3	29-Attempting to commit any of the above offenses, making plans to commit any of the above offenses or aiding another person to commit any of the above offenses shall be considered the same as the commission of the offense itself

**Description of Offense(s)**

On Wednesday March 23, 2016 an investigation was initiated regarding gathered intelligence suggesting an alleged plan involving several inmates at MCI Shirley to attempt to build a computer, which they intended to utilize, if able, to hack into and disrupt the computer system of the Massachusetts Department of Correction.

Through the investigative process to include the use of verbal testimony, physical evidence and confidential informant information, it was established that inmate Timothy Muise W66927 was complicit in an activity which was concluded to have the goal of disrupting the orderly operations of the Department of Correction. Specifically, it was concluded that inmate Muise conspired with inmates Michael Serra W106173 and Shawn Fisher W58410 under Muise's leadership while utilizing the technical knowledge of inmate Serra. Muise, Serra, and Fisher were participants in a computer learning group at MCI Shirley, and as members had access to a closed e-mail network that was established for participants of the class. During the investigation of the alleged plan to build a computer, several communications between these inmates were discovered on March 22, 2016. These communications were consistent with the gathered information and intelligence which indicated that the inmates had planned to use a "cyber-nuke" (it was determined through the interview process that a cyber-nuke is a virus that will affect multiple individuals or an organization all at once) to access, infect and disrupt the orderly operations of the Department of Correction.

On January 12, 2016 inmate Muise send an e-mail to inmate Fisher which stated, "To agitate, to disrupt, and to resist is our duty".

On February 10, 2016 inmate Muise sent an e-mail to inmate Fisher which stated, "The nuke will be launched. Batten your hatches".

On February 24, 2016 inmate Fisher sent an e-mail to inmate Serra which stated, "Do you think everything will be ready with the nuke? By the time everything works out you will be a legend here".

On March 1, 2016 inmate Muise sent an e-mail to inmate Serra which stated, "We are certainly glad to have your input". Serra replied "Great to be part of the movement".

On March 4, 2016 inmate Serra sent an e-mail entitled "Dooms Day Project" to inmate Fisher which stated, "Well if things don't go off as everyone has planned then hopefully baring detection by our illustrious commander then we should be all set for launch, I can't wait to see how they scramble."
