I'm tuned in an callin out to  
you, hoping that you'd grasp the  
concept of love, loveing you 4eva  
and never gettin tired, or giveing into  
what he say, or she say and believeing  
in what we all search for happiness with  
that special someone, If she can feel me...

I practice patience, plus attentive  
♥ear cause you're "everything" to me  
that's why I except you, the way you are  
loveing your curves, the thickness and  
relentless, when I'm giving you all of ere  
our body colliding like the waves of  
the ocean; vs in motion, running a  
marathon and I'm thirsty, so I drink  
of you, thank you, spank you, my aim  
is to help her reach the highest  
of heights and seal it with a long  
kiss good night, "If she can feel me"...
