 When I wake before the crack of dawn - I can feel you getting up with me, despite the three hour time difference. It makes me happy that you've decided to sleep in and dream of me 😊

What color to paint the Bell Peppers, Green or Red or a mixture of the two it all depends on the colors in the background and the brightness of your light. You learn a few things about yourself in these places, some you've just forgotten, others you don't want to remember but you need to learn everything about yourself before you can move on with your life.

I love you little sis, I would like to hear from you.

Sometimes I just need someone to help me hear the voice at bay. With all my love, Dad; with all my love, your brother; with all my love, your uncle; with all my love, your lover forever & ever.

A good painting is like looking into a mirror, the glass is the same, but the reflection in it changes with time.

I'm starting to do another painting of my Mom and Dad pressed to the nines out clubbing in a photograph dated 1942 wow so handsome they were together. Mom said she still love him until the day she die 40 years later.

4-6-16: I've sure been feeling down the last few days as if someone has die - I don't know why - maybe one of my meals making me all emotional

Things I value in a friend: someone I can talk to about anything, someone I can always depend on, and someone I can enjoy life with.

4-21-16 I when over to Central Health and got an ultrasound exam. on my big vein running up my right leg and side. I like the telemed Doctor - she won't be around long. I don't think the doctor here are allowed to practice medicine. Three Strikes Initiative needs to get registered voters to sign their Petition to change it to exclude non violent felons. www.choose1.org. Remember it cost of a \$100,000 a year to keep one person

My love, My Heart, My Jeanne: Sweet morning my love. It is cold here in the cell this morning and I can feel the warmth of your body against mine. I can almost feel you lips kissing my neck and ear, I miss cuddling with you my sweet love. It rained all day yesterday and it was the first day and a long time I was able to walk alone and day-dream with you in a long time. I love thinking of your sweet smile as it almost always bring a smile to my face and happiness to my heart. A couple of days ago on California's Gold they had the Cliff House, they were talking about the Dangerous Water along the shore line under it. I can still remember the time we went there when you were at S.F.U. I would like to find a picture of the Cliff House so I could paint it - I would paint you there. I love you and I miss you - I'm not getting nearly as much time with you as I need - as I would like ☺ I have to go to work in a few minute - thinking about you ☺ I love you more everyday - we are always together
Forever + Ever

Thankless Job

I listen to headphones
while ignoring other workers
I threaten to damage
their lost team morale

where work is shallow
the days are long

we have no shortage
of stupid ass worker
all of the bosses
are even more stupid

must be quitting time
because I just quit
