

ANOTHER MASS SHOOTING

Pg 1.

December 3, 2015

Once again I send my deepest regards to the victims and the victims families who lost their love ones to gun violence in America, at the Inland Regional Center in San Bernardino, California.

I will also like to take time to send my regards to those touch by the shootings in France and Colorado Springs.

These shootings are becoming so routine, I am unable to comment on all of them, it's just too many! That is a scary reality. What's happening in our world? It appears gun lobbyist and terrorist are thriving at the expense of lives being taken by gun violence!

Lawmakers should be ashamed of themselves! Why are people who are not law enforcement nor military allowed to purchase assault rifles? This can be eliminated with common sense gun control. Most of our lawmakers appear to have no interest in keeping us safe. Do they really care? Or does their personal interest trump our safety? The number of mass shootings continues to rise. But our lawmakers continue to turn their heads. I guess

Pg 2.

we live in the "United states of the National Rifle Association"!!! Unbelievable!!! shame on you congress!!!

PELICAN BAY STATE PRISON
UNIT B-5

stay Prayed up!

SINCERELY,

PERRIE THOMPSON
