

# WANT TO RAVE

4 MRE weekend 2016  
Blog entry 4

I had got ~~the~~ a hold of A star June 27, 2016 And US Weekly June 27, 2016 magazine from a white supremacy next door to me Name Jeff. well! it's spelled different, But you don't need to know that. I've seen most of the gowns before I lost my level 4. The level 4 allow you to get the state issue to v. turn on. How did I loose it. It didn't really matter. you know these animals up in here always fucking people over anyway they can.

Just... for the moment... I would love to loose myself up into my Aes.thetic (Love of Beauty) addition. It's my sick mind that blocks my - No! hinder my indulgent in my addiction. Oh!! god...

MY FASHION GOSPEL GOSSIP

I just fish over a men fitness July/Aug. 2016 with Jessica A. in a 2 piece bikini. It only gives up two pics. I with her legs in the pool and a back shot with her in the pool. well... you'll have to see it.

But on first thought, I want to fuck... you think she'd let me... if she did. I guess... that would be one of those secrets a man want to keep to himself... I would be hot ass well, if the pussy it's hella loose... Like!!! what the fuck... Bummer!!! How can a hot ass ho like her,,, have a loose pussy...

I wouldn't say her Name... I promise... But,,, I'm telling the world, about how I fuck this mega hot ass super-star. HO,,, that has a really loose, lousy front and back door. If her stuff is good,,, she's going to always come out on top. who want get please... from India short-short to Africa mu. Jambale... and she will always have at least one orgasm... what about Jeff... well... we have a deal... it's good for the both of us... He don't call me the "N" world and I want remind him that he's an animal or parasite. Everything else I just try to ignore... well... really, because I just ain't got the time for it.

Christina M. (Christy) for short. Unless she was drop as a baby then I guess it would be Tina for short... HA!!! ha!!! nah!!! In this purple haze Anya Liesenk with sandals or is it waggies... Oh! I can't remember. I hope it's a or I want to be daring and adventurous moment and not an expression of that black sick in the head girls philosophy... she just want to be with her dad.

I'll hate to read about Christy catching one in a entertainment magazine... shit!! Baby... I want beat your ass... I'll do something worse... cut you loose after I fuck you real good... But she'll look good in anyone of those numbers. Shit!! Christy... you, Lupita (chocolate - so sweet chocolate complexion) Saoirse, Victoria, Ashley are all Gaea (Earth Goddess) I know you're into that Latin thing.

# WANT TO RAVE

Why embrace part of who you are? Have you ever thought that - Just maybe, that Latin Cuba thing was into you. The Asiatic/African Vibe... Bring that African/Caribbean American Vibe to the scene... Not the one that's out to Dominate and feed off us. But the one that spark the Cuban Revolution. Yeah!! Their may have been some bad things that happen during that revolution. But, The one Universal thing that happen for the good, is that - It, took, A good step towards ending Slavery and Racism, in Cuba. IS Their still Racism their... well! most likely.

But, so is it here in the U.S. Europe and most likely every white or Black Capitalist Nation... God!! Christy I bend you taste so sweet...!

Good God... Bella!!! Babe girl... If you ever leave the weekend and is looking for the complete year (me) I would love to invite you, Celenia G., Lindsay, your sister Gigi, Kate U. And a few others, on a trip to a very hot, TROPICAL deserted island where the only garments needed is, Latex Thugs, and feet wear. I wouldn't want a blue lagoon thing happening (No babies... please...) or y'all getting those horrible tan lines... and... oh!! yes... I promise to put the Best Junior Body work-out on y'all... but... lets just remember... what happens at the island stays at the island. And just to make it fair... I'll be the only GUY there! That's! If I ever get out of here...

Kylie J. IS so hot now... She's 18 and Brad... I was watching Keeping up with the K's since it first came on... she may not be a vicky chick, like her sexy ass sister Kendall... But she is that pin up with the choker. Her mother and sisters said she wasn't model material... But, I saw some thing different. She's that rare Beauty that you hardly ever find... would I fuck... most importantly is the question, would I allow my addiction to take hold of me and admire her Beauty... Kendall... I don't want to admire so much... I simply would love fucking her until we're dripping with sweat... and her hot ass is begging me not to put her in a different sex position and work on her ass for another hour or so... Goddess... Kendall... I'm the Jigger man you would have to beg to stop f\* \* \* \* \* you... what was Carrie underw wearing at the CMT's... A Black hot lace something, in 2 inch plate with a 4 inch veil. I liked it... The sandals insinuate her feet. But she played it safe with the under garments... Babe... if you're going to be risque... That's the area you ~~want~~ would want to do it in... what!!! your not mature and responsible enough to explain to children what you do... A little Jolo wardrobe malfunction in the country music scene will not cause the world to end. Maybe, it is the man you're with... Maybe you need a little spice of chocolate in your life... But I must warn you... if you choose me... I'm a Polygamous...!

I WORK THAT BODY TIRE, FATIGUE...

I GUESS I WOULD BE LOOKING OVER MY SHOULDER FOR THE  
REST OF MY LIFE IF I LEAVE THEM...

# RANT TO RAVE

but, in all truth... I Blog because it's a healthy way for me to express and get rid of my frustration.

It's an escape from the cruelty I'm trapped in. Our age don't define ~~whether~~ whether we peoples of this world that's over the age of 21 to which we can say that we are adults.

It's our ability to be responsible, open minded, mature and logical that do...

If, we as American, world citizens, don't value our 2nd Amendment right to protect ourselves when our governments and sometimes ourselves place our lives at risk by a legitimate mistake, then one day we won't be able to save a love one like Christina G. from meeting a horrible fate.

It's our logic and maturity that keeps us from killing each other. Knives, Rocks, Bats and so on can be use as an instrument of death ~~but~~ and it's our logic and maturity that keeps us from picking up whatever we can get our hands on to kill ~~each~~ each other with that define us as adults.

Well... I guess I better figure out how can I get myself out of here and arrange a situation to which I can talk Lucy H. or celenia G. into getting into the sack with me... at the same time...

What do you think I am...? An idiot...?
