarvey is working) there are two or three guards (a mixture of sergeants and line guards) hanging out in the break-room of the school building, but the building is still closed. Many nights we have two (2) captains patrolling the walkways (Stubbart and Hebert) but they cannot find one (1) guard to open the Chapel (voc ed bldg.) for religious services/programming. Volunteers vocally complain. Program attendance is depleted, but no one seems to care. When men from groups, volunteers, clergy, or anyone else seek answers it all seems to point back to Deputy DiNardo. Is she the new superintendent here?

With the numerous new hires here at the prison I cannot see a reason, other than guard apathy and administrative neglect, that the yard, gym,

Luis Spencer

Page 2.

school building, and voc ed (Chapel), should not be open every night. Public safety demands such. I am personally enrolled in the "Alpha Program" on Friday evenings and I have watched as attendance has declined since the Chapel was ordered closed by Deputy DiNardo on Friday nights. The volunteers are angry as they make the long trip here only to be stuck in a classroom instead of the Chapel. It is a religious program that requires the Chapel. no one here cares. We need you to care.

68% of the DOC budget goes to salary. How can there not be enough guards? You and I both know there is a 2.2 to 1 prisoners to staff ratio in your department. When the news gets out that the prison is "closed due to lack of interest" someone will have egg on their face. The buck stops with you. Please intervene.

Thank you.

Respectfully Yours,

Timothy J. Muise, #W66927  
MCI Shirley

Dear Mr. Muise:

Your letter to Commissioner Luis S. Spencer dated April 22, 2013, regarding allegations of "understaffing" issues at MCI-Shirley, has been referred to me for response.

I have reviewed your letter and offer you the following. Due to a variety of issues, a directive was issued department-wide to consolidate programming. The recreation, library, religious, and programming schedules have been reviewed and restructured to allow for appropriate space for the scheduled programming. As you note, some volunteer programs have been relocated, however, the services of recognized religion are conducted in their designated place of worship on the designated worship day(s).

Although there have been basic training classes conducted, it has not offset the staffing needs department-wide. I have spoken with the Captains and they do make rounds each shift and are available to speak with volunteers, staff, and inmates. I will not discuss the staffing of this facility with you but can assure you that all programming, recreational and religious needs are addressed in an appropriate manner.

If you have further questions, please feel free to contact me.

Sincerely,

Kelly A. Ryan  
Superintendent

Re: CLOSURE OF LIBRARY/SCHOOL BUILDING - STAFFING

Dear Superintendent Ryan:

I continue to have serious concerns and questions over the claims of "understaffing" here at MCI Shirley which is blamed for the closure of rehabilitative opportunities. Let me give you another case in point;

On Sunday afternoon, June 16, 2013, there were three (3) guards assigned to the yard [CO Williams, CO Goodsell, and CO Smeltekop]. They sat very comfortably while the school building/library was closed. Also on duty that afternoon were Lt. Irwin, Lt. Cormier, Sgt. Murphy and Sgt. Charleston. Lt. Irwin was able to make rounds and Lt. Cormier was available to conduct pat searches on the way to the yard, but not one guard could be secured to open the school building. It continues to perplex me, and I believe will perplex the taxpayers when they find out. My interests are to be able to access all rehabilitative opportunities. Partial operations, with guards basking in the sun out in the yard, diminish my quality of rehabilitation. Staff seems more concerned with excess water bottles, extra rolls of toilet paper, and antenna wires sticking out of windows than they are with rehabilitation. The attitude of your Unit Team Lieutenant is horrible and I have always been taught that attitude is reflective of leadership. It is folly to allow Deputy DiNardo to instill attitude in your unit team. Disrespect breeds disrespect, but the opposite is also true. You must set the tone.

I am asking that you please see to it that when there is adequate staff that all operations are functioning. It is very obvious to me that your staff are fully abusing these so called "understaffing" claims. There must be oversight.

I know I am probably hoping against all hope but I would ask that you ensure operations are "open" and that your unit team focuses on the bigger picture rather than being a punitive, nit-picking, attitude patrol. Thank you.

RECEIVED

JUN 19 2013

Sincerely,

Timothy J. Muisse
