- DRASTIC INCREASE IN GUARD SUICIDES / MASSCORR TO BUILD COFFINS

All the major news outlets have been reporting that there has been a significant increase in the suicide rate amongst the guards here in Massachusetts. Over the cheers bellowing from the ShirleyWorld cellblocks an announcement was made by the Commissioner of Corruption that MassCorr, the "guards in disguise" industry gaff, will begin to build coffins with MCOFU emblazoned on the lid. "In this down economy it only makes sense for us to provide coffins for these dolts who eat their glocks.", Ms. Care-All Wiggins O'Cryin said in her formal press statement. MCOFU spokesperson Hasan Ben Sobah countered her remarks by declaring, "If the DOC is going to supply the coffins they should at least allow us to choose such models as the "Kiss" coffin Gene Simmons was selling." The head of DOC Psyche Services, Mary Warner, stated, "It seems the problem is being blamed on PTSD from the stress of sleeping, watching YouTube Videos, and playing computer solitaire. No one has proposed that when "keeping men in cages" is your job it eats you from the inside out as the real issue." Quite insightful on the part of Ms. Warner if I do say so myself. The Men in the CRA Unit E-2 are brewing up a batch of Home Brew to celebrate the jackboot genocide while the Suboxone Squad down in the F-Block will be donating a 32nd of a strip to all the oxygen wasters who need to be referred to the DOC's "Stress Unit", otherwise known as the "Pussy Patrol". Dr. Bob Frapples of the American Prison Experiment (APE) suggested that the DOC should limit the amount of ammunition they supply to "one" "Barney Fife" round just in case any of these YouTube Cecil B. DeMille's try to go all "Columbine" on us. In a prime example of preparation ShirleyWorld Psyche Services Counselor "Big Red" will anonymously "see" guards thinking of having a 9mm sandwich and take their measurements for a MassCorr pine box. She will arrange to have the slogan "He walked the toughest beat in the state. Now he walks with Satan" routered into the side panels. CO Scumlafia, in deep shit again we hear, will be in charge of the wakes. He will pass out bottles of Jim Beam, Jose Cuervo, and the ShirleyWorld favorite Grey Goose to all attendees only asking in return a ride home so he don't take another pinch for drivin' while blind. Just in case good ole' Mark decides to eat a Hollow-Point Grinder they have lined up his roaddog Electrician Count of MonteTequilla to fill his shit-bag shoes. Those two souses never saw a New Year's Eve checkpoint they could get through. We here at Free Speech Central have absolutely no sympathy for these gulag guards as we see each and everyday why they choose to chew lead. Years of abusing other human beings destroys your soul to the point that death seems a better option than another role call! Good choice men!

- GUARDS STAND BY AND WATCH AS OLD MAN IS BEAT NEAR DEATH / EXPOSURE

Last week a younger prisoner attacked an older prisoner over a turn in the microwave in Unit A-1. The problem is that the wise and all knowing "professionals" of the ShirleyWorld upper echelon came up

with a truly brilliant plan to deny men their property in the unit which means no one has their overpriced "hot pots" to make their morning coffee forcing 90 prisoners to share one microwave oven. They know it will "boil over" (pun intended) and it did. The truly sad part in this instance was that an elderly prisoner got his head beat in, putting him into a coma, while the lazy, YouTube watching oxygen wasters stood by and watched; disregarding their duty to break the fight up. They actual were smiling afterwards and making fun of the old man who got his brains spilled, calling him an old "skinner" and old "ripper". The consummate professionals (and then the media wonders why they eat their guns??). The good news in this situation is that the "cameras in the unit caught all of this, and the police have secured the footage, and those oxygen wasting jackboots who thought it was all funny may be in a bit of a pickle, which suits them pretty well as we have heard they may be a couple of pickle-smoochers anyway. Free Speech Central has contacted members of the legislature and let them know the footage exists. Too many employees here were afforded the opportunity to view it so too many lies would have to be told to try to make it look like no camera footage exists; which is standard operating procedure for these above-the-law dolts. The old man lays intubated while the cowardly guards who let the young con beat him near death watch YouTube. The 90 plus men in the unit have no hot pots, no TV's (even thought the own them) and no chance of any type of "protection" if they grow old in prison. These jackbooted Sgt. Stedenko's, piss running down their trouser leg, do all within their power to act like "law enforcement" but at every turn drive their Jackie Gleason "Smokey and the Bandit" wrecks of a life off the proverbial lemmings cliff. These deep woods, New England version of the "Red Neck" or the "Peckerwood" (or "Peckerhead" as the case may be) are the Keystone Cops of Law enforcement. Their shananigans are anything but funny as they are the creators of recidivism and the harbingers of future crime. They laugh when old men are beaten, they abuse dementia patients in the hospital, they beat up handcuffed prisoners, and they cart their bloodmoney away from the taxpayer coffers like Sgt. Bitch carting condiments away from the visiting room: epic proportions. Let's hope this time these oxygen wasters suffer some real punishment, but if they don't the chances are that someday they may eat their Sig Sauer. One can only hope!

- FORMER SHIRLEYWORLD "DICTATOR OF INSECURITY" NAMED WARDEN OF WOMEN

The former Dictator of Insecurity, and Internet Troll, here at the ShirleyWorld Gulag, Paul Hands-Of-Sin, was named "Head Pimp" or as they ladies at FraminghamWorld now call him "Warden Huggy Bear". They have provided him with a white fur coat, purple wide-brim stetson w/ peacock feather, and Red Sedan DeVille to go along with his new position and all the suits here at the gulag believe he will keep a "strong pimp

hand" when dealing with the battered, abused, and traumatized women in Framingham. It was reported to Free Speech Central that this Internet Troll has already been reviewing some of the facebook pages of women in that gulag and doing his usual coward's "leaving of anonymous comments". A few specific examples were provided: "Meet me at the gym and wear your best grannie panties." "Come to my office and we can review your 'reentry' needs." and "I'll let you have that contraband Playgirl magazine of you take a look at some of the 'head shots' I took of myself." Trust and believe there is gonna be some interludes in the inner office with the Ignoramus of the Internet, the Weakling of the WorldWideWeb, the Douche of the Dark Net at the helm. He used to leave comments on the Free Speech Blog under the coward's hideout moniker of "Paul", which many of the readers felt a-"paul"-ing, but that is par for the course for someone who has made their living off of the misery of others. Public Servant my big white ass, more like public scurvy. Now he is going to "Rule Over" a bunch of drug addicted women who were given prison time instead of treatment and a bunch of battered spouses who now get battered by wardens like this shirt and tie piece of crap. Have you no shame? When we let the super-sleuths at Internal affairs know that good ole "Paul" was attempting to communicate with a prisoner through the internet this correctional coward put his mouse back in his pocket and stuck to cruising www.bicurious.com for entertainment. He'll get his \$105,000.00 while the women at the gulag get lackluster reentry services and sent to topic specific housing units which have absolutely nothing to do with their key reentry issues. Typical DOC restructuring. It is also rumored that he plans to take over Rubber Stamp Wry-On's Job Search Program where women were provided with nice clothing and job search support. The difference is that Warden Hands-Of-Sin will force the girls to try on the clothes in his office while a little red light flashes on and off on his statue of "Humanitarian of the Year"; videos to be seen on www.prisonpimp.com at a later date. He also plans to bring in some new programs and activities. You will have "Wet T-Shirt Volleyball" and "Spin The Bottle Discussion Group". A capital gains request was approved by Commissioner Wiggins O'Cryin for a 8' long, 3" diameter brass pole to be installed floor to ceiling in Pimpin' Paul's office. Ladies can try out for "Industries", "Computer Class", and "Toast-masters" by shaking their "money makers" on Paul's Pole. MPCH nurses have installed a "Viagra" and "Cialis" bubble gum machine on his desk and Trojan Inc. donated a ten year supply of their new "Thin For Him" model prophylactic. Pimpin' Paul's good pal here at ShirleyWorld, Lt. Kim Urine, has donated one of her 55 gallon drums of penicillin for his use just in case he catches a case of the "Helmet Rot" while "counseling" one of the sex abuse survivors there at the prison. Caligula and Bachus would be propud of good ole Pimpin' Paul! We will be praying for the girls at FraminghamWorld as God knows they are going to need it!

- BRILLIANT PLANS TO REDUCE POPULATION AT SHIRLEYWORLD / A REAL HAT TRICK

The ShirleyWorld "Brain Trust" really has gotten their shit together

as of late. They have come up with some truly brilliant ideas to reduce the overcrowding here at the gulag. Let me elaborate. The first plan is to refuse to pass out winter hats to the population. Now keep in mind that three times a day men must venture out into the winter weather to go to the chowhall. If you live in the E or F Block the journey is close to a half mile back-n-forth. Now Deputy McCan't (he McCan't find enough foolish and absurd policies to enforce) knows that the numerous gray-haired octogenarians we have here will possibly catch fatal cases of pneumonia and be "pronounced" dead at Leominster Hospital as no one ever dies at the prison. When the old men hit the deck they will have the gulag's biggest humanitarian (humanitarian in the sense of "asshole") CO Scumlafia scrape them up off the asphalt with his plastic snow shovels while issuing them d-reports for disrupting the abnormal operations of the prison. The second plan is to place Sgt. Bitch in charge of the Hospital Unit's "sniff" (smells like death) where he can place pillows over the face of the dementia patients and then claim someone "One Flew Over The Cuckoo's Nested" them. He would be the Dr. Mengela of the gulag and could load up on the extra toilet paper and ketchup packets the dead dementia patients would leave behind. The third plan to reduce the population is to place the Coward of the County, Lt. Shameless Peckerhead, in charge to of the Work Crews that leave the minimum or ShirleyWorld Light as well like to call it. They would change the name of these trips to "One Way Work trips" as with Shitbag Shameless in charge you can rest assured men would go out but fail to report back as Pink Peckerhead would have all the trip logs and rosters fucked up. All three plans sound pretty solid to us here at Free Speech Central and I am certain they could pull it off. I would suggest that they allow Lt. K. Urine to attempt to "bang" a few cons to death but that may be perceived as "cruel and unusual"!

- CO KERRI SWILLER "APPEALING" HER DISCIPLINE / CO TOM-ASS SET TO LIE

Show a boob, loose your grove! Well it seems things have "cum to a head" for CO Kerri "Love a Con" Swiller as the DOC has attempted to terminate her employment and hold back her "blood money" pension. We have also heard that her "partner" from Unit C-2, CO TOM-ASS, will testify that he "saw no evil, heard no evil, spoke no evil" while he asked "How High?" when CO Swiller ordered him to "jump" when she ruled over him on the unit. CO Swiller's convict latin lover disappeared from the camp and it appears CO Swiller was "resting" at the Doctor Ruth Health Spa for Overactive Libidos. This is the worst thing to happen to CO Swiller since she fell out of the Ungly Tree hitting every branch on the way down. Never had the pleasure of seeing one of her "mommy glands" but apparantly they are something to behold! How her exhibitionism was worth her pension!
