

Donny Welch on the U.S.A. being Sold Out

The American people have been sold out by the politicians. The American dream has been pawned. Sadly our elected officials are more interested in what they can get out of being in office than in what they can do for the people who voted for them. The citizens of this country now treat elections as if they are a sports contest. They are only interested in which team wins, the team Democrat or Republican.

Our rights are being stripped from us one at a time. All of our politicians are thieves, liars and con-artists. A very large part of our population lives pay check to pay check. Our public school system is a laughing stock compared to what it used to be. In this country you are either rich, poor, or very poor.

Our politicians don't work for us, they work for the large companies of the world. I will guarantee you that 90% of all the laws that have been passed in the last 20 or 30 years benefit the corporations more than the people. If you doubt it just look into what it is a lobbyist does, it is a way for the politicians to accept legal bribes.

The worst part of all of this we don't have anyone to blame but ourselves. I remember when we used to be proud to be American. We used to say the Pledge of Allegiance in school. If you really don't believe me then I challenge you to test it. During the next presidential election don't vote, none of you go to the polls. I promise you that if not one single citizen votes we will still have a new president. They will just pick the one the corporations/rich want in office.
