 Every line iz dope verse coincide wit Kiloz
 Overdose it curt even close flow tight az speedo's
 Talk about a ego my head big az somolanz
 Plus da kid hungry spit grungy like its fac again
 Everytime niggaz see me comin in like its again
 Give dudez no breathin room monopolize da Oxyg-in
 But no blockin him move mountains u need va
 Show em who da truth chitz da reason day believe me
 Pursuin perfection wont slow down till I catch up
 At dat point no rest up just get on my next stuff
 Futur I been next up since I was 16
 Day still out ready for me like winter in da Spring
 Change da balance of nature Make em full before Summer
 What number iz wyld what I make da World wonder
 Sleepin on Da great too long awake from ya Slumber
 Prepare for da day da world day overcome ya
 I'm like Napoleon on petroleum Alexander type Commander
 Modern day Hannibal wit horse power and hammers
 And I'm ruled by da fingerz dat day pointin at me
 Day say date du bud guy I say exactly
 Take a good look da curiz age curwin
 I place u niggaz in da presence of a legend
 All hail da King long live da great
 Golden boy of da golden State from da border to da golden gate
 Who passin cross da passage prepare to pay da taxes
 Stay ready to play cuz state want I practice
 Sheet dis shit efficiently foul wyld in da clutch
 Accash wit chee linez d'lined by my teeth
 Huntin da war in 12 sid of me habitually spit history
 Scorch me z blister burni rape pistol rete
