

DEAR B+B VISITORS,

July 1, 2016

"Prison Letters 4 Our Struggling Youth" is an organization dedicated to dismantling the cradle to prison pipeline.

This organization takes letters written by inmates, and read them to at risk youth. They believe these letters will help save some lives and prevent our youth from ending up in prison.

So I ask the B+B visitors, to send the address below to other inmates on the B+B site, and encourage them to get in touch with this organization, and write a few words of encouragement to our youth. we may not save them all, but lets try!
