**- LT. PECKERWOOD SEEKS MEDICAL MARIJUANA GROWERS LICENSE "UP MINIMUM"**

The Board of Licensure received an unorthodox request this week from ShirleyWorld Minimum (a/k/a MCI Shirley Medium) which was signed by none other than one of our favorite targets here at Free Speech Central: Lt. Shameless Peckerhead. It appears that the Royal Fuck-Up of Inbred Mountain-Folk Fame has petitioned the state to allow him to use the former swimming pool at ShirleyWorld Light to grow Medical Marijuana to be sold to any/all guards who wish to be well prepared for their State Police Recruitment drug tests. Under the premise of "we all must learn from our mistakes" Lt. Shameless feels no other well intentioned oxygen waster should have to suffer the embarrassing debauchle he did when he gave tainted pee-pee to his recruitment officer. Shameless feels that he could grow his own strain of "Korrections Kind Bud" up at the minimum and then sell it in the parking lot while attempting to dodge any further punches Lt. Messy-Her may throw at him. In his proposal Lt. Peckerhead detailed how Bear Killer CO Birds-Eye could guard the crop while the Rita Marley of corrections, CO Desire (recently transferred from the med line at ShirleyWorld to serve under the command of the Mishapened Head of Operations, Lt. Shameless) would serve as "bud fluffer" and "bone smoker" to test quality and potency. Shameless plans to use the CRA convicts to pick the ganja while affording them 10% of all they harvest as part of the CRA "better to relapse now than later" recovery program. All of the layabouts who claim "industrial accident" after slipping on the proverbial prison banana could get a prescription for "legal loco weed" and fill it out in the parking lot while CO Scumlafia finishes his Cabo Wabo Tequilla and electrician Count of Montitequilla finishes off the backwash of his state Budweiser. While they played "count the drunk driving convictions on CO Smith's abacus" Lt. Peckerhead could be baggin' it up and slinging the kind-bud while collecting green for the next Wellness Committee cookout. The water would come from the green water tower up on the hill which Lt. Peckerhead would emblazon with a large Weed Leaf and Badge logo and the power for the grow lights would be supplied by the solar panels which would be renamed "Reefer Reflectors". The patrol vehicles would all display the Zig Zag Man on their doors and have nothing but Bob Marley, Peter Tosh, and Jimmy Cliff playing over their radios. It would be far more conducive to successful reentry than the current system you have up there. You have the biggest fool in the system running the show with a bunch of "can't make the grade" cronies backing his every foolish move. I cannot see a reason why they should be stoned and make a profit while they destroy rehabilitation and ensure increased recidivism. We will let you know if the Provincetown Panama Red, Lt. Peckerhead, is granted his permit. Stranger things have happened!

**- SHIRLEYWORLD DATING SERVICE RECEIVES RAVE REVIEWS on BANG-A-BUM.COM**

The unique ShirleyWorld dating service recently got a truly rave review on the matchmaker rating site BANG-A-BUM.COM, which rates dating

services that cater to the "dregs of humanity and scum of the earth." One of the first customers of the ShirleyWorld Dating Service, which has been given the name "Venture Dating" (or VD" for short), was CO Yanks. He jumped on a vulnerable volunteer as she was coming off a divorce and showed her the blood money he had in his bank account due to the fact that he had absolutely no life. With dollars signs dancing in her eyes she allowe CO Yanks to "wine and dine" her at some of the finest slop houses in Central Mass. A little wine, a little cheese, and the panties were blowing in the breeze. The only problem now is that every once in a while it feels as if "someone has been sleeping in Poppa Bear's bed" as the Secret Garden seems pre-fertilized. I guess seconds are better than none CO Yanks. How romantic it was of you to send your Olive Oil photos from the Leominster Hospital! You also have the case of Nurse Ratchett who had to leave her "position" at the "Sniff" so she could play hide the salami with a married oxygen waster. He is on marriage number two, still paying child support from marriage number one, and now is footing the "Natural Ice" bill of his new Nancy The Nurse. I guess the medication thieving business was pretty good up in the HSU as you would have to be really high, whacked right out, to see any redeeming qualities in this loser. Maybe he is packing a Prison Python, but I thought that job was left up to CO Charlestown who is known as the "John Holmes of the Route 2 Corridor". We did see Coach Woodhead, dressed in his finest wrestling singlet, holding hands with Sgt. Bitch so we figure the "Venture Dating" (VD) service does not discriminate as far as sexual preference is concerned. Hopefully the site may be able to find a lasting match for Lt. Urine. Her fragile heart of granite needs lovin' too. Possibly Satan is on the prowl for a mate as they certainly have quite a bit in common!

**- CRIMINAL JUSTICE STUDENTS AFFORDED TOUR OF SHIRLEYWORLD "BULLSHIT METER"**

Our Fine Feathered Leader, Kelly "Rubber Stamp" Wry-On, has taught a Criminal Justice class at the Central Massachusetts Institute of Ivory Tower Penology for several years now. Criminal justice students from CMII are afforded tours of ShirleyWorld which are hosted by CPO Ken Tale who sends the "Bullshit Meter" over the top with his descriptions of how the prison works. These students, thinking they are coming into the TV stereotype "OZ" kind of prison, see men just trying to do the best they can while good ole Ken Tale tells em', "This is the Correctional Industries Program where the "inmates" learn job skills." Well we have never heard of one mutha-fucka who left prison and got a job sewing! He also points out the "Corruptional Recovery Academy" where "inmates" address their drug and alcohol problems. Too bad he does not tell these students that having these entry level CRA "tight pants" attempt to "fix" poly-subtsance abusers with dual-diagnosis is like trying to have a go-cart mechanic fix the Nasa Space Shuttle. You get a "Christa McCauliff" every time (sad to say). Ken Tale spins his yarn about the ESL and GED programs, but neglects to tell

the pimple faced kid that most men languish in the classes for years eating up "good time", but never getting that GED or ESL knowledge. They learn how to "manipulate the system" and I guess that is a valuable lesson as far as the DOC is concerned as they are master manipulators. The most tragic aspect of the tour was when the Free Speech Warrior himself heard Ken Tale tell the Barber Instructor, "I forgot this program was even here." Now you have to put that statement into perspective: This is the head of the CPO's (fake-ass caseworkers) who has had his position for too many years to count, who admits that he "forgot" that the only real job training program in the prison even existed! Now that is fucking Mass. "Corruptions" in a nutshell. You can be certain he did not forget where the fake-ass "Culinary Arts" "program" is, as that is where they slop the hogs like him. He did not forget where they held the "Wellness" cookouts while we are locked in our cages. And he certainly did not forget to pick up his bushel of blood money every two weeks for the past thirty years. Boy would I love to give these "students" a tour. What an education I'd give them! Rubber Stamp would have to field quite a few questions when she next taught a class at CMIITP. Her Cole Hahn wedges would feel as if she was gettin' a bit of the hot foot. Her Lord and Taylor blouse may get a bit ruffled, but at least we would begin the discussion of "truth", of "free speech", and of prisoner rights. If I could give just one tour I would buy Rubber Stamp a brand new pair of Etienne Aigner pumps in the color of her choice (I cannot afford Manolo Blahniks on my \$2.00 per day salary!) Walk a mile in these shoes...

**- THANKSGIVING "TURKEY" CONTEST / THE RESULTS ARE IN - LANDSLIDE VICTORY!**

Well the votes have been counted, checked for "hanging chads", and the official results are in! We are so very proud to announce here at Free Speech Central that the winner of the 2015 Thanksgiving "Biggest Turkey" contest is Lt. Shameless Peckerhead! (Did you really think it would be anyone else?) This was a real landslide victory as Lt. Shameless received 969 of the 1100 votes. Coming in second with 48.5 votes (one ballot was torn in half when it was slid under the door in the SMU) was Sgt. Bitch. Former Director of Insecurity Paul "I blog in secret" Hands-of-Sin even received 11 votes and he was not even on the ballot and has not worked here for months! Lt. Peckerhead will be awarded a Gift Certificate for one "Free Stuffing" at the Purple Helmet Bar and Grille in Provincetown, Mass. I am certain Lt. Shameless will be quite pleased! Congratulations Peckerhead you finally won something!

More To Come...

DEDICATION OF "THE EDWARD J. FARLEY AND JOHN COLLINS THOMAS MERTON RESOURCE CENTER AT SHIRLEY MCI"—10/21/2015

A dedication ceremony was held at Shirley MCI on 10/21/2015. Shirley MCI is the only prison ITMS Chapter in the world. John P. Collins began the chapter in July, 2013 after receiving a letter from inmate, Shawn Fisher to speak about Thomas Merton. During chapter meetings the members have been reading Thomas Merton's books--- *New Seeds of Contemplation* and *The Sign of Jonas*. Early in 2015, John reached out to the ITMS membership for donations of books and media materials to create a Thomas Merton resource center for the inmates. The Edward Farley family members made a large donation of over 30 boxes of books, media materials and Thomas Merton papers. There were donations from many ITMS members from the United States, Canada and the Netherlands.

On 10/21/15 there was an unveiling of the center materials and a keynote address by Michael W. Higgins, ITMS President to gathered inmates, members of the John Collins and Edward Farley families, members of the prison administration and prison security personnel. In attendance also, was Brooke Anderson, a special guest of Michael Higgins. Brooke is a Vancouver painter and art therapist who has volunteered in the prison system of British Columbia since 2007. There was a dedication of a new altar for the chapel (Our Lady of Guadalupe) and inside the altar were placed the names of the many volunteers who have served the inmates over the years.

The address by Michael Higgins was entitled "Random Musings on a Religious Genius –Outlier, Prophet and Contemplative." Papers and remarks were made by the following inmates: Timothy J. Muise, Shawn Fisher, Joseph Labriola, Michael Skinner and Jeremy Hayes.

John Collins greeted and introduced guests, Deacon Arthur Rogers led the prayer services and Peggy Farley spoke about her father Edward Farley and his many years of dedication to ITMS. Nancy Collins who is the associate director of the Merton Chapter gave the final reflections.

Reporter Tanya Connor covered the event for The Catholic Free Press.
