

- Whats next -  
my sad heart  
burst out from my chest  
fell onto the ground  
shattered into a million little pieces  
cruel birds feasted  
and left me bleeding to death

- Echo -  
I cried out  
to my soul  
will you come home

- Gods waiting room -  
I sit in pain  
admiring how far  
my other emotions  
sit from me.

- Sick of the sickness - 9/19/15  
I need  
I want  
I crave  
Something  
anything  
relieve  
Nothing -

Death becomes me / I hide  
behind a million masks each day / TAKE away  
this flesh / I'll be free / TO fly away / toward  
the blessing of eternal darkness / where nothing follows /  
including you and them / Those who said they loved  
me / but loved me the same way that I loved  
them / half hearted and selfish / Keep portions  
of self to keep yourself company when dead -

I thought about dying last night /  
Kept me awake / without fear / tasted hope in the  
back of my throat / for the first time in  
years / I'll no longer be in soul crushing pain /

when I die / I leave behind /  
Nothing !!!!!

Keep praying Roland / one day / God  
will help you / You just got to believe / like you  
did growing up / That your parents would protect you  
from the things that scared you -
