

People like "Paul", who make their living off of keeping men in cages, are the biggest liars in our society. Timothy Muisse was voted by a unanimous vote to be the Outreach Coordinator for the Lifers' Group, Inc., and received an ovation when the news was released at the Norfolk Lifers' Group General Membership meeting. Tim Muisse was asked by the Board of Directors to help promote the work of the group by posting Lifers' Group materials on the internet. He was also asked to reach out for community support of the efforts. Tim takes this task very seriously and liars like Paul and his ilk will not derail the work.

"Paul" thinks his skills at opening a dictionary and defining words are sharp, well maybe he can hone them a bit more by looking up: "Internet Troll", "coward", and "Dry Drunk". Men in prison are striving to change while the "Pauls" of the correction system are filling ever more with hatred. I'm sorry people took your lunch money in High School Paul, but it was not me.

People are "helping" with the Norfolk Chronicles; it is a "team" effort, but "Paul" would not know anything about that as all the young women he works with use him for the brunt of their jokes and he is far from a member of any team. Just take that drink you have been dying for and get beat up at a Poppa Chubby concert.
