

PHASE III

Testimony Before the Public Safety Committee

Thank you so much for your support of Phase I and Phase II of this process to include the voice of the informed prisoner in the push for effective Harm Reduction and Public Safety advancements. Your involvement thus far has been invaluable to us.

The next aspect of this long overdue effort will be Phase III where prisoners will actually travel to the State House and testify. We have some men who are ready at this time to come before the Public Safety Committee and offer testimony and be questioned concerning the truths of the prison system in Massachusetts. This will afford the committee a well-rounded view of what needs to be done to bring hope to a very hopeless system.

Can you please immediately advocate for the men here who are prepared to appear before the Public Safety Committee in this upcoming Legislative Session. They can be ready to go at a moment's notice. These men are true experts in prison policy application and what is required to have real rehabilitation offered in the prisons of Massachusetts.

Please contact me directly at my address below and let me know what we can do here to help you make this happen? Trust and believe that we will not let you down and we know the committee will be impressed with what we have to offer.

Thank you for your time and continued support. Please get back to me at your earliest possible convenience. I will be very anxiously awaiting your reply. I am,

Respectfully Yours,
