I feel her in a way that's "hard"
to comprehend, honestly she could be
my "forever friend" who I'd give my
heart and soul to, or would never except
it back, simply because (Rebel Wilson) is
my version of (Anastasia) from ("Fifty Shades
of Grey")!!!

When she smiles, I can hear a symphony
playing that's meant for me, hearing her voice
does something, that moves through out, the
depths of my soul, we could be a script in a
"Morie" and of course she'd play lead role!!

How does she have me, needing her like the
(air) I breathe, I'm captivated by her "voluptuous"
(body) and sense of style, skin is most likely soft
as (silk), together we'd conquer this life time
and beyond simply because she'd except me, for
me and know my past doesn't define our
destiny; beautiful in every sense of the word
just being (her) has brought out the best in
me, I'm willing to give her more than the
usual "era"!!
