

## Am I good enough for your Crumbs

Sometimes I wonder what is really wrong with people. Do they really realize how their action affect others. First I want to start with the church folks. They can be some of the most hypocritical and judgmental people you ever meet. She ~~is~~ shouldn't went to prison. Look at wanting somebody to send her money and packages. I ain't sending her nothing up in there, you can just suffer. All my uncles are pastor of a church. I call this particular uncle that is my favorite. He told me over the phone. I am not sending my money up in no prison. My heart was crush because he said he loves the Lord and he gets up in minister to a congregation every week. I've went to my own church for help I have reach out to numerous church folks only for them to slam the door in my face. We can't help you. I've went to people who have millions of Dollars. Guess what they slammed the door in my face. Some of the folks in the church accused that they believe all inmates are Schumer. So they can't help me.

I have two pairs of socks in my locker. I have to wash one pair if I want to have a clean pair. I don't get store like others. So I been hungry by 8:00 at night because we ~~at~~

Am I good enough for your crumbs

eat at 3:00 pm, so I ~~remember~~ went next door to ~~ask~~ other inmates. Do you have something to eat. They gave me some bread that they took out of the dining hall. Every night I pinch off that bread and drink some water. I've been homeless but not without <sup>food</sup> for a long period of time. I said how many people pass the homeless and hungry by. Feeling like they are not good enough for their crumbs. What people fail to realize; that same storm. That you rejoice or judge that person concerning might be you the next day, week or year. Then the person you wouldn't help might be the same person who help you that you rejected. Once again I am going to reach out for help. I understand that nobody is obligated to no one. But when you help the helpless. you will be blessed. I need money and packages. The state does not take of us like everyone think they do. The amount of the money orders do not matter. I need help for real. I am not somebody who plays games. That's not my motto. My motto is better myself. You can send money order to: Jennifer Johnson GDC 939685 E-2A
