I know... free drugs in co-ed prisons?

And now we're gunna be raising puppies too? You just gotta love liberal democracies! Now there is something I can do too as a puppy whisperer

Attaching the POCM application for y'all to see I'm not dying of boredom silently here in purgatory! Be it teaching thugs to think, or creating a commotion to draw attention to the hostile Muslim chaplain here.

At 53 yrs., I'm approaching my 20yr mile marker in prison still living life as if I were 30 yrs old, stirring it up.

It's going to be interesting to see if this opportunity to domesticate puppies actually serves to domesticate me. The irony of it is... ludicrous. The apparent futility of ennobling my own species has ennobled me, and now — domesticating creatures may just finally domesticate me too!

Life is a trip, isn't it? Anyone care to order a couple books off Amazon or somewhere, pointing out puppy training techniques I may share with others?

Inmate Trainers Questionnaire

6-7-16

Inmate's Name WILLIAM GOEMER CDC# K-77832

This Questionnaire is for the sole purpose of matching trainers with appropriate puppy/dogs.

1. Have you ever had a puppy/dog? Yes or No
2. If you have owned a puppy/dog, have you trained it yourself? Yes or No
Explain:
Family pets as a kid, basic obedience training: sit, stay, shake paws, etc. — Beagle / Springer Spaniel. Adolescent kid, trained Kennel 'Guard Dogs' — Shepherds mostly.
3. Have your experiences with puppies/dogs been positive? Yes or No Explain:
Is it possible for anyone applying to ever answer NO? Of course my experiences are all positive! 20 yrs in prison now, one of the things I miss most is puppy breathe
4. Are you willing to take on the responsibility of a challenging puppy/dog? Yes or No

5. What is your expected release date? Never! Consecutive 25 to life x2

6. Why are you volunteering for this project and what do you expect from your participation?

I've spent the last 28 months establishing a Scientology group here at A-Facility, endeavoring to present an opportunity for all involved to develop responsibility for their condition of existence within their zones of influence. I believe the penological system must evolve into a new era of restorative justice which will actually rehabilitate the Ability to be responsible, rather than to continue simply warehousing criminals.

This POOCH program seems to be a practical means of doing just that, while also contributing to citizens in need of service dogs.

I am an ideal candidate for this POOCH program I think; either as a dog handler, facilitator or consultant. Puppies (as well as prisoners) are social animals which function optimally in any group of two or more with a common purpose. When that purpose is WORK (i.e. the use of effort), the ideal conditioning will appeal to the playful relationship of being Cause and/or Effect. Communicating the effort's involved determines which roles are played in the group dynamics.

Obviously as a SNY Prisoner (11 of 19 yrs) here at MCSP, its evident I dont function well with the bestial prison thug 'purpose' — yet my C-file reveals a number of LTAG certificates/chronos substantiating my effort to contribute to ennobling 'cognitive purpose' in group settings — as does my efforts these past 28 months to introduce Scientology technology here.

I've been disciplinary-free more than 5 yrs.; I'm 3rd-watch Yard Crew. My work and personal ethics are exceptional; I've been single cell these past 28 months; I apply myself to philosophy, religious, social studies, and I'm currently involved in several correspondence courses (Houses of Healing / Criminia / Scientology); I draw and write; And of course I enjoy instigating responsibility.

I think Sgt. Priest probably knows me best, if you'd like a character reference from staff. And Tracy Scott knows me pretty well too, if you'd like a prisoners point of view.

Thank you for your time and consideration in this matter. I truly would like to help ensure the success of this program.
