## Crushing Islamic State created 16 Jan. '16 by Nate A. Lindell

As much as good people want to ignore it, the truth about Islam is that Muhammad spread Islam through war. People converted or died. Consider these passages from the Qur'an:

"Let not the believers take the unbelievers for friends..."

Surah III 128

"Therefore, let those fight in the way of Allah, who sell this world's life for the hereafter; and whoever fights in the way of Allah, then be he slain or be he victorious, We shall grant him a mighty reward."

Surah IV 174

"Fight those who do not believe in Allah... nor follow the religion of truth... until they pay the tax in acknowledgement of superiority and they are in a state of subjection."

Surah IX 129

Contrary to the lies some Muslims tell non-believers (whom Muslims believe it's okay to lie to), terrorism comes naturally to sincere, true believers of their religion.

That is what non-Muslims are up against, like it or not.

The Qur'an tells Muslims to "slay the idolaters wherever you find them and take them captives..." Surah IX 15 and even supposedly modern Muslim countries like Saudi Arabia chop the hands off of thieves. It's no surprise to non-idiots that Islamic State rapes 10 year old girls, uses/sells narcotics + does mass killings.

They don't look at us as human + we must return the favor.

The C.I.A. needs to have their muzzle removed when it comes to any supporters of Islamic State. Who's the only Presidential candidate who you think will do this? **Trump.**

I know Trump ain't gonna do shit for a convicted murderer like me, but I don't think the world revolves around me. Besides, none

of the candidates are gonna show me any love.

Donald Trump is the only one with enough balls to have mentioned punishing the families of Muslim terrorists who do suicide attacks. Those humanoids would think twice if we do that, because they feel a duty to their families.

Those Islamic State refugees.... They need to fight for their freedom, as our founders fought for theirs. The CIA should be arming + training them to spy on + destroy Islamic State strongholds + members. If they won't fight for their homeland, what the fuck do we want them + their candy-ass genes in our melting pot for?!

As for the suckers in our own country who think peace is possible with Islamic State, they bring to mind "The Walking Dead", the end of season 5, where Rick Grimes asked, "... how many of you do I gotta kill to save your lives?" to a group who'd been living easy. Maybe the suckers want to convert to Islam, but I'm staying Atheistic.

Bombs are not enough for us humans to win this war. Nor are a bunch of ground troops. What we need—along with bombs + troops to guard base camps—are specialists like SEALs, who can go in a dozen deep + take out a company of Islamic State fuck boys! Let them go nuts, no rules—put Islamic State support<sup>ers</sup> on stakes, publicly execute them. Those pacifists who are uncomfortable w/ this, you are only safe to feel that way + express those feelings because others are willing to do what you aren't: fight.

We didn't have to put British soldiers on stakes or punish their families to free ourselves from them, because British soldiers weren't suicide bombers, child rapists, etc. Islamic State fighters are not a typical enemy, + typical tactics won't stop them. This isn't even like fighting a RICO organization (they care about \$).

Unfortunately, Islamic State will always be... somewhere, because Islam will always be here + all Islamic State is is believers with the balls to act on their beliefs.
