

February 18, 2016

Attention my viewers.

Election time is coming up. Due to I am a convicted felon, I don't have the privilege to vote. But I do have a voice. We need a president who care about us (the people) and needs of the people. We do not need nobody who is selling the people anything they want to hear. Then get in chair to only do the opposite.

If I could vote ~~█~~

Hillary Clinton would be the one

She is sincere and pure.

It doesn't matter that she is woman. Actually women can be very strong and firm.

Look at who has the most backbone these days. Women - they will stand through any storm.

Now guys, guys don't take this as I am stereotype between genders. So don't take it personal. This just my opinion. ☺

film academy to double female Minority members by 2020

Mrs. Cheryl Boone Isaacs film academy president says that despite the organization's internal efforts towards inclusion, a ~~second~~ second year of all whites acting Oscar nominees made her think ("we need to step this up.")

- I feel people don't like the spotlight on them unless it's all good. Cheryl knew what she was doing by having all whites on the board. She didn't think nobody was going to call her out. By adding three new seats to its board of governors. Ok; you add three blacks. But you still have all the old members that are white. With the same mindset. That is not going to change nothing even if they add three ~~more~~ blacks. Listen closely to me; who is boycotting the Oscar because of lack of diversity among nominees. In order for this diversity to fully enter. That whole board of governors is going to have to be broken down completely. (Started afresh). You might even have to get rid of the president. Mainly because she is a leader. She should have not allowed names like this no way. Or because this mindset of only white for so long. ~~opened~~ If everybody would open their eyes, right now. Cheryl just gave everyone who is boycotting the Oscar enough to get them off her back. Come on we are not promise to live till 2020. Adding three new board seats, is not enough. Cheryl need to break down that board completely and rebuild it by mixing up the places on the board. If she can't do that. They need to get a new president and all new board members. So that diverse can flow correctly.

Do not back down from boycotting the Oscar. Any other awards that does this. For so long the white has been getting awards giving all the credibility for something black ~~done~~ have done.

Cont'd

If you look back in history (Black). There was a lot of blacks who invented things but instead the white man got all the credibility. Any movie that is made it takes team work. Every body that made that film is important because each person played a part.

Come on people lets give honor where it is due. I am pretty sure that you want recognition for your work. These people who are boycotting wants the same for ~~the~~ their race. Every race matter. No one race is more important than the next. We all are special.

So ~~shady~~ Cheeyl Bonnie needs to correct this ASAP. Stop thinking the blacks are slow. I am not. you need to break that board down ASAP. Get it right. cause you playing games 2020. for real. That is real. come on. three new seats. come on. for real. That is stupidity.
