The Donald Trump Phenomenon, Clarified.

When I saw Trump's speeches + heard him in interviews, it struck me that his time on The Apprentice was preparation for his campaign. "Definitely a lot of bureaucrats need firing," I thought.

The media couldn't spit Trump's dick out of their mouths. Maybe the thought he'd be a neo-lib in Rep. disguise, like Shillary, because Trump was on T.V. and from N.Y. But then they realized he was serious about the border, crushing I.S.I.S. + ending shitty trade deals.

Establishment neo-cons (artists) figured Trump's flame would burn out. Then panicked when their sweet-nothing campaigns got unpimped. Trump was channelling their fury at pukes like "W" + all the neo-con Senators who hadn't fixed illegal immig., bad trade deals, etc., which neo-cons didn't fix because of special interest agreements.

Shit, at first Trump got so much air, he didn't need to buy ads. Apparently the media realized that, too late, + on 24 Feb Rubio got more air time on ABC, CBS + NBC than Trump, even though Trump won more than twice the votes + delegates as Rubio. The media was trying to pump Rubio, anyone but Trump.

"WTF," I wondered, "was George Stephanopoulos even considered a journalist for?" I wondered, after acting as Bill Clinton's hatchet man + scaring off women coming forward about Bill's kinky ways. The guy should be locked up for intimidating witnesses/victims, not pronouncing "news."

CBS was pretty impartial, Nora O'Donnell incisive yet fair. Willie Geist + Paula Faris were reasonable, but their co-workers went rabidly at Trump, trying to argue + push lies, like that Trump was really for the Iraq war (he answered "I guess so" to Stern's question of whether or not we should invade, + Trump later decided "no"), "praised" Hussein + Putin (he recognized they were strong leaders)

Then Whoopi Goldberg's racist ass yelled to Paula Faris on 'The Talk' that she couldn't help but get angry about Trump because he was racist. It's racist for Whoopi to assume all Blacks are ill-tempered nappy-headed ho's like her. Dr. Carson + his Black conservatives support Trum, sista. Dig it! Plenty of Blacks support Trump, + he supports them, like the one who stomped a white Bitch protester (invader - no speech rights at a private rally + heckler's veto is illegal in public venues) in Tucson.

Trump, chill. You got a hot wife. She'll be a great first lady. Don't let your emotions fuck you up + fuck America up too.
