

# Politics

As far as politics goes, I believe in lower taxes, and less government intrusion into our daily lives. I know from an insiders view, that America as a Nation incarcerates, way to many people and for the health and future of our country that needs to stop. I also don't believe that prisoners should be cut-off from communicating with the free world.

But really, I love life right now, and can't wait to get up in the morning to see what I can learn or accomplish. Seize the moment!

I know that prison can be a stepping-stone to success, and we should always look for the opportunities in life and NOT the obstacles...
